Finding a sensible cigarette is just plain, common sense

All you have to do is to look for three points. Take any cigarette you know. Then ask yourself—

- Is its taste just what you like best?
- Is it comfortable to your throat and tongue—free from bite or hotness?

Will it allow you to smoke as often as you'd like to smoke without any mean after-feeling?

Fatimas aren't the only cigarettes that answer "yes" on all of these points. There are other sensible cigarettes. But facts seem to indicate that Fatimas are the sensible cigarette for most men. Because they now outsell every other cigarette in the world costing over 5c.

Doesn't it seem reasonable that you, too, will like Fatima best? Try them—TODAY.
