A paper for use in Mothers' association was read by Mrs. Johnson, from which many helpful ideas were secured. The truth was brought home to the mothers that the "children go to school in the hearts of the mothers, and mothers can make their boys what they will." An interesting feature was a talk by Mrs. Grimes on "Juvenile Probation Work in California." DEEP BREATHING IMPORTANT—Are you tired of heaving about the benefits of deep breathing?

It is a subject as old as the hills, one of the most important factors of beauty and health. The woman who takes long walks, plays tennis or golf, the woman who swims, cannot but breathe deeply, for she will need to do so in order to keep up with all that she is doing. Vocal exercise is good for the same reason. Therefore, to the round-shouldered girl, whether this condition has always been there or whether it has come from bending over a desk or typewriter, I would say, take your cue from this fact and go in for any physical exercise that you really like. Rest assured that if you continue it for any length of time your round shoulders must necessarily disappear, and you breathe more often and more deeply, and as this better aerated blood courses through all parts of your system, not only will the round shoulders be a thing of the past, but you will find that in seeking to rid yourself of the round shoulder habit, you have gained immensely in all directions.

HANGING PICTURES The 10 commandments of picture-hanging: 1. Choose frames that are in period of pictures. 2. Do not emphasize the frame at the expense of the picture. 3. When possible, place important pictures in wall panels. 4. Do not put more than two kinds of pictures on one wall. 5. Arrange small pictures in groups. 6. Place personal photographs on tables or desks. 7. Never disturb the lines of a mantle by putting standing frames thereon. 8. Let the supports of heavy pictures show. 9. Have the supports of heavy pictures in straight lines instead of triangles. 10. Have pictures on all four walls balanced in spacing.

SCALLOPED EGGS Boil six eggs until hard. Have ready a cup of chopped meat or fish, a cup buttered cracker crumbs and 1 pint white sauce. Sprinkle bottom of buttered baking dish with crumbs. Cover with $\frac{1}{2}$ of eggs, chopped fine. Cover eggs with sauce, and sauce with meat. Repeat and cover top with crumbs. Bake until crumbs are brown. Ham, chicken, sausage or veal may be used.

Strong Program Promised. Four winners are promised by the Strand for its new bill opening tomorrow, backed by the strong Red Feather feature film, "The Iron Hand," with Hobart Bosworth, already a Strand favorite, in the leading role. Margaret Iles and company will offer "The Soul Savers," a farce-comedy with an original plot. Wilfred Dubois, a juggler, whose dexterous manipulations are second only to his comedy stuff, will be a prominent feature. The three Westerns, two splendidly proportioned and one athletic man at work getting fine living reproductions of standard works of art, "The Comedy Songsters" is the title given Gene and Kathryn King on the bill, and they are said to live up to it.

Original Humpty Dumpty Clown. Kingston, N. Y., May 31.—Tony Denier, 88 years old and noted as the original "Humpty Dumpty" clown, is an inmate of the Kingston almshouse. Mully Mole.
PERHAPS you are wondering why Mully Mole came to live in the front yard and how he got there. Listen! I'll tell you all about it. Mully Mole (and all his brothers and sisters and cousins and aunts) lives down in the ground all the time. Hardly ever does he see the light of day. He burrows with fine new seed and eat the seed up. So of course Mully made haste and came to the lawn—and there Billy Robin saw his tracks. Mully must have been having a fine feast, for the ridges went up and down, back and across the lawn. Billy watched and saw new tracks every day and wished he could see for himself the little creature that Mr. Garden Toad talked about.

But Billy was not the only one who noticed the ridges in the yard. Mully Mole had not lived in the front lawn a week before he found his way back past the log where Tommy Tittle-Mouse lived and into the garden patch.

Tommy noticed the marks of his travel and called Mrs. Tommy to come and look.

"There are some new hills not far from our log," he said, "and I am perfectly sure they were not there yesterday. Do come and see them."

Mrs. Tommy followed Tommy at once and together they examined the hills.
