Can we not spare some minutes from our adoration of our national materialistic god, to teach the young that it is good to be in the company of those who interpret life in terms of spirit, not in terms of material prosperity; in terms of spirit, not flesh; in terms of beauty, whose potent appeal may quicken the will to rise and create in the image of the higher dream? -Margaret Sherwood in June

#### Here's Another Man Who Would End War

Common-Sense Patriotism, by A. A. Warden. G. W. Dillingham company, New York. \$1.00 net.

Mr. Warden has a scheme to end the European war. His volume is also quaint in that it contains 67 pages of foreword; six pages of preface; six pages of introduction; 49 pages of title subject matter, and 78 pages of "open letters."

The author's plan is to bring the warring nations together for a peace conference at Berne, Switzerland. The process of getting the beligerents on neutral ground is merely a trivial matter of making them realize that war is wrong, very wrong, in fact; that probably Germans and allies have both been somewhat hasty and victous, and that it would be quite the nice thing for them to do do if they would all kiss and make up. Mr. Warden would have the Germans make the first advances.
