

SHIPS IN THE FOG... GOLDEN GATE FEARING... HULK DRIFTING IN FOG... Steam Schooner Excelsior, Rammed by Harvard, Is a Floating Menace.

S. S. BEAR ARRIVES SAFELY

Government to Hold Investigation; Four Men Are Injured by Escaping Steam.

San Francisco, Cal., Feb. 8.—Three four-masted and a drifting menace to vessels in the heavy fog outside the head, the wrecked steam schooner Excelsior, into which the tubular Harvard crashed early last evening, is being sought this morning. Four of the crew of the Excelsior are being sent out into the water, and a preliminary investigation is under way to fix responsibility for the mishap.

Several vessels were drifting in the fog at the harbor entrance early today, fearing to come in on account of the danger of striking the drifting hulk, the location of which could not be determined.

Three tugs were attempting to tow the damaged Excelsior to Sausalito late last evening when the hulk, pulled by a heavy tide, broke loose and began drifting out to sea.

Other tugs are being sent out this afternoon to search for the wreck, which is presumed to be still afloat. The steamer Bear was the only craft that made port last night, and reported that no trace of the Excelsior was seen. All vessels outside were informed by means of the supposed location of the hulk and the danger of being struck.

HOUSE BOATS GO TO PIECES

Dorr E. Keasey One of Victims of Swollen Waters.

Five houseboats have gone to pieces in the harbor within the past 24 hours, as a result of the rapid rise in the domestic water level.

Two of them, fine structures belonging to Dor E. Keasey and Dr. R. L. Benson, passed through the entire harbor before they were broken up, going to pieces. The damage on both of these structures was heavy.

Dr. Benson's houseboat came from Milwaukee where it had been on the beach. It filled partially with water before floating and as it came down the river presented only the roof for launchers to cling to. In their efforts to have the structure, Captain Mitchell with the launch Frolic took hold of the structure in an effort to beach it but the roof was torn off by the strain and the structure ruined.

Tahoma May Get Out.

Word is being expected momentarily that the steamer Tahoma, imprisoned in the ice at Cape Horn, has been released. Rain had been falling steadily at the Dalles and Hood River and the Columbia is rising slightly. It is believed that the jam must break up shortly and the steamer be released. The steamer is out of fuel and a boat will likely be dispatched to the vessel to stand by, as she cannot help herself when the break occurs. Otherwise the boat is in good shape and the crew comfortable and well.

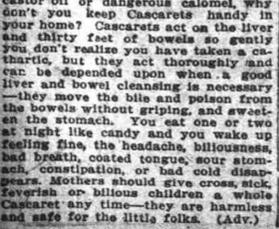

Children Delight

In a bursted water pipe, but older people know that quick action is best. Call a plumber listed in the classified of Journal.

Best Liver and Bowel Laxative for Family Use

"Cascarets" regulate women, men and children without injury.

Take when bilious, head-achy, for colds, bad breath, sour stomach.

Warning Is Issued; Sunken Digger Is Menace to Boats

Stambot operators in the upper harbor are warned by Captain J. E. Fisher, harbor master, that the sunken digger No. 3, of the Columbia digger company, is a serious menace to navigation.

THE HEARING IS RESUMED

Southern Pacific Seeks Permission to Maintain New Orleans Line

New York, Feb. 8.—(I. N. S.)—The hearing of the Southern Pacific railroad for privileges under the Panama Canal act is being resumed before Special Examiner Charles H. Egan, Interstate Commerce Commission Monday.

The railroad seeks to retain control of the Morgan line of steamships operating between New York, Orleans and Galveston. It maintains that the line is merely a waterway and that its rail line from coast to coast is an unbroken transcontinental route.

R. S. Stubbs, general freight agent of the Southern Pacific, was heard in the hearing, which was held to establish through him that reconstructions were made at Galveston, allowing special rates for the proposed line. The witness denied that this practice was peculiar to the Morgan line but is common with all steamship lines. He stated that the line is merely a waterway and that its rail line from coast to coast is an unbroken transcontinental route.

ALL ALONG THE WATERFRONT

Departure of the steamer Beaver from San Francisco was delayed a trifle yesterday, the vessel not leaving at 6:10 p. m. as the wind will be astern. It is expected she will be able to enter the river early tomorrow morning, however.

