

DEPUTY KEPT SECRET FOR 5 YEARS THINGS HE KNEW OF CAPLAN

Failed to Arrest Suspected Dynamiter Once Because 300 Jews Were Nearby.

IS TESTIFYING IN TRIAL

Other Witnesses Tell of Discovery of Internal Machine and Incidents of Caplan's Life Since Dynamiting.

Los Angeles, May 5.—(U. P.)—Deputy Sheriff Tillman of San Francisco knew for five years that David Caplan was implicated in the purchase of 150 pounds of dynamite; saw him reading literature on explosives; met Caplan on the street after the latter had been identified, but not until today in Judge's court did he make generally public this knowledge.

Under the cross-examination of Defense Attorney Coghlan, the officer said he did not arrest Caplan because there were 300 Jews near by, and he inferred that he feared bodily violence should he attempt to take Caplan into custody.

The witness also admitted that he had trailed Caplan through dark streets of San Francisco, but declared he did not arrest him at that time, because there was no hint upon which he might smuggle his prisoner out of town.

E. Gibson, a detective from San Francisco, identified the fuse, cap, newspapers and an alarm clock which he found in a crib at a house where it is alleged Caplan lived.

This was five months after the time of the Times explosion.

James Brinkham, formerly of Los Angeles, who testified that he had been at the home of T. J. Zeelandak about 10 o'clock on the morning of the Times explosion, which was turned over to the Los Angeles police.

He testified that the package was called to his attention by two women, and that it took the police 40 minutes to get to the scene. Detective F. A. Carroll of the police department related what happened after the infernal machine reached headquarters and what disposition was made of the explosive.

Check Up on Autos.

Vancouver, Wash., May 5.—A check is being made on automobiles in the county not equipped with proper licenses, and unless owners comply with the provisions of the automobile statute within a short time, some arrests will be made.

W. S. McCallay, of the secretary of state's office, has been in the city the past few days, and a number of warnings have already been issued. The automobile registration this year is considerably short of what it was last year, and it is for this reason that the check is being made. Conviction for violation of any of the provisions of the automobile statute carries a minimum fine of \$15.

Vancouver, Wash., May 5.—A neat sum was realized last evening on the dance given by the S. P. & S. employees for Miss Mildred Pege, North Bank candidate for queen of the Portland Rose Festival. Rural Credits Bill Has Amendment

Senator Jones of Washington Plans Loans as Large as \$5000 to One Person for Various Purposes.

Washington, May 5.—(WASHINGTON BUREAU OF THE JOURNAL.)—Senator Jones of Washington has prepared an amendment to the rural credits bill directing that a system be established whereby loans as large as \$5000 may be made to one person at not to exceed 4 per cent, and for not more than 20 years, limited to the purpose of acquiring farm lands or city property for residence of the borrower, or for improvement of residence property.

He directs the authorities to make such loans only to "such honest, industrious, temperate and economical persons," as in the judgment of the loaning board, with the property as security, will reasonably insure the repayment of the loan. He proposes an appropriation of \$5,000,000 as a starter.

The Jones amendment would change the character of the rural credits measure from one dealing with farm loans exclusively to one including all residence property, and would also inaugurate government aid on a scale not comprehended in the rural credits measure.

It will not of course be adopted, but will form the basis for discussion of the idea of making loans of government money to all who want to build homes, either in city or country.

Increased Rates on Lumber Suspended

Washington, May 5.—(I. N. S.)—The Interstate commerce commission today suspended until November 14 proposed increase of rates on lumber from the north Pacific coast to points in Texas, Oklahoma and New Mexico.

The railroads undertook to advance the rate on lumber from the northwest territory to Oklahoma, Texas and New Mexico from 62 1/2 cents to 65 1/2 cents to Oklahoma and 72 cents to Texas.

The commission suspended this increase until May 6, and in the meantime P. G. Donaldson, traffic manager of the West Coast Lumbermen's association, went to Oklahoma City, where the complaint was heard by an interstate commerce commission examiner on March 6. The present order means merely that the rates are suspended until the commission has had time to investigate the case more fully.

FIVE AMERICANS ARE KILLED IN MEXICO BY BANDITS SAYS MINER

Alleged Murders Took Place Between Rosario and Mazatlan; Bandits Bolder.

FINAL CONFERENCE IS ON

Generals Scott and Obregon Meet on International Bridge Between Juarez and El Paso.

El Paso, Texas, May 5.—(I. N. S.)—Mexican bandits have murdered five American miners at a point between Rosario and Mazatlan, Mexico, according to an American mining man who arrived here today. One of the men killed was named Volax.

Generals Scott and Obregon will again confer this afternoon, meeting on the international bridge between El Paso and Juarez.

Colonel R. E. L. Michie, aid to General Scott, today held a conference with General Obregon in the latter's private car, supposedly for the purpose of arranging a final conference between Scott and Obregon. Mexican Consul Garcia at El Paso accompanied Michie.

A train load of supplies for the American expeditionary force left here today for Casas Grandes over the Mexican Northwestern railroad.

The shipment was forwarded after Obregon had given verbal permission for the use of Mexican railroads by government contractors who are shipping supplies to the troops.

Obregon stated that he also would immediately take up the matter of issuing formal permit.

Bandits Gather Again.

Columbus, N. M., May 5.—(U. P.)—Small bands of Villistas near the foothills of Guerrero are renewing their depredations today. Officers regarded the slaying of E. Hollis as evidence of returning nerve of the bandits.

The force which Colonel Dodd recently routed was declared to have gathered together again.

Four hundred negro infantrymen are en route to relieve the American troops at Dublan. These moves were southward. Military reports said a Carranza force at the Sonora state border was engaged in a general movement. There were no details. The movement was attributed to the reaching of an agreement at El Paso.

Carranza Inspects Food.
