Candidates for Exalted Degrees Expected to Receive Honors at Coming Reunion

THREE DAYS OF MASONRY

Masons and Rank Probably Will Be Enlarged by Accessions.

The Scottish Rite Masons of Oregon will hold their thirty-fourth semi annual remion in Portland beginning Thursday, June 1, and continuing until Saturday, June 3. Sessions will be held in the Scottish Rite cathedra' at Morrison and Lownsdale streets, and are called under the authority of George F. Moore, grand commander. Washington, D. C.; John H. Cowles, secretary-general, Washington, D. C .. and Philip S. Malcolm. sovereign grand inspector general of Oregon.

The "Valley of Portland, orient of Oregon" is subordinate to the suprema council of the thirty-third degree for the southern jurisdiction of the United States of America, the mother supreme council of the world

The ancient and Accepted Scottish Rite is the highest of the Masonic degrees known and confers the fourth and up to and including the thirty second degree. At the coming reunion the highest degree conferred will be thirty-second. knight commander of the court of nonor and the thirty-third degree are onferred only by the supreme council itself and cannot be petitioned for. Membership in the A. & A. S. P.

sons of the blue lodge in good stand-ing, and in Oregon they must be citiof the state and qualified voter-The membership in Oregon is about 1800, and the organization is prosperous and growing. The classes given the degree at the reunions vary in number, but it is expected that econd degree at the coming sessions Philip S. Malcolm, sovereign grand in spector general, has charge of ublicity department of the work and will answer all inquiries made.

Deaf Britishers Drill.

London, May 27.—(I. N. S.)—One jundred deaf men are now drilling here in the hope the army will accept w watching the lips of the commandrs but they also have a system of When the commander holds up fouingers they form fours, for instance. in dtwo fingers is the sign for a twoleep formation. Military men who have inspected them say their drill is

inflict.

One of the world's great engineering around which it is built. In startvated 90 feet below the river bed and there they found another river bed of lava formation.

Big Cauldrons in Bed In this bed there were huge caul drons which probably were made by together, which lay along its course. The bed of the river 90 feet below the surface was the same as it was many years ago when some volcanic eruption took place and covered it up. The dam is 349 feet high, 190 feet

wide at the bottom, 16 feet wide at The huge wall is built the first experiment of the governmotive power for the entire work was electricitly, furnished by a station about 20 miles down the river.

The huge wall contains in it many cooms, electrically lighted, in which German. is the latest machinery for regulating the flow of water. This machinery regulates the flow of the water through the holes in the side of the dam as no water goes over the top. There are 10 holes, each four feet and four inches in diameter and 150 feet from the bottom, through which the flow of the river is permitted o flow. In case of a flood the water will run out of a spillway alongside of the dam.

Nineteen Miles in Length. The pond back of the dam averages one-half mile in width and is 19 miles long and although it is not full the present depth of the water is 200 feet. This vast amount of water has accu-mulated from the flow of the river during the construction period of four

The plan used while the dam was construction is the one which will always be used, as the dam was not built for irrigation purposes, but merely as a storehouse for water to be used when the river runs dry. Except during a few weeks of the year the river carries enough water to irrigate the 240,000 acres now under cul-

Another feature of the dam which has as yet not been developed is the harnessing of the vast amount of energy going to waste. The normal flow of the stream develops 114,000 meets in St. James's palace with horse power and if the pond back of the wall is filled to a greater depth the horse power will increase propor-

The recent earthquake in Idaho did not do any damage to the dam. The pictures accompanying this article are enlargements of films taken by the Oregon Journal-Pathe News Weekly, which will be exhibited at the Majestic theater tonight and subsequent nights this week.

ranging to Celebrate Pourth in Grand Style This Year.

Plans for a celebration of similar na- received from them. ture, only on a smaller scale as that which took place at Columbia park on Defendant Appears the Fourth of July of last year, are being formulated by a committee from the University Park club. It is the intention to secure the cooperation of all

organizations on the peninsula. This year's program will consist of additional features. There will be a parade in the morning, starting at 19:30 'clock from Portsmouth avenue, which will proceed down Lombard avenue to Columbia park. Lodges, Sunday schools, public schools, Columbia Park Athletic club and other organizations will be represented. Floats will be a

The police band will lead the parade and render a concert in the afternoon at each side held the barrel in place, the park. A number of speakers are to be engaged. There will also be athletic events for all those who care to take part. The chairmen of the different committees follow: George Dearlove, parade committee; Wallace Tindall, athletic committee; R. O. Bachman. program committee, and J. A. Stevens, refreshment committee. A special by clothing him in the barrel, comcommittee will be appointed to arrange for a chicken dinner for the band boys.

PORTLAND LEADER OF 'ADVANCED THOUGHT' IS WORLD CHARACTER

Mrs. Lucy A. Rose Mallory Made Impress on Great Thinkers of Modern Times.

