aviator of some experience who wishes to assist in the organizing of an aeronautic division in the Oregon Naval militia.

## Bill Is All Good.

**THIS** week's offering at Pantages theatre is good all the way through. The moving pictures are thrilling as an opener. Cook and Robert are a pair of acrobatic and dancing comedians who keep things moving and who draw merited applause. Anita Heymann sings sweetly and her stage appearance is attractive. Song sketches with dance trimmings by Fletcher Norton and Maud Earl give representations of some of the old and some of the new forms of dancing. Reed and Wood in song and piano offering are praiseworthy. The bass singer is somewhat of a comedian as well as vocalist. The scene depicting a joyous person returning home after a night out is highly ludicrous. A tuxedo feature in which a human horse in disguise appears is a scream. Al Fields and company are the performers. Antics of a bevy of pretty boarding school girls having a lark groves provocative of mirth of the first water. The comedy work is especially good.

## Will Show Football Pictures.

Motion pictures illustrating the Minnesota-Illinois football game of last fall will be shown at the Sunset theatre in the near future under the direction of the resident alumni of the University of Illinois. Definite announcement will be made in a few days. This game will be remembered by all University of Minnesota and University of Illinois people as the greatest ever played between these institutions. The result was a tie.

## May Get "Treasure Island."

Manager Seaman of the Hippodrome is negotiating for a dramatized version of "Treasure Island" with the intention of producing it between now and the close of the spring season of the Baker players. The version is not the Goodman version but one claimed to be of equal merit which has come to the front because of the success on the stage of Stevenson's favorite story.

## Movies Get Goodman.

Jules Eckert Goodman, the Portland man who put Robert Louis Stevenson's "Treasure Island" on the stage, contrary to all beliefs of experienced managers, and which is one of the biggest shows of the season, has been engaged by the Jesse L. Lasky Feature Play company to write photographs.

## Why Portland Children Like School

Part of exhibit of garments made by high school girls and exhibited at the Meier & Frank store.

Many Portland girls go to school and learn to sew. They learn how dresses are made and skirts and waists. Their practice in sewing has practical value, for they are allowed to make garments for themselves, their mothers or their sisters. They frequently have exhibits of their work in the schools and occasionally the dresses of school girls

manufacture are displayed in one of the department stores. It is said that more than 30,000 garments were manufactured last year in the schools of Portland. The purpose is not to make seamstresses, dressmakers or modistes of Portland school girls but to teach them a homely, domestic accomplishment that will enhance their usefulness in home making.

In a warm place. When risen, roll out on the board, using little or no flour; cut out and let rise again for 20 minutes in a warm place. Bake in oven for 15 minutes or on top of stove on a griddle. If these are made up at night they can be ready for breakfast.

## WHOM TO FLATTER

## HOUSEHOLD SPICE

A man waits upon himself, unless he is angry with his wife.

A close mouth catches no flies. Beware of a woman who does not talk and a dog that does not bark. Drive thy work, do not let it drive thee.

It is no sign of humility to declaim against pride. Kind words are a woman's best ornament; all she ever gets. Law catches flies but lets hornets go free.

Little conscience and great diligence makes a rich man. No woman can guess in cold blood what she'll do in a passion. Say to each penny: Penny, whence comest thou? Penny, whither goest thou? and penny, when wilt thou come back?

Around the Clock with GHIRARDELLI'S

## The Kiddies' Nightcap

The child's evening meal should be a cup of Ghirardelli's Ground Chocolate. It's light enough to sleep on and yet rich in nourishment, a handmaiden to childhood health.

One of the strongest virtues of Ghirardelli's Ground Chocolate is its assimilative quality. As a variant in the little one's diet, Ghirardelli's Ground Chocolate will help you out of many a predicament.

It's the most economical of foods for what it supplies in nutriment and deliciousness. A tablespoonful, a cent's worth, makes a cup.

## The Grand Prize, the Highest Award

at the Panama-Pacific Exposition, San Francisco, was bestowed upon Ghirardelli's Ground Chocolate in recognition of its unquestioned superiority. Order from your grocer today.

**A KITCHEN STOOL** "I simply do not get on now without a kitchen stool," says a woman who does her own housework. "It's a high desk stool. When I sit on it before the kitchen table I am well up on a level with the table. I sit perched upon it for almost all my kitchen work, and words cannot tell how it has saved me from getting tired."

"Most women stand all the time that they are doing their work in the kitchen. Sometimes they will sit down in a chair, but are quickly up again, as a chair is too low to let one work conveniently at a table. Seated in a chair one has to lift one's arms up to work on the table and this is tiring and awkward. On my high stool I have command of my table and use my hands and arms naturally."

"My high stool goes with me to the sink when there are dishes to wash. Yes, I sit down to this task, distasteful to most women, and I do not find it the hard chore I used to. My whole body is in a rested position while I am doing it."

"I use my high stool at the stove, too. I sit on it while I am busy with cooking that involves stirring, skimming and watching, while I make pancakes, waffles and such."

"My high stool has reduced the fatigue of my housework to a wonderful

The Columbian Optical measures its standard of achievements by the degree of service it can render its patrons—the sale of a pair of glasses is not the end of a transaction, but the commencement of relations which, so far as the Columbian Optical Company is concerned are perpetual.

Columbian patrons are satisfied patrons because Columbian service is cheerfully and freely given—because promptness, courtesy and efficiency predominate.

—biased advice is taboo at the Columbian—if upon examination it is found glasses are not needed—you are told so promptly—

—if you do need them, the utmost in professional skill—the most modern manufacturing methods—the most accomplished eyeglass adjusters are at your command.
