

### POLICEMAN'S SLAYER EXPECTED TO FALL IN POSSE'S HANDS SOON

Retreat Near Fresno Has Been Surrounded and Cordon Is Closing In.

Fresno, Cal., April 21.—(P. N. S.)—Pushing its way through the brush of the Coast range foothills, a posse of deputy sheriffs today is closing in on Alberto Pena, fugitive slayer of Policeman Charles L. Rouse of Fresno, for whose capture, dead or alive, \$500 reward has been offered.

At midnight the posse, 150 strong, formed a cordon around the slayer's hiding-place. Early today they began closing in, fighting their way through the brush toward the object of their hunt.

Pena's capture is expected hourly. His chance of escape is said to be slight. He is armed and is not expected to surrender without a fight.

Since the murder of Policeman Rouse Sunday night, Pena has been pursued constantly. The posse has grown in size, ranchers and merchants joining the pursuers in their indignation over the crime.

Early yesterday the posse reached the place where Pena had slept the night before. This was near the posthouse, two and a half miles south of Coalinga.

Pena had left there only a short time before. The posse took up his trail, following the fugitive into the foothills.

Pena is thought to be nearly exhausted from his long flight.

### Date for a Public Hearing to Be Set

Proposed Appropriation of \$12,000 for Vista House Fund by County Commissioners Meets Opposition.

Responding to several protests against the proposed appropriation of \$12,000 toward the construction of the Vista House on the Columbia river highway at Crown Point, the board of county commissioners will set aside a day for a public hearing of the matter, before the appropriation is definitely ordered. At present the question as to whether the money can be diverted from the emergency fund is under consideration by the district attorney.

In connection with the emergency fund it has developed that it will probably be drawn upon by the county hospital for \$2000 owing to the war price of drugs. In making up the county budget this condition was not provided for.

Deducting this amount, together with the proposed appropriation of \$12,000 for the Vista House, there will be left \$5000 in the emergency fund.

### Jap Fishing Village Is Hit by Landslide

Santa Monica, Cal., April 21.—(U. P.)—Many Japanese fishermen deserted their homes today at the Japanese fishing village north of here, following a landslide early today which narrowly missed covering a number of dwellings. Cliffs fronting the ocean at this point are 150 feet high.

Thousands of tons of earth crashed down shortly after 2 a. m., covering the state highway and railroad tracks for nearly 100 yards.

No one was injured. It was feared that there may be more slides.

### BRITISH TROOPS ARE STARVING IS REPORT; BLOCKADED BY TURKS

Ten Thousand Troops Face Slow Starvation; Only Food Dropped by Airships.

Constantinople, April 21.—(via Amsterdam)—(I. N. S.)—The 10,000 British troops under General Townsend besieged at Kut-el-Amara, Mesopotamia, by the Turks, are slowly being starved, according to an official communication given out here today. The only food reaching the town is dropped by aeroplanes.

Turkish officials expect at any moment to hear of the capitulation of this army. The nearest relief column, that under General Gorringe about 20 miles away, is almost stationary in the face of the strong Turkish resistance.

The official communication says: "The situation of the enemy at Kut-el-Amara is growing crucial. Owing to the difficulties in obtaining food, the commander has ordered all civilians to evacuate the town."

"The commander anticipates the aeroplanes will drop bags of wheat. On the front in the Caucasus, the battle is assuming a violent character. The enemy's attempts to advance have been frustrated with heavy losses."

London Gets Report. London, April 21.—(I. N. S.)—The increasing severity of the fighting between the Turks and British around Kut-el-Amara was disclosed tonight in a war office communication.

The British relief force is attacking the Turks in a fight that lasted for two days, April 18 and 17.

On the night of April 17, the Turks made a counter attack. It was in this latter engagement that the Turks claim to have inflicted such serious losses on the British, while tonight's official statement shows that the Turks lost heavily.