Contributor Tells of Labor of 45 Years in Humanity's Cause—Through Publication of Articles.

The career of a well known Portland voman, whose writings have attracted international attention is sketched in the following from a contributor to The Journal:

Mrs. Lucy A. Rose Mallory of this ity, began the publication of the World's Alvance Thought 30 years ago, and it was the first advanced thought publication ever started. Parker Pillsbury, the prophet of the abolition movement, and William H. Kimball, the Concord philosopher, were among its earliest contributors, and it was the forum of some of the most original thinkers and writers during the close of the last century. If the poems published by the World's Advance Thought were put in book form they would certainly take the front rank in poetic literature. ames Gowdy Clark wrote one of his best poems, "Innovation," for its col-

Forum for Thinkers. The advent of the World's Advance Thought proved to be a decided new eaven in the literature of the world, and created quite a commotion among the world's thinkers, but especially was this evident in England. Soon after its appearance Captain William Eldon Serjeant, of the British army ublished a book entitled "Spirit Rerealed," (a copy of which is in Mrs. Mallory's possession), which has proven itself prophetic in character. It contains, among other matters, juotations from the World's Advance hought. Captain Serjeant was a made her acquainted with the World's Advance Thought, and in 1888 Captain Serjeant sent to Mrs. Mallory a beautiful favor made of white baby ribbon, which she had constructed with her own hands to show her appreciation of Mrs. Mallory's efforts for human

W. T. Stead Her Friend. William T. Stead was a great friend ' the World's Advance Thought from the start, and it was the cause of his launching the Review of Reviews which created a great revolution in the wordy literature of the old maga certainly put advance. zines. It thought in Tennyson's last poems, as their character changed to conform to the new ideas soon after he becam a subscriber.

writer, was among the first to con the top and about a quarter of a gratulate Mrs. Mallory on the advent of the first number of the World's of rotten granite and cement and is Advance Thought, and he remained her most faithful friend and admirer unti ment in using grante in concrete over 100 letters from him in her work instead of sand. The granite possession. When he published hi International Tolstoy Almanac he in vited her to write the leading articl for it, and published four volumes o her "Key Thoughts" in Russian and He also published a large volume in the German language en titled Fur Alle Tage (For Every Day) which contains the sayings noted thinkers and writers, both ancient and modern, and interspersed these with a number of Mrs. Mallory's "Key Thoughts." He called her teacher of teachers, and subscribed

himself her pupil. Inspired Duchess Pomar.

The Duchess of Pomar, Lady Caith ness was one of the earliest contributors to the World's Advance Thought, which inspired her to write the "Mystery of the Ages," a work replete with advanced ideas.

In recent times Mrs. Mallory's labor for humanity's uplift is being recog-nized in all parts of the world. From India came to her a jeweled medal, struck in honor of her work; from Brazil came a beautiful illuminated parchment, voicing sentiments of grattude by the leading men in Brazil. Not a month passes but she receives grateful acknowledgements from the Oxford and Birmingham universities

of England. Among the dozens of appreciative letters received (and which Mrs. Ma! lory never publishes), a very appre-clative letter was recently received the honorable secretary of from Queen Mary's Needlework Guild, the Hon. Lady Annie Lawley. The Guild Queen Mary.

Elizabeth, queen of Roumania, waone of Mrs. Mallory's most loyal friends. She never missed an opportunity to speak in commendation of the World's Advanced Thought, and uphold the truths it stood for. Queen Elizabeth was deeply interested in providing for schools for the blind in her dominions. She once wrote Mrs. Mallory how happy she would be if she could persuade some of the rich men in Roumania to unloose their more liberally for the unfortunates.

Mrs. Mallory has held advanced On the Peninsula thought meetings continuously the past 45 years, which are free to the general public, without collections or contributions being taken at any over the world University Park Community Club Ar- time; and people, all over the world who have attended these meetings have testified in their letters to Mrs. Mallory how much benefit they have

Gowned in Barrel

Baltimore Individual Imbibed Too Much, Disrobed and Went to Bed in Wagon-Then Toppled Out.

Baltimore, May 27 .- Clad in a sugar barrel, a boudoir cap set jauntil; upon his head and his feet shod in brilliant carpet slippers, Curtis Mailey hobbled into police court to face Justice Mc Faul on a charge of drunkenness and disorderly conduct. A policeman at Mailey said he drank too much and

disrobed and went to sleep in a wagon which he found in an alley. He awoke when the wagon was driven off, and toppled out, eacaping injury by landing on his head. Somebody fired a few pistol shots to

attract the police and the officers,

when they appeared, rendered first aid

mandeered at a grocery store. The man was sentenced to clothe himself, and his wife produced a suit, In which as arrayed himself and left.
