

### MINORITY OF NAVAL COMMITTEE INSISTS PROGRAM ADEQUATE

Members Want Provision to Insure United States Second Rank as Naval Power.

### BILL SEVERELY CRITICIZED

Deficiency in Submarines Not Considered, Is Assertion, Even Daniels' Recommendation Being Ignored.

Washington, May 25.—(I. N. S.)—The minority members of the house naval committee today submitted a report to the house, insisting that a comprehensive naval program should be adopted, insuring the United States navy second place in the navies of the world. It differs from the majority report, saying:

The building program as it stands at present is inadequate for the defense of the country.

The increase is a mere arbitrary allotment of ships, without regard to the position of the navy as compared with any other naval power.

The bill takes no account of the deficiency of submarines, not even providing the wholly inadequate number of 25 recommended by Secretary of the Navy Daniels.

The bill fails to provide for the establishment of "a council for national defense."

We urge an increase of 31,000 enlisted men instead of the 13,600 carried in the bill.

At least 50 coast submarines should be supplied as the first step to supply the deficiency of 75 submarines needed on these coasts.

We urge the appropriation of \$3,500,000 for the development and construction of naval aircraft.

The present bill carries \$2,000,000 for this purpose. We recommend 6 scout cruisers instead of 4, 25 destroyers instead of 10, as well as a fuel-oil ship, destroyer-tender, supply-ship, repair-ship and transport.

The naval bill, carrying an appropriation of \$241,443,151, was reported out favorably by the house committee on naval affairs yesterday.

The appropriation is about \$90,000,000 above that of last year.

The biggest item in the bill is for building warships. Counting the cost of construction for the first year and continuing the work on vessels authorized heretofore, the expenditures on vessels for the coming year will amount to \$38,859,374.

The appropriation includes \$250,000 for the purchase of land on or near San Diego coast as an advance base and for expeditionary and aviation purposes.

### WILSON TO ACT FOR ALL WHEN PEACE COMES

(Continued From Page One)

prevent peace until after the expected allied offensive.

Conservative German newspapers do not relish the idea of Wilson as a peacemaker. The Lokal Anzeiger said today: "Wilson wishes a change in his attitude by demanding and en-

forcing respect for international law by our foes before undertaking the more difficult role."

### Grey's Speech Changes Odds.

London, May 25.—(U. P.)—In consequence of Sir Edward Grey's declaration that there will be no peace until Germany shifts its attitude, Lloyd's war odds became shifty. Lloyd's has been offering even money that the conflict will not end this year.

Today's odds were 3 to 1 that the war will not end during 1916, 7 to 3 it will end before April 1, 1917, 20 to 1 it will end before 1919; 4 to 1 that Sweden will not join Germany within six months; 2 to 1 that Germany and America will not be at war this month.

The German-American odds reflect the English feeling that a submarine attack on a passenger liner with loss of life would upset President Wilson's settlement and precipitate war.

Grey's speech was generally applauded by newspapers today. London opinion is that he has killed all German hopes of making peace terms if the Kaiser desires an early end to the war.

"First steps toward peace will have been taken when Germany realizes the allies are unbeatable," declared Sir Edward Grey.

Grey's statement was made in the house of commons in reply to Imperial Chancellor von Bethmann-Hollweg. He said Hollweg's statement with regard to a crisis in Bosnia was a "first-class lie."

Hollweg had declared that Germany had averted a war at the time of the Bosnia trouble, to England's displeasure.

### Reventlow Wants Belgium.

Amsterdam, May 25.—(I. N. S.)—Count Ernst Reventlow in the Deutsche Tage Zeitung continues his campaign against the idea of restoring Belgium. He has discovered a new argument. Here it is:

"It is a well known fact that before the war Belgium used to carry enormous sums from Germany by her transit trade. It is, therefore, intelligible that she should desire to keep this source of income and if possible enlarge it with the help of her friends.

"Here is a question to which the attention of the German public must be drawn. We regard it as one of the most important economic questions of the future, a question that is most intimately connected with Germany's ability to compete in the market world, that Belgium should cease to be an economic barrier between the Germans and the industrial districts and the ocean."

### Big Trade to Follow Peace.

New York, May 25.—(I. N. S.)—Ludwig W. Schmidt in an editorial in the New York Herald-Tribune says Germany may buy from this country after the war foodstuffs and commodities amounting to \$450,000,000.

Schmidt says, needs raw materials produced in this country and it is reported that she would rather do her buying here than elsewhere.

"So," says the editorial, "her merchants may come to this country with very big orders when the time of peace approaches. German shipping lines already are preparing to transport the goods bought and there will be no difficulty in handling the big shipments."

### Irish Government Plans.

London, May 25.—(I. N. S.)—A government for Ireland constructed on the Swiss plan, to meet the difficulties of Catholic and Protestants, at odds with each other, is suggested in ministerial circles.

The proposed plan is to give Nationalist Ireland home rule at the end of the war, excluding Ulster from the operations of the Nationalist parliament, and giving that province a parliament of its own.
