WARRENTON MAY GET YARD

Shipbuilding Plant Said to Be Contemplated.

Astoria, Or., May 11.—A shipyard employing hundreds of men and capable of turning out the latest types of four and five masted auxiliary power and steam schooners will be located at Warrenton if the present plans of three prominent Spokane men and the people of Warrenton are carried out.

The Spokane men contemplating the construction of a big shipbuilding plant at Warrenton are Robert C. Swatt, Harry B. Spear and Captain J. B. McCay, who attended an open meeting held in the rooms of the Warrenton Commercial club on Tuesday evening.

It is understood that the plans to locate the shipbuilding plant at Warrenton have progressed to such a point that the Spokane men have been assured of 150 feet of waterfrontage and a bonus of 25 lots if they will locate the shipyard there. It is also stated that the Spokane men have established a good line of credit at one of the Astoria banks and that they are backed by sufficient capital to insure the success of the enterprise.

Mr. Spear, one of three men who desire to erect the contemplated plant at Warrenton, in speaking of the plans for the project, said that 2500 feet of waterfrontage 600 feet deep would be required for the ways and buildings it is proposed to erect. He assured the Warrenton people that the company expected to construct vessels in large numbers, and would begin work on several vessels just as soon as the plant was ready for operation, adding that with the plant open in operation, it would not be long before from 10 to 15 vessels would be under construction, giving employment to 1500 men.

Drug Company May Be Held Responsible

Adelberg J. Craig's Death Due to Alcoholism; Facts Revealed by Autopsy Performed Under Coroner.

An autopsy performed at the public morgue yesterday on the body of Adelberg J. Craig, who died in the patrol wagon on the way to the city hospital last Friday evening, showed that death was the result of acute alcoholism.

The finding will probably result in action of some sort against the drug company that sold the alcohol, according to the statement of Deputy District Attorney Richard Deich. A pint bottle that had contained alcohol, but which was nearly empty, was found in Craig's room at 31 North Second street, where the coroner Smith, the affidavit book of the drug company shows that Craig purchased a pint of alcohol there Friday, May 5.

District Attorney Reviews the Conditions of Slums When McCue Deputy Prosecutor.

REPORT OF JURY QUOTED

District Attorney Evans Addresses Meeting at East Side Baptist Church in Campaign Speech.

"Does the method of John C. McCue in handling the prosecution of Julius Wilber and the Waldorf dance hall while he was deputy district attorney in Astoria help to explain the source of the enormous campaign fund which he is obviously spending?" demanded District Attorney Evans in an address before the brotherhood of the East Side Baptist church last night.

The same grand jury, he said, returned an indictment against Julius Wilber and two others for robbing a patron of the dance hall, and also C. Ross Fox for turning a blind eye into the place. These indictments, he said, Mr. McCue allowed to sleep for six months, and then he quietly dismissed them on technicalities.

GERMANS REFUSE TO DISCUSS TORPEDOING OF BRITISH STEAMER

Explicit Instructions to Submarine Commanders Leave Little Chance for Dispute.

Berlin, May 11.—(C. P.)—German officials refused to discuss the torpedoing of the British liner Cymric today, saying that no report from the submarine commander was expected for several days.

However, such explicit instructions have been given to submarine captains that there is little chance of a new German-American controversy.

When the Cymric facts are known, it was stated, to prevent any American challenge of German good faith in the submarine crisis Germany will possibly acknowledge receipt of President Wilson's reply to its U-boat concessions. Germany will then consider the submarine negotiations completely closed.
