

MINING BUREAU MEN SOON TO BEGIN TRIPS IN MINERAL REGIONS

Field Workers to Leave for Scenes of Mining Activity in State.

NEW PROSPECTS OPENED

Eastern and Southern Parts of Oregon Now Undergoing Great Development, Says E. M. Parks.

Soon after the exhibit of the Oregon bureau of mines and geology has been put in place with the other exhibits of state resources in the Oregon building display hall, field men of the bureau will begin their season's trips.

These personal trips through the mining regions comprise the most important work of the bureau and this season's work promises to be more successful than ever because of the revival of interest in mining properties and the opening of new prospects, according to Director H. M. Parks.

Two sections of the state are now undergoing great mineral development. Mr. Parks said, the eastern and southern parts of Oregon, particularly Grant, Harney and Lake counties and Klamath, Josephine, Jackson and Douglas counties. But that does not include all the regions where mineral development is taking place.

Mr. Parks expects to start out through these various regions as soon as the commission governing the bureau decides which sections first require development. The installation of the exhibit will be out of the way by that time and most of the mining properties under operation. In many of the mountainous sections operations have been retarded because of the heavy snow.

COPPER MINES ARE BUSY

Snake River District of Baker County Looking Up.

More than 2500 men will be working in the Snake river copper mining district of Baker county, according to capitalists who have visited this copper country of late. When the weather permits, between 200 and 300 tons of copper ore will be shipped daily to the smelters.

Prospects for extensive development of the copper properties in the Seven Devils country on the Idaho side of the Snake have caused much excitement in working circles about Baker.

It was reported that a deal is now pending which will make of this region one of the largest copper producing sections of the world.

Boston capitalists are mentioned as the ones who will make up the syndicate in connection with the Idaho and Oregon properties.

The Porcupine group of copper claims which is now under the control of the Cornucopia Mines of Oregon are to be reached by new roads now under construction. Plans are being made for the opening of the mining season. Work will start soon on the erection of a 50 ton experimental mill.

CAREFUL ANALYSIS IS MADE

Mineral-Laden Waters Are Given a Thorough Test.

When Jason C. Moore's chemists recently visited Summer and Albert lakes to take samples of the mineral laden waters for analysis, it was with extreme precaution. According to the Silver Lake Leader, no chance of surreptitious adulteration was gambled with.

"In securing the waters from the lake," says the Leader, "a boat was used to the distance of 300 yards from the shore, where the waters were dipped up in their purest state and put in casks and sealed in the presence of the local men, Louis Benham, A. Diminger, and Virgil Conn. The two chemists present sealed the casks with their name imprint, and Mr. Conn informs

Faces As Fair As A Summer's Day

Are Possible If Stuart's Calcium Waters Are Used for a Short Time After Each Meal.

Many people have been heard to say that the "used creams and lotions for their faces without effect" after six days of Stuart's Calcium Waters their complexions were perfectly clear.

"I got rid of blackheads in a jiffy by using Stuart's Calcium Waters."

They contain no poisonous drug of any kind, are perfectly harmless and can be taken with absolute freedom, and they work like magic. Calcium Sulphide, their principal ingredient, is the greatest blood-cleanser known to science.

No matter how bad your skin may be, Stuart's Calcium Waters will bring you wonders with it. It's ready to blackheads, pimples, acne, boils, rash, eczema and a dirty "filled-up" complexion. You can get a box of Stuart's Calcium Waters at any drug store at 50 cents a box, and you will be positively delighted with their wonderful effect.

YAMHILL DEMOCRATS ARE ACTIVE

Left—H. E. Walter, chairman Yamhill Democratic County committee. Middle—R. L. Harris, president Yamhill County Wilson club. Right—Dr. LeRoy Lewis, vice president Yamhill County Wilson club.

McMinnville, Or., March 25.—Yamhill county Democrats, to a man, are standing untiedly behind President Wilson and the policies of the administration. At the recent Democratic

meeting here at which a Wilson club was formed, a feeling of harmony and satisfaction prevailed.

R. L. Harris was unanimously elected president of the Wilson club, with Dr. LeRoy Lewis vice president, a secretary to be chosen by them.

N. E. Walter, county chairman, presided, and a vote of thanks was given him for his efforts in making the session such a successful one.

