Weather Conditions.

Weather Conditions.

A moderate disturbance, central over Minnecota, dominates weather conditions over the country from the Appalachian range to the Bocky mountains, and precipitation has occurred in most of the northern states, Utah, Tennesses, the west Guif states and western Canada; the rainfull was excessive on the west Guif coast. The pressure is high on the Atlantic coast and a large high pressure area is advancing inland over the North Pacific slope, causing clearing and cooler weather over this section. The weather is cooler also in Montana, Wyoming, New Mexico and the Plains states and warmer in Alberta, Arizona, Plains states and warmer in Alberta, Arizona, Hilinois and eastern Missouri, Temperatures are considerably below normal over the northwest The conditions are favorable for fair weather in this district tonight and Tues-gay. It will be warmer Tuesday except near the coast and frosts will be general in early morning. Winds will be mostly westerly. T. FRANCIS DRAKE, Assistant Forecaste

Don't Value Yourself Too Low

In investing in life insurance, many men make the mistake of insuring their lives for a small amount because they fear the payment of the premium on a large sum will embarrass them financially.

Your life has a definite value, measured in dollars and cents, measured by your income, your prospects, the responsibilities of your family. Let the life insurance man help you to determine your value.

By making regular deposits of a small proportion of your income in a Savings Account, you will not only soon accumulate the first full year's premium, but you will be able easily to meet subsequent premiums as they fall due.
