BELGIUM was the general subject for the meeting of Chapter A of the P. E. O. Sisterhood, held yesterday afternoon at the pleasant home of Mrs. C. R. Davis, 727 Schuyler street. There was a large attendance and a number of interesting visitors. The outstanding feature of the afternoon was the paper on the "Music and Art of Belgium," given by Mrs. J. H. Murphy. "Belgium, Past and Present," was the subject of an excellent paper written by Miss Marion Cole and read by Mrs. W. P. Jones. Miss Marjorie Lewis told many interesting things concerning the industries of Belgium, and Mrs. T. H. Edwards gave an entertaining paper on the "Social Customs and Fete Days." Mrs. William Hull read a report of the supreme convention recently held in Los Angeles. Mrs. Kops, a member of Chapter 80 of Maywood, Ill., who is spending a few days in Portland, on her way home from the supreme convention, spoke on the activities of the Chicago chapters. Following the program refreshments were served. The hostess was assisted by Miss Peters and Miss Constance Davis.

Lord and Lady Aberdeen Speak.

The effort to awaken Ireland to its needs along lines of health, civic betterment, native industries and intellectual pursuits, formed the basis of a lecture given last evening at the Hotel by Lord and Lady Aberdeen. Her general subject was the "Woman's National Health Association," but she introduced interesting facts concerning the many uplift movements in which she is interested. She paid special tribute to the splendid work of the Woman's Christian Temperance Union. Preceding this lecture Lord Aberdeen spoke for some time on his experiences as viceroy, giving amusing incidents in his life and in the lives of his father, Lord Aberdeen and the late Queen Victoria.

Do You Read Labels?

Domestic science teachers and food authorities are urging the housewife to carefully read the labels on all food articles.

The laws of most States compel food manufacturers to print the ingredients of their products on the label, and this enables consumers to distinguish healthful foods from those which may be deleterious.

High-grade baking powders are made of pure cream of tartar, derived from grapes. Royal Baking Powder is a type of the highest grade. It is healthful beyond a doubt and the safest and best to use.

The low-grade baking powders are made from alum, a mineral acid salt, or phosphate of lime.

Consumers can learn the character of the baking powder by referring to the label, which must state whether the contents include cream of tartar, alum or phosphate.

PREPARING THE TURKEY

The turkey may be killed and plucked several days before it is to be prepared for roasting. If you buy your turkey, select a good fat hen with smooth black legs and soft loose spurs. The breasts should be full and the flesh plump and white.

The turkey should be fattened with the proper food, but in order to be in prime cooking condition should be kept without food for 12 hours before it is killed. It should be carefully bled and hung from six to eight hours before plucking. The superiority of the dry plucked bird over the scalded one is very marked.

The turkey should be drawn by the cook, not the butcher. If a good flavored clean bird is desired. It is easy to draw any fowl so as to remove the intestines, gizzards, etc., intact. After the head and feet are cut off, the turkey should be singed, drawn and wiped well with a damp cloth.

In cutting to remove the crop, cut the skin on the back of the neck, fold back, loosen crop and windpipe and pull out without breaking. The cut for drawing the intestines should be made straight across just below the breast bone and should be no larger than is positively necessary. With the left hand loosen the membrane about the neck of the bird just below where the crop has been; with the right, separate the membrane from the inside of the turkey until sufficiently loosened, so if the gizzard is pulled steadily, all of the organs come out together. Then cut about the vent with a

sharp knife, pushing the end of the intestine back, and slip the whole thing out intact. Carefully cut out the oil sack at the back just above the tail and remove the fat about the intestines. To wash, scald the inside with boiling hot water. To wash is to lessen the flavor and lose some of the soluble albumen desired in the turkey, to soak in cold water is to toughen the bird and make it tasteless.

THANKSGIVING MENUS

The following menus are suggested for the Thanksgiving feast: This first one is planned on a semi-elaborate scale; oysters canape, tomato bouillon with coursons, roast turkey with oyster dressing, cranberry jelly, sweet and Irish potatoes, spinach with drawn butter, celery, vegetable salad of beets, carrots and potatoes, dried, served in lettuce nests garnished with peas and dressed with mayonnaise, ice cream with rich potato cake (recipe given below), bonbons, nuts, raisins and black coffee.

This second menu is more simple: oyster soup, salted wafers, roast turkey, chestnut dressing, celery hearts, olives, mashed potatoes, sugar peas, hot rolls, tomato salad with asparagus tips, French dressing, mince pie, nuts, raisins and black coffee. A pleasing centerpiece for the Thanksgiving table is a large golden pumpkin filled with red apples, white grapes and nuts.

