As a result tend the annual meetings. As a result only a minimum amount of good is accomplished. It was thought by its officers that each state should have its own association and in line with that idea Washington has already formed her association and it is in a flourishing condition. Oregon is badly in need of such an organization and, as it seems always necessary to have some organized body father such a movement, the Musicians' club of Portland has voted to take the initial steps toward forming a permanent body. Its committee therefore asks that you kindly answer the following questions and return the same to the chairman, John Claire Monteith, 507-8 Columbia building, as soon as possible:

"Will you be able to attend a meet ing in Portland during Rose Festiva week for the purpose of taking pre-liminary action necessary to the for-mation of the Oregon State Music Teachers' association

"If not, will you please give us the names of one or more teachers in you vicinity who will?

"Our state is so large that the one organization cannot properly reach all sections effectively. It is therefore thought best to divide the state into districts, each with its own district association, so that local problems may be locally handled. With this idea mind do you favor dividing the state into three or four districts or do you favor having each county comprise a district, as has been done in Washington? "The committee will appreciate i

if you will give them the benefit of any ideas or experiences you may think pertinent to the working out of this very important matter. "We hape to have your hearty co-