Whitman Welcomes The Delta Phi Delta

Members of Beta Theta Pi Gather at College for Ceremonies to Take Place During the Week.

Whitman College, Walla Walla, Wash., March 25.—Members of the national college fraternity of Beta Theta Pi are gathering at Whitman college this week from all parts of the northwest to take part in the inauguration of the local student society, Delta Phi Delta, into the national organization. The installation is scheduled for March 28 and 29.

The annual northwest convention of the fraternity will be held March 30 and 31. Dr. Francis W. Sheppardson, Den. '82, of Chicago, general secretary of Beta Theta Pi, will be present to have charge of the installation, and will be assisted by District Chief Delos J. Needham of Lewiston, Idaho; Judge P. A. Grosscup of Tacoma; Winfield R. Smith, of Seattle; Judge W. W. Black, of Spokane; M. R. Chessman, of Pendleton; Dean H. D. Eldridge, of Idaho university; T. C. Elliott and J. F. Neal of Walla Walla.

Among the members of the local to be installed into Beta are: Gus Clerin, Draw Clerin and Frank Busch of Portland; Alex McKay and Rich Ed McKay, of Almita, Or.; Clarence Thom and Herbert Armstrong, of Lebanon, Or.; Edwin Young, of Oakland, Or.; Joe Johnson, of Hood River, and Stanley Sayers, of Pendleton.

Engagement Is Announced. Hood River, Or., March 25.—The engagement of Miss Eva Lenora Brock of Hood River, to Norton R. Cowden of LaMoore, Cal., was announced by the bride's parents, Mr. and Mrs. V. C. Brock yesterday, at a luncheon given at the Brock home in this city.

The tables and surroundings were decorated in pink and violet. Each guest was served with the announcement of the betrothal in a sealed scroll. Miss Brock is one of Hood River's most popular and charming young ladies, being a graduate from the Hood River high school and the University of Oregon. She is a member of the Gamma

HOOD RIVER PATRIARCHS

Left to right in the picture are George Tomalick Chinadere, D. A. Turner and E. L. Smith, pioneers of Hood River.

Hood River, Or., March 25.—Stored within the memories of the three oldest residents of Hood River, who were recently photographed together, are exciting stories enough to fill a library shelf.

The "oldest inhabitants" in this case are E. L. Smith, 73; David A. Turner, 83, and Indian George Tomalick-Chinadere, 93. All have been identified in one way and another with the history and progress of Hood River, and all are interested still in its prosperity and future happiness.

Mr. Smith was born in Vermont and came to Hood River in 1876. He was one of the organizers of the first bank at Olympia, Wash.

Mr. Turner was born in Randolph County, Mo., in 1836, and came to Hood River valley in 1881. He owns considerable property and has retired.

Indian George was born at Tumwater, near The Dalles. He is an interesting character, and represents the recent statement of engineers that the old Bridge of the Gods tale is but a myth. George claims to have first-hand knowledge that such a bridge actually existed at one time.

Choir Raises Money. Seaside, Or., March 25.—The Junior choir of the M. E. church of Seaside, presented an individual communion service to the church. The children raised the money by giving a "Rain-bow Cantata."

Rev. C. M. McPherson of Portland, is spending the week in Seaside. He organized the M. E. church here when Seaside had 200 population.

PRINEVILLE-REDMOND ROAD PUT IN SHAPE BY MANY CITIZENS

Friday Was General Holiday and Even the Women Worked as Laborers.

ONE MINOR ACCIDENT

Laundry Truck With Load of Men Dropped 100 Feet Into an Irrigation Ditch; No One Hurt.

Prineville, Or., March 25.—By general agreement of all business and professional men of Prineville, Friday was proclaimed a holiday for the purpose of working the roads from Prineville to Redmond. All stores, banks and other establishments were closed for the day, the proprietors and help being conveyed by autos to a dangerous rocky point which before night had been reduced to a good capital road.

With pick and shovel and plenty of enthusiasm the work started promptly at 8 o'clock and continued until 5 in the afternoon under the supervision of County Commissioner Blanchard.

Circuit Court Adjourned. Circuit court adjourned for the occasion and Judge Duffy and all the court officials were in the midst of the work, doing as much as the others to improve the highway.