The steamer Breakwater will be filled with freight and carry a number of passengers tonight when she sails on her first trip in many years for San Francisco.

For a cargo of lumber for Australia, the schooner R. B. Jackson is to arrive at the Clatsop mill at Linnton late tonight. The tug Walula is bringing the schooner to port.

The steamer San Pedro expects to complete its cargo of lumber for San Francisco at 10:15 a. m. today. The French bark Le Peller passed yesterday, according to word received by the Clatsop mill here today. She was 141 days out yesterday.

LUMBER STEAMER IN PORT

Greystoke Castle, Under Admiralty Orders, to Load Here.

To load a full cargo of lumber for the United Kingdom the British steamer Greystoke Castle reached port this morning. The vessel, formerly the lumber at this port since she will commence working at the Inman-Poulsen Lumber company. The Greystoke Castle is to be chartered here for the steamer Bankoku Maru left early in October.

Secure Boiler Contract

Orders for the construction of six Scotch marine boilers were secured yesterday by the Willamette Iron & Steel works. The boilers are for installation in the steamers Mary and Mary Eddy being built at Seattle by Skinner & Eddy. The boilers are to be delivered at the yard, being specified for 210 working pounds pressure. Work is to start at once.

Two Tugs Wanted

Specifications for two tugs to be used by the Alaska engineering commission on Cook inlet have been received by the trade and commerce bureau of the Portland Chamber of Commerce. One is to be a seagoing tug, preferably of steel construction, and the other a light tug. The vessels are to be used in conveying the lumber from shipside to the docks. Bids will be opened in Seattle February 15.

Fire on Steamer Arden

San Francisco, Feb. 8.—Fire broke out yesterday in the boiler room of the steamer Arden, while she was tied to the dock. The fire was caused by the main fuel tanks catching fire. The fire department succeeded in extinguishing the flames, but a great amount of damage was done. The Arden will leave for west coast ports today on schedule.

New Lanes Arrives

San Francisco, Cal., Feb. 8.—(U. P.)—The steamer Arden, first of four liners of the Java Pacific company to make port here, arrived yesterday, inaugurating a new service between Java and San Francisco.

NEWS OF THE PORT

Greystoke Castle, Under Admiralty Orders, to Load Here. To load a full cargo of lumber for the United Kingdom the British steamer Greystoke Castle reached port this morning.

Marine Almanac

Weather at River's Mouth. No reports were received from North Head station, 1.5 miles, canal and maximum wind velocity of 48 miles was secured there yesterday from the blow, for which warning was given.

Wreck Holds Up

Victoria, B. C., Feb. 8.—(U. P.)—Compelled by continuous bad weather to abandon salvage operations on the steamship Kenkon Maru No. 2, ashore on the beach at Victoria, B. C., the tug Georgia, the salvage tug Salvor is in port here today. The captain of the tug estimates that it will require two weeks to complete the salvage of the wrecked vessel. Despite the pounding of the seas the Kenkon Maru is reported to be standing up well.

Physician's Advice on Cause and Cure

A New York physician, who has made a special study of stomach and intestinal troubles, says that nearly all intestinal troubles, as well as many diseases of the vital organs, are directly caused by the acid condition of the stomach. This in turn is due about equally to the use of the acid action, commonly termed sour stomach, or heartburn, which not only irritates and inflames the delicate lining of the stomach, but also may set up putridity and in a large majority of cases gas, which are accompanied by hyperacidity. It is interesting to note that he condemns the use of patent medicines and practical remedies, and treatment that is designed to act upon the stomach lining, stating that the best way to cure the stomach is by the use of a simple antacid, which acts upon the contents of the stomach and neutralizes the acidity. This is done by the use of a simple antacid, which acts upon the contents of the stomach and neutralizes the acidity. This is done by the use of a simple antacid, which acts upon the contents of the stomach and neutralizes the acidity.

Brief Tales of Late News

Belgian Primate Makes New Charges Against the Germans; French Flyer Gets Fifth Victim; Artillery Fighting Progresses; Kaiser's Son Is Wounded; King George Receives War Letters; Luxuries May Be Denied Germans; Budapest Makes Big Loan.

European War. The killing of a larger number of Belgian priests than had been previously specified, sacrilege and violation of nuns are charged against the Germans in correspondence between Cardinal Mercier, primate of Belgium, and German authorities which has just been published.

