REBUILT .
FEDERAL TRUCKS

A Safe Used Truck to Buy

In buying a rebuilt Federal you get as much value for your money as in any new truck you could buy. A rebuilt Federal means that it has been comnew truck you could buy. A rebuilt Federal means that it has been completely overhauled, every part critically examined and, when necessary, replaced by a new one. It is painted and 1911 STODARD, 7 pass., 4 cyl. .. 375 finished just like a new truck.

And remember this:

When you buy a rebuilt Federal, yo are protected by the same policy applied to all Federal owners. We operate a repair department manned only by Federal experts—open night and day—with the most complete stock day-with the most con of parts in the northwest.

Federal leadership is a byword in the trucking field. This "built in" quality, backed by an organization capable—and willing—to give you real service, is consequently

A SAFE USED TRUCK TO BUY. If you are in the market for a truck from \$1000 to \$1400, we urge you to compare used Federals with new trucks at similar prices. We think we can convince you of their superior value.