Approximately 100 men were on the job. Dinner and supper were served on the work site by 33 members of the Women's Annex, an auxiliary of the Commercial club, but the women did not confine themselves solely to serving the meals. A large number of them worked with pick and shovel alongside the men and moved respectable quantities of dirt and rock, while others carried water and buttermilk to the work site.

The day was wet and disagreeable with wind and sleet at frequent intervals, but this seemed to inspire the workers to more determined efforts.

Car Took Tumble

The only accident to mar the day was, just as the work began, when the auto of the Prineville Steam Laundry, loaded with business men and tools, ran over the grade and down an almost perpendicular hillside among rocks and sagebrush into an irrigation ditch below. The fall was about 100 feet. All but the driver got out just as the car went over the bank, but John Beasas, the proprietor of the laundry, stayed with the car until it struck at the bottom. No one was seriously injured.

Another good road day has been planned for the near future when the streets of Prineville will be worked on.

Will Continue the Farm Record Work

Agricultural Committee of Lane County Pomona Grange Decides to Carry on the Work for Four Years More.

Eugene, Or., March 25.—The agricultural committee of the Lane County Pomona grange this afternoon decided to carry out the farm record work started here this year by H. F. Keyes, of the department of agriculture and the state college, and decided to carry it on for four more years to set before farmers actual conditions which are harming and hindering the present survey conducted by Keyes showed remarkably low percentage of farmers of the county who are not making interest on investment.

Dole Is in Custody. Eugene, Or., March 25.—Lorenzo Dole, arrested near Heceta Head, Friday charged with pointing a gun at County Assessor A. M. Herrington, of Madras, was brought to Eugene tonight by Herrington and was placed in the county jail to await action by the grand jury in June. Dole is a rancher on the coast who has been giving more or less trouble to neighbors and officers for several years.

New Mill Started

Tacoma, Wash., March 25.—(P. N. S.)—It is announced here that Carl Motter has begun the construction of a sawmill on the south fork of the Ne-wauwuk river, east of Chehalis. The mill will have a capacity of 20,000 feet a day and will be ready for operation within three weeks.

Highway Is Blocked

Clatskanie, Or., March 25.—Columbia highway at this point, is blocked by slides. Road repair will begin when the weather settles. A rock crusher has been put up at Palma station, to furnish some necessary material.

State May Build Racks Near Menlo

Money Available If Cannermen and Fishermen of Willapa Harbor Will Raise Money for Hatchery on River.

South Bend, Wash., March 25.—After a conference with a committee from the South Bend Commercial club here today, State Game Warden L. H. Darwin announced that state funds will be used to build fish racks near Menlo to catch spawn for the Willapa river hatchery near Lebam, if the cannermen and fishermen of the Willapa harbor will raise the money to build a hatchery of 2,500,000 eggs capacity on North River.

The state would supply the spawn and maintain the North River hatchery, said Mr. Darwin.

Work on the fish racks near Menlo will be completed in time to catch spawn this season, said E. E. Sherwood, superintendent of construction, who accompanied Mr. Darwin to this city. Mr. Darwin may make another trip to this harbor April 3, to inspect state oyster lands with a view to selling seed to oyster growers here and on Puget sound.

Portland Firm Gets Big Pipe Contract

City Council at Aberdeen Orders Major Part of Steel for Wiskahk Water Project; State Bids Held.

Aberdeen, Wash., March 25.—A major part of the steel for the Wiskahk water project pipe line was ordered by the city council last night. The bids on furnishing 2,000,000 feet of pipe staves were held up.

The Portland wood pipe company got the bulk of the steel order, receiving contracts for furnishing 250,000 one-half inch milled steel bands at \$2.89 per 100 pounds; 250,000 malleable iron sheet at \$4.34 per 100 pounds, and 25,000 iron bands at \$2.25 per 100 pounds.

Editor Bush Speaks

South Bend, Wash., March 25.—Dan Bush, editor of the Chehalis News, Nugget and president of the Lewis County Canning association, spoke in the Commercial club rooms here last night, making an appeal for cooperation between Pacific county and Lewis county. Mr. Bush showed the possibilities offered in canning small fruits and vegetables and said that his company hoped to set many tons of evergreen blackberries from this county this season.