Berlin.—Artillery fighting in the section between T. Haves, canal and Arras in northern France and south of the river Somme is in progress.

Amsterdam.—Shell splinters have injured Prince Oscar of Prussia, fifth son of the Kaiser. The wounds are in the head and upper part of the thigh and are slight. The prince was at the German front in correspondence between Cardinal Mercier, primate of Belgium, and German authorities which has just been published.

London.—King George received in audience Premier Asquith, president of the imperial defense committee, Sir Henry Jackson, first sea lord and Major General Chubb, director of military intelligence. Earl Kitchener had a long audience with the king at exactly noon today.

Berlin.—Prohibition of importation of luxuries of all descriptions is impending.

Berlin.—The city of Budapest has arranged to borrow 22,000,000 kroner to meet expenses. Austro-Hungarian banks are offering to loan.

London.—British imports increased by £7,703,000 and exports increased by £5,609,000 last week, according to trade announced. Imports were foodstuffs, chemical dyes and raw materials and exports were manufactured goods.

Washington.—The St. Louis university seismograph recorded an earthquake Sunday about 3400 miles from St. Louis which lasted over an hour.

Washington.—The house fiver and harbor committee was requested by Representative Johnson to provide for surveys of Baker's bay, Ilwaco, Cathlamet and other points.

Washington.—The house military committee was told that 26,000 trained civil, mechanical, mining and electrical engineers are willing to enter an army of the United States reserve corps for national defense.

Washington.—The Union Pacific and Oregon Short Line railroads were authorized to carry mail, express and passenger service on the line between Portland and Astoria.

Washington.—Panama is said to have indicated a willingness to sell sites at the entrances of the Panama canal for fortifications.

MILES SEES NO INVASION PERIL FOR AMERICANS

(Continued From Page One.) minds of men, writing preparedness, who know less about war than anything else.

Rear Admiral Blue declared that the navy's greatest need was a reserve of trained officers and men. "The French navy," he said, "which is on a par with ours, has a reserve of 30,000 men. We have just 303. Our navy also has 100,000 men, 90 per cent less officers than Japan's, Germany's or France's."

Representative Britten said: "Some of our officers and men make it impossible to mobilize the navy on a war footing. A year and a half ago the navy general board suggested that in view of the European war, the navy should go on a war footing ready for any emergency."

ARMOR PLATE MEN TO RAISE PRICE IF U. S. BUILDS OWN PLANTS

Washington, Feb. 8.—(U. N. S.)—Armor plate companies, through United States Senator Boise Penrose of Pennsylvania today notified the senate committee on naval affairs that if the armor plate factory bill passed they will boost the price \$200 per ton on all armor plate needed in the present defense program.

The Bethlehem and Midvale companies, Penrose's senate committee, will dismantle their plants if the bill is passed. He pointed out that the government has a contract with the companies to supply armor plate for the navy by increasing the price of armor plate \$200 the government would be compelled to spend \$24,000,000 more than it had planned to.

The threat of the armor plate companies, however, did not deter the committee from voting 3 to 3 in favor of the bill which provides an appropriation of \$11,000,000 for the purchase or construction of a plant. Committee member Philman, Swanwick, Johnson, Chittum, Pittman, Clapp and Penrose, in view of the bill, while Penrose, Lodge and Smith opposed its recommendation.

"We must have quick action," said Senator Penrose, "we must take steps to offset any attempt to hold up the government."

Senator Lodge of California, urged the committee to take favorable action on his bill providing for an appropriation of \$10,000,000 for a naval academy.

Any Recovery Doubtful

White—They say Ed Sloan will not recover. Black—Great gun! Heart disease? White—No! Investment in alleged gold mine.

TYPHOID THREATENING ARKANSAS TOWNS HIT BY BIG RIVER FLOODS

Memphis, Tenn., Feb. 8.—(U. P.)—Plea for every possible physician to be sent to Arkansas to combat typhoid fever epidemic resulting from conditions at Clarendon, Ark., and other towns, were wired here today from Clarendon, Ark., where typhoid fever epidemic is raging.

Clarendon negro family of eight perished of ptomaine poisoning from devouring canned sardines which they had obtained from a flooded grocery after being without food since Sunday.

