After what I owe to God, nothing should be more dear, or more sacred than the love and respect I owe to my country.—De Thou.

WOODROW WILSON.

UNDERMINED
SOME of the strongest support that President Wilson received in yesterday's senate debate was Republican support.

AS TO PORTLAND
THE loss of an industry like the proposed Seattle branch of the American Can company, employing 400 workers, means a heavy loss to the site value of Portland land.

EXCESSIVE ATHLETICS
THE federal bureau of education has published a bulletin on the "Health of School Children" which contains a wealth of information and warning.

LETTERS FROM THE PEOPLE
[Communications sent to The Journal for publication in this department should be written on one side of the paper, should not exceed 300 words in length and must be accompanied by the name and address of the writer, if the writer does not desire to have his name published, he should so state.]

THE FUTURE OF HOME RULE
Portland, Or., Feb. 23.—To the Editor of The Journal—"Ireland," a weekly periodical published in New York city, supporting the policy of the Irish parliamentary party and generally regarded in this country as an organ of conveyance of Irish affairs that speaks with authority, contains in its last issue the following editorial which bears the earmarks of being inspired.

THE POOR MAN'S RECREATION
Portland, Or., Feb. 23.—To the Editor of The Journal—"Whereas Mayor Ales has assented to Professor Ogburn of the University of California to give a lecture for a more home-like meeting ground for the frequenters of the Burnside saloon, it appears to the writer that the city should come to Professor Ogburn's defense.

REASONS FOR CONFIRMING BRANDLEIS
From the Canyon City Eagle. The appointment of Mr. Brandeis to the supreme court has aroused a stubborn opposition. It is, of course, difficult to know the facts. One thing is apparent, and that is that the appointment of Brandeis is being fought by organization. It is also apparent that the people genius, common herd, are not organized to oppose his appointment or any appointment.

saving influence amid a ghastly world-wear is undermined in her own capital.

AN EMPTY JAIL
IT IS quite a feather in Baker county's cap to have its jail empty. The city jail at Baker is also somewhat barren of population, having but one prisoner when the last report came in.

SMILES AND SPASMS
SPEAKING of a prospective Diaz revolution in Mexico, the Oregonian says:
There need be no surprise if President Wilson's policy should cause him to leave an anarchic Mexico to his successor at the expiration of his term.

NOTHING THE MATTER WITH PORTLAND
"Bricks without straw" has for centuries been a phrase implying oppression and effort. But no tragic connotation attaches to "bricks without a kiln" such as are many at a Portland "brick factory."

The Once Over

COMMODORE W. H. HARDY—was with Commodore Perry—on the expedition to Japan—in 1858—but who now does his commodoring on a little farm out at the end of the Kings Heights car line—came in yesterday.

And he said he was going to see in some funny stuff—for Contributors' Day—in this column—next Monday.

And I said—"Fine!"

And the commodore told me—how very funny—his stuff is going to be in his potatoes yet.

And he said—"No—there's a hurry—if you get 'em in at the right time of the moon."

And then the commodore told me that he'd mail his funny stuff—I'd get it today.

And that I'd laugh—when I read it.

And I couldn't make him understand—that I wanted to find out something about potatoes.

Not that I won't laugh—at all commodore's stuff.

—Nor that I want to plant any potatoes—

—but there's a principle involved—

—And I know the commodore knows all about potatoes.

—and can tell me what I want to know—if he'll only be serious.

—And I wanted him to tell me—I know he can—whether this will be a good year for potatoes—or not.

—I want to find out—if "who everybody says"—is necessarily true—because everybody says it.

—Because there's a man—out on Oak Grove—who says this isn't going to be a good year—for potatoes.

—And I asked him why.

—And he said—"Oh—that's what everybody says."

—And I said—"Yes—but why do they say it?"

—And he said he didn't know.

—But they all say it—he said—"and it must be so."

—And he went on—putting in his potatoes—sadly.

—And of course—there isn't any way of finding out—for sure.

—But there are too many people—I believe—who are willing to believe "what everybody says."

—because everybody says it.

—And I can remember—not so very many years ago—that my grand mother told me—how everybody said—that tomatoes were poisonous.

—and she said she never really believed it.

—and people got to eating them.

—and nobody died.

—and another superstition was smashed.

—And there's the European war.

—Everybody said—in Europe—that it had to come.

—and they all prepared for it.

—and it came—just as everybody said it would.

—And perhaps—if everybody had said it wouldn't—

—but I really don't know anything about the war.

—And so—I guess—I shouldn't talk about it—but—

—LISTEN!—It's so much easier—to talk about something—when you don't know what you're talking about.