POTATO CAKE—2 cups of sugar, 1/2

THE WEATHER—More rain and wind is the program for tomorrow.

cup of butter, 1 cup hot mashed potatoes, 1 cup of chocolate, 2 cups of sifted flour, 2 teaspoonful of baking powder, 4 eggs or five if two whites are saved for frosting, 1/2 cup of milk, 1 teaspoonful each of cinnamon, cloves (scant) and nutmeg, 1 cup chopped walnuts. Cream together sugar, butter and potatoes, add to beaten yolks, add milk, sift in flour, baking powder and spices and fold well beaten whites in lastly. Bake in pans lined in buttered paper, either in deep layers, loaf or biscuit pan. White icing is best with the cake. The recipe will make one large loaf cake and small cake or three large layers. Bake slowly loaf cake about 45 minutes, layers about 20 minutes. This cake is very rich and moist. If carefully made will keep deliciously fresh for a week or 10 days in cake box.

THANKSGIVING IN THE MARKETS

Probably no city offers to its people a greater variety of tempting eatables with which to make up the annual Thanksgiving feast than does Portland. The finest of turkeys, ducks, geese and chickens are being offered at reasonable prices. The vegetable market offers everything from the homely potato to "imported" asparagus, but the wise housewife will select for her dinner the vegetables grown right here in Oregon. They are fresher and better than the things brought in from other states. The fruit market is a riot of delicious colors and odors, apples, pears, oranges, lemons, grapes of several kinds and Alligator pears are all to be had. The new packs of dates, raisins and figs are in, as are also the new crops of nuts. Mince meat and pumpkins are offered. This is but a suggestion of what the market really has to offer. If you would really enjoy your Thanksgiving, make a trip to market yourself tomorrow.

The Long Chances—vs. The Sure Thing

The wily Dutchman who bought Manhattan Island for \$24 got a fairly good "buy" as things go—though you yourself can get as much undeveloped land in South America for less.

Manhattan looks cheap today at almost any price because the Dutchman's judgment has been approved by so many people since.

Lots of things are being printed in magazines today which may be as entertaining and as well written and altogether worth while as those you are sure to find in Cosmopolitan.

But it hasn't been proved. Editing a magazine the Cosmopolitan way costs us a great deal of money—and costs you nothing.

On the whole we prefer Broadway to South America!

There Is But One Pianola

Made Only By the Aeolian Company Sold Exclusively By Our Stores

¶ The success and widespread acceptance of the Pianola has led the press and others to use its name as a term for all player-pianos. The chief sufferer from this confusion is the purchaser, who, supposing he is buying the famous Pianola, secures instead merely an ordinary player-piano.

¶ Before buying, you should understand that the Pianola was the first player-piano—that it is an exclusive product of The Aeolian Company—that its sales exceed the sales of any of its imitators—that it has been exclusively indorsed by practically every musical authority of the present day—and that it is the only player-piano which enables the untrained performer to duplicate the playing of a skilled pianist.

¶ The Pianola line embraces only six Pianos—the Steinway, Weber, Steck, Stuyvesant, Wheelock, and Stroud. Prices from \$575. Purchasable on moderate monthly payments and liberal allowance made on your present piano taken in exchange.

Bright Light Globes On Cars Are Stolen

P. R. L. & P. Notes That Bulbs Disappear Almost as Fast as Put in Place; Plan Is Changed.

Discouragement has greeted the efforts of the Portland Railway, Light & Power company to brighten up its cars at night with high resistance electric lamps. When these bright lights were installed on the cars, especially on the St. Johns and North Twenty-third street runs, it was found that almost as fast as they were put on, they would disappear again. The company's secret service sleuths were put on the trail, but unearthed no miscreants.

It is assumed that the cars were looted of their lamps at the barns, many of which are too small to house all the cars that work from these divisions centers. Some of the cars, parked outside at night, were among those equipped with the new lamps. The company has now ordered that the light globes be taken out of cars that cannot be accommodated inside the barns. The globes are locked up to be put back on the car before time to take it out in the morning.

Six Turkeys Will Be Given Away

By some plan that gives each member a chance to win, six turkeys will be distributed among Ad club members at the club luncheon in the Multnomah hotel tomorrow noon. Dr. Frank L. Loveland will speak on "Thanksgiving." A real genuine tramp who knows what real trouble is, is going to tell us what he has to be thankful for even though a tramp," concludes the announcement.

ants. That big department store, whose window always depicts sports so attractively has a splendid line of pennants—some of them quite inexpensive—others ranging up to several dollars.

HAVE YOU BEEN in the fifth floor picture department and lovely rooms of gift suggestions of that department store that has recently made so many artistic additions? There are reproductions of old masterpieces—with dull gilt frames—that cost less than half a dollar. There are charming bronzes busts that cost less than \$1.50—candle sticks, book ends and no end of lovely pictures.

AXMINSTER RUGS of a size to be used in hall or bedroom are being shown in the big seventh floor of a downtown department store at unexpectedly low prices. These are worthy of your investigation.

CUT GLASS FOR THE THANKSGIVING TABLE—Cruets, nappies, compots, water tumblers—the thousand and one little bits that add so much to the table—are being offered

at attractive reductions in the basement of the big downtown department store.