Alienist Describes Strange Brand of Mental Ailment

"Litigation psychosis" is a peculiar ailment affecting persons who think they have been wronged and who are determined to sue for damages. It is a form of mental derangement which is characterized by a fixed idea of being wronged and a determination to sue for damages.

Dr. William House testified that during the trial of the case of the late Mrs. Mary Dillion, he observed a number of persons who were afflicted with this ailment. They were all determined to sue for damages and were willing to go to any lengths to do so.

Rollins Is Pardoned

Salem, Or., Feb. 8.—Governor Withycombe has pardoned Arthur J. Rollins of Multnomah county, committed to the state prison from Multnomah county for a term of one year and one day for rape. Rollins was paroled August 6, 1914.

Agent Promised Harper

Salem, Or., Feb. 8.—The Oregon Short Line has agreed to install an agent at Harper, as requested informally by the state public service commission. Patrons had asked for an order from the commission requiring an agent.

Senate Recommends Bill

Washington, Feb. 8.—(I. N. S.)—The senate committee on naval affairs today recommended the passage of the house bill appropriating \$500,000 for improvements for the Mare Island navy yard and \$100,000 for improving the Mare Island navy yard.

Other Decisions Today

Salem, Or., Feb. 8.—Among the decisions today of the supreme court were the following: R. L. Sabo, appellant, vs. Levi Chapman, sheriff of Wasco county, action of replevin, opinion by Justice McBride, judgment for defendant affirmed.

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain common liquid arsenic and apply it to the scalp every day until the dandruff is gone.

Who Would Increase Weight and Put on Healthy Stay-There Flesh

These men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay-there" fat should try eating a little Sargol with their meals for awhile and note the results. Here is a good test worth trying. First, weigh yourself and measure your waist. Then take Sargol with every meal for two weeks.

A REAL FLESH BUILDER FOR THE PEOPLE

Sargol does not of itself make fat, but mixing with your food its purpose is to help the digestive organs turn the fats, sugars and starches of your food into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily absorb. A great deal of this nourishment now passes from this people's bodies as waste. Sargol is designed to stop the waste and make the fat producing organs work more efficiently.

Attack of Grip Always Leaves Kidneys in Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has wasted so many thousands of people. In fact, every year are often very distressed and leave the system in a run-down condition, particularly the kidney which every one knows is the most important of all the organs of the body.

Dr. Kilmer's Swamp-Root is a great kidney, liver and bladder remedy, and being an herbal compound, has a gentleness that is lacking in other remedies. It is the most immediate relief in most cases by those who try it. Dr. Kilmer & Co., Birmingham, N. Y., offer a 50-cent bottle of Swamp-Root, on receipt of 10 cents, to every sufferer who requests it. A trial will convince any one who may be troubled with kidney, liver or bladder troubles. Swamp-Root is a great kidney, liver and bladder remedy, and being an herbal compound, has a gentleness that is lacking in other remedies.

This Will Remove Hair or Fuzzy Growth

(Toilet Tip) A safe, certain method for removing the skin of ugly, hairy growths is as follows: Mix a paste with some powdered delatone and water, apply to hairy growth about 2 minutes, then rub with a clean towel. The growths are gone. This is entirely harmless and seldom requires repeating, but to avoid disappointment, it is advisable to see that you get genuine delatone. (Adv.)

French Remedy Aids Stomach Sufferers

France has been called the nation without stomach troubles. The French have for generations used a simple mixture of vegetable oils that relieves stomach and intestinal troubles. It keeps the bowels free from foul, poisonous matter. The stomach is left to perform its functions normally. Indigestion and gastric troubles disappear. Mr. George J. May, a leading druggist of Chicago, cured himself with this remedy in a short time. The remedy is made in France and is imported into this country from France and compounds there under the name of May's Wonderful Remedy. People everywhere write and testify to the benefits they have received using this remedy. It does not rid the body of poisonous accumulations that have accumulated in the stomach and intestines. It does not suffer from stomach, liver or intestinal troubles.

To Cure Catarrh of Deafness and Head Noises

Persons suffering from catarrh of the ear, nose and throat will be glad to know that this distressing affliction can be successfully treated at home by the use of a simple remedy. It is made in France and is imported into this country from France and compounds there under the name of May's Wonderful Remedy. People everywhere write and testify to the benefits they have received using this remedy. It does not rid the body of poisonous accumulations that have accumulated in the stomach and intestines.
