

Social and Personal BY NONA LAWLER

THIS evening the Thursday night subscription dance will be the event of special interest. This is the second party for this season to be given by this club, which is made up of the younger set and the young married set of society.

Prior to the dance there will be several dinner parties, one of which will be given by Miss Rhoda Rumein. Of the many events planned for this week the great majority of affairs have been postponed owing to the unusual snowstorm.

Miss Nellie Hart has asked a number of girls of the younger set out to her home on Riverside drive to a bridge tea tomorrow afternoon, which will be given if the weather permits.

Yesterday afternoon Mrs. C. S. Jackson entertained at her home on Main street with a "Piedmont party," asking guests for four tables at bridge and a number of additional guests for tea.

A function which is being happily anticipated is the subscription dance to be given Thursday, January 20, at the first of a series of affairs which is being planned. The following women constitute the general committee in charge of the affair.

Mrs. Fred Seller entertained yesterday afternoon with a luncheon in honor of Miss Irma Wolff, of San Francisco. Circulating the attractively decorated board were: Miss Wolfe, Mrs. Sanford Lowengart, Mrs. William H. Ehrman, Mrs. Edna Hirsch, Mrs. Henry Metzger, Mrs. Albert Schweitzer, Mrs. Sigfried Hayman of New York.

GRANDMA NEVER LET HER HAIR GET GRAY. When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 10 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application of two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

is expected to take place next Saturday at 11 a. m.

M. E. Church Spends A Big Sum for Work. Bishop Cooke Says Report Will Show Expenditure of \$1,500,000 in Past Four Years. That it will be reported to the general conference that \$1,500,000 has been raised in the Pacific northwest for the uses of the Methodist church in the last four years, was a statement of Bishop R. J. Cooke's address at Centenary church Tuesday night. The address was made before a get-together meeting of Methodists, following a meeting of 25 delegates who will attend the general conference at Syracuse, N. Y., next May. Of the amount raised, Bishop Cooke said \$500,000 had been for Willamette university and \$270,000 for Puget Sound university. Among the things that were discussed by the delegates were the conferring of veto power of bishops, the consolidation of the Methodist Episcopal church and the Methodist Church South, and the advisability of having bishops of the race and language of the people they are to serve. A committee composed of Rev. E. M. Randall of Seattle, Rev. J. Gilliland of Idaho and Robert Higgins of Portland was appointed to refute a statement made in a Portland evening newspaper that the sentiment of the meeting was against Bishop Cooke.

200 Persons to Help In Digging Channel

One Day's Labor Will be Donated by Each in the Columbia Slough-Columbia River Project. By a plan formulated at a joint meeting of committees of the North Portland Commercial club and the Columbia Slough Development league Tuesday night a train will be chartered from the O-W, R. & N. Co. from St. Johns to Troutdale to convey about 200 persons who will donate one day's labor in digging a channel from the head of the Columbia slough to the Columbia river, about two miles west of Troutdale.

The distance from the head of the slough to the river is about 200 feet. At the deepest place a six foot cut will be made. The fall of the proposed channel will be about four feet. By this channel a strong current will be converted through the slough. A fare of 50 cents round trip will be charged to offset the expense of chartering the train. Residents from Kenton, Woodlawn, St. Johns and any on the peninsula who are interested in the proposition will board the train at St. Johns. Although not definitely settled the date will probably be January 29.

THE age of compulsion is health is near. This statement may sound strange to those who have not given the subject any thought. It might be assumed that it is not necessary to compel people to be healthy and strong when good health is within their reach. They ought to have a natural desire for good health. They do, for the desire for physical strength and vigor is inherent—but through ignorance or negligence many fail to follow rules which promote normal physical conditions. They will eventually find themselves compelled to obey established health rules.

In this land a free education is offered to every child. In many communities similar advantages are provided for grown-ups. The value of an education is not disputed, yet it has become necessary to make education compulsory. Laws have been enacted to bring children under the influence of the public educational system. Without them many children failed to secure an education, even though the sanction of their parents, which is hardly conceivable, would have been obtained in educating the new generation. When you think of the two propositions there is nothing unusual in making health compulsory.

The age of compulsory health has actually dawned. The dawn is so gradual that the brilliancy of the coming day is as yet merely a dream. But dreams of this character come true, for they are based upon realities and action. The nation, states and communities have been incorporating health rules

Fumigation of Books Urged as Safeguard

Many Cases of Grip Transmitted by Means of Circulating Library, Says City Bacteriologist. The circulation of library books is undoubtedly the cause of many cases of the grip now prevalent, according to Emil F. Pernot, city bacteriologist. There are now more than a dozen cases of grip or influenza in the hospitals and many cases being treated outside of the hospital.

Sanitary laws are merely a part of the program to enforce health rules. Rules of the same character are steadily slipping into statutes. Other laws are being enacted which make good health and recovery from disease optional with the individual. Eventually many of these optional laws may be made compulsory. It is not at all likely that disease and sickness will ever be eliminated from the list of human misfortunes. They are factors in human life. But both may be reduced to a minimum by the observance of health rules. And when health rules are incorporated in laws, they become doubly effective.

Don't Merely "Stop" a Cough

Stop the Thing That Causes It and the Cough Will Stop Itself. A cough is really one of our best friends. It warns us that there is an inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—beal the inflamed membrane. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Pinex is a highly concentrated compound of Norway pine extract, rich in vitamin, and is famous all over the world for its healing effect on the membranes. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and don't accept any other. A guarantee of absolute relief, or money promptly refunded, goes with this preparation. The Woman Gives

By OWEN JOHNSON Author of The Varmint, Stover at Yale The Salamander Yes,—this story of Owen Johnson's is about you—which is one reason there's been such a rush for it.

There's nothing spectacular or overdrawn in it. It is just real. The people in it are flesh-and-blood people like you. Their likes and dislikes—their wants, their passions—their sorrows are yours. The life of New York today is full of big stories—only waiting to be told. There are as many in upper Fifth Avenue as in Lincoln Square—only the shades are more apt to be down. "The Woman Gives" isn't a "problem story" in any sense. It's just a plain tale of facts as they are in the lives of men and women today. It moves fast—is exciting and entertaining as is all Owen Johnson's work. Likewise—it's a big story and it isn't handled with gloves. You owe yourself the February
