NATURE FAVORS SEASIDE

Stretch of open beach at Seaside and street scene.

Seaside, Or., May 27.—The beach, forest, driven and fishing streams of Seaside already are attracting numbers of summer visitors. When the recent weather conditions of the interior are considered, the appearance of a big "advance guard" of summer time citizens augurs well for a heavy season when hot days really come.

Seaside is better prepared than ever before to care for the ever growing warm weather colony, and to provide entertainment and recreation for those who seek coolness and enjoyment "rolled in the same package."

Hotel accommodations are good and visitors have a wide choice of living quarters. Some hostelerias are within a minute's walk of the wide, clean beach and others are nestled under the first and cedars farther removed.

Outing opportunities of all kinds are at hand. For the autoist miles of paved roads wind their way through the timber reaches of the neighborhood, giving connections directly with neighboring beaches and the mountain fishing streams.

Cemetery association has offered a site to the old soldiers upon which the monument will probably be erected. Plans call for a shaft costing from \$1500 to \$2000, the money to be raised by popular subscription.

YOU CAN ALMOST TALK TO HER —THIS 3400 r. p. m. CHALMERS. They're buying motor cars today as they're hiring men on ability. Blue eyes, brown hair, a rugged jaw, mean something—but not so much as they used to. They're seeking ability. And that is not always measured in stature, weight and reach. Likewise in a car. They look her over, learn her wheelbase, note the tire sizes, ask the bore and stroke of the engine and then— They make her perform. They make her hit the trail, they roll her up the steepest hill. They let her out on the straightaway, and they make her accelerate at slow speeds. It's the only way to judge a car. And we're particularly glad, because we have in the 3400 r.p.m. Chalmers a car that answers every human wish. You can almost talk to this animal. You can lead her anywhere. We know of no one who has ever called on her for too much, nor asked of her anything she couldn't deliver. She's like a young ballplayer who keeps driving 'em over the right-field fence. She's there. And the reason is her magnificent 3400 r. p. m. engine. When history in our business is written, 3400 r. p. m. will occupy a thick chapter. Simply because at the lowest speeds she saves her energy, turns up only 500 r. p. m. at 10 miles an hour, and 1000 r. p. m. at 20 miles an hour. Thus using only 18 per cent of her power at such speeds and saving 62 to 80 per cent for winding, hilly roads, bad turns, and on occasions when a little extra power gives you possession of the road. One ride of five miles behind the wheel and you'll own it. Ask your dealer about Chalmers service inspection coupons, negotiable at all Chalmers dealers everywhere. This system is a most important consideration in buying your car. Five-Passenger Touring Car, \$1090 Detroit. Two-Passenger Roadster, \$1070 Detroit. Three-Passenger Cabriolet, \$1440 Detroit.
