DAUGHTER IN BUSINESS.

Never be afraid to ask a sensible question. Too many mistakes have been made in business by girls, especially those who have not been at work long, by not fully understanding what was wanted of them and desiring to ask to be told more fully.

Many hold the opinion that the one who can grasp a situation readily, and not have to ask any questions, is particularly bright; and girls often think they will not appear to the best advantage if they do not grasp at once what is wanted; yet it is the one who never makes mistakes that is appreciated more than the one who apparently grasps the situation, but it not sure enough to do properly what is wanted of her.

There is no use in appearing to know unless one does, for the truth is sure to come out and the situation will be more embarrassing than if one had asked in the first place. The girl who is interested in her work and awake to learn all she can about it is not apt to ask unreasonable questions, and the one who will make the greatest success of her work will have courage to ask enough questions to comprehend the work that is given her to do.

ESCALLOPED ONIONS.

1 quart onions;
1 cup milk;
1 tablespoon butter;
1 tablespoon flour;
1 1/2 teaspoons salt;
1 cup green or fresh breadcrumbs.
Dash pepper.

Peel the onions and lay in cold water at once. Put in saucepan over fire with boiling water enough to cover; add teaspoon salt, boil until tender, without a cover. Brush a bake dish with melted butter, lay the boiled onions in and cover with cream sauce made as follows:

Put 1 tablespoon butter in saucepan, and, when melted, add the flour, 1/2 teaspoon salt and pepper; then add the milk slowly; stir until smooth and creamy, and boil 2 minutes.

Pour this over the onions, melt the remainder of the butter, mix with breadcrumbs and spread over the onions. Bake until light brown.

NEEDLE NOTES

When doing embroidery or plain sewing, if the thread begins to fray or knot, slip the needle next to the work, take hold of the end of the thread and twist it. Treated thus, the thread seldom breaks.

Or if your thread twists when sewing, when you take the needle from the spool, hold each end firmly and stretch the thread two or three times as tight as you can without breaking it, and it will not twist any more.

Alcohol is a fine thing to take old oil and dust out of a sewing machine. Hold a small piece of absorbent cotton in a small pair of pliers and dip it in the alcohol and with it one can easily reach in around the cogs and wheels.

When drawn work wears out, sew a piece of insertion over it and cut the goods away from under.

PRACTICAL SUGGESTIONS

Keep two clean sheets of wrapping paper on hand for sifting flour. Sift into one sheet, then place sifter on other sheet and make paper in which you have sifted flour, funnel shape, and shake back into sifter. Prevents

waste of flour and saves time. Best results in sifting flour three times. It adds to mix thoroughly flour, baking powder and other dry ingredients, and is quickly done with the aid of the two sheets of clean paper.

FROM MME. LA MODE.

The French woman of fashion hesitates to adopt a high bust corset. Redingotes of extreme length are said to be coming, with short cutaway fronts.

Black velvet and chiffon are very successfully combined in afternoon dresses.

The little child's hat may have a soft, not very full ruffle of lace around the face.

There is no doubt that the waistline is growing tighter as the season advances.

The most fashionable petticoat in Paris is made of rows of black net flouncings.

TODAY'S BEAUTY TALK

You can make a delightful shampoo with very little effort and for a very trifling cost if you get from your druggist a package of canthrox and dissolve a teaspoonful in a cup of hot water. Your shampoo is now ready. Just pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes all dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a softness that makes it seem heavier than it is, and takes on a rich luster and a softness that make arranging it a pleasure.

BELLANS

Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

Nervous Periodical Headaches

This trouble commonly called "stitch headache," is said to be due to the retention of urea in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition; and in certain cases, no doubt this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellchmidt of Louisville, has found anti-kamnia tablets give prompt and satisfactory relief. Rest should be insisted upon, he says, "and the patient should go to bed, darken the room, and all the attendants and family should be as quiet as possible. An emetic will sometimes shorten the attack. The bowels should be kept open with 'Antacid'; a hot bath and a thorough rub-down with a coarse towel often give grateful relief. Two anti-kamnia tablets when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting. These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unequalled for nervous headaches, neuralgia and all pains.