Married 65 Years

Dallas, Or., March 25.—Mr. and Mrs. F. S. Powell celebrated their 65th wedding anniversary March 20, at their home in Monmouth. Mr. Powell is 87 and Mrs. Powell 86 years of age and both enjoy comparatively good health.

Entertainment at Lebanon

Lebanon, Or., March 25.—The third of a series of community entertainments which have been held throughout the winter, were held at the assembly hall of the high school.

Dent Wants Citizenship

Dallas, Or., March 25.—Anthony Dent, who has resided in Polk county many years, has filed a petition in the circuit court here for citizenship papers. Mr. Dent was born in England and came to this country in 1880.

Peru Physician Visits

Lebanon, Or., March 25.—Dr. W. H. Overett, of Peru, N. Y., is in this city on an extended visit with his brother, H. G. Overett, a practicing physician in Peru, of which city he is a native.

Rat Bit Japanese

Dallas, Or., March 25.—If Ishimaya, a Japanese employe of the Willamette Valley Lumber company at Black Rock, is under treatment from a local physician for an infected foot, caused by the bite of a rat. The rodent crawled into the bunk of the oriental and gnawed one of his great toes while he slept.

MR. AND MRS. WIMER WED 57 YEARS

Mr. and Mrs. J. O. C. Wimer.

Salem, Or., March 25.—Mr. and Mrs. J. O. C. Wimer will observe their fifty-seventh wedding anniversary Friday, March 31, at their home, 1541 State street. They came across the plains from Iowa to California in 1853, behind a mule team, and in 1854 came to Oregon, settling in Yamhill county.

Mr. Wimer has been a millwright most of his life. He is 82 years old and Mrs. Wimer is 80. Mr. Wimer has a brother, E. R. Wimer, residing in Salem, and another older brother, Valentine W. Wimer, in Topoka, Kan.

Mr. and Mrs. Wimer had seven children. Those living are Mrs. Hanna Stillwell of Winters, Cal.; R. L. Wimer, Medford, Or.; and Mrs. M. D. Bigham, at Oregon City. Thirteen grandchildren are living.

Mr. and Mrs. Wimer are hale and hearty. Mr. Wimer says he challenges anyone to try to run a footrace. He has read The Journal ever since it has been published.

MEDFORD MAY HAVE RAILROAD TO TAP THE BLUE LEDGE DISTRICT

Tentative Agreement Reached With Southern Oregon Traction Company.

CALIFORNIA INTERESTED

Mass Meeting Called for Monday Night for Consideration of Proposition to Bond for Enterprise.

Medford, Or., March 25.—A tentative agreement was reached today with the Southern Oregon Traction company to build a railroad for the city of Medford 15 miles toward the Blue Ledge mining district, the traction company to build 15 miles additional line, connecting the city's section with the Blue Ledge mine on the California line. The Medford commercial club, acting for the city in preliminary arrangements, has called a mass meeting for Monday night in this city for an expression on bonding the city for \$250,000 and the selection of a city commission to handle its business in consummation of the project.

Little doubt is expressed as to the voters favoring the proposition almost unanimously.

Work Soon Provided

Part of the agreement is that the railroad construction shall begin immediately on legal ratification of plan.

R. S. Towne, of New York, wired today that he will operate the Blue Ledge mine with a full shift, as soon as the road is completed to the property

and guarantees 300 tons of concentrates daily. That means the construction of a smelter and concentration plant for the Blue Ridge district at once at a cost of half a million dollars. St. Albans and other properties are preparing to equip with machinery, and forces for full operation.

Will Employ Many. Blue Ledge district will employ fifteen hundred to two thousand men as soon as operation begins. Tributary districts will add to the number.

The proposed road will be extended a few miles into a vast timber belt, suggesting the establishment of saw mills and lumber operations. Eureka interests propose to meet Medford extension in timber belt, completing the line to Humboldt, Bay, California, giving Southern Oregon a direct short line to the coast. The line will traverse a continuous belt of rich mineral and timber resources.

Northern California counties join with Southern Oregon in the project. This agreement is the result of months of co-operative investigation by leading financiers, railroad, timber and mining interests.

New Home in Dallas

Dallas, Or., March 25.—L. D. Brown, a prominent attorney of this city, is having plans drawn for what will be one of the finest homes in Polk county when completed. The residence will be built on Mr. Brown's fine farm a mile north of town, and will cost in the neighborhood of \$5000.
