duction will be staged at the Eleventh Telephone-Register of McMinnville's street playhouse. About 130 of the comment. members of the different local societies are in the caste.

The pageant is divided into four Columbus Pastor Is episodes and 18 movements and each art takes up a certain period in the history of the church? The play begins with the simple home of the Wesley's and follows the church through its first struggles in England, and then with Rev. T. L. Lowe of the West the scene changes to America where the hardship of the New Englanders are reviewed.

The action is then faster as the church goes forth by leaps and bounds and the end finds the present day church with all its added branches, such as the Sunday school, mission work both at home and abroad, the Epworth league and the operation of a complete publishing house which is supplying a great denomination with all its required ilterature.
