Mrs. Thomas Hawkes, who presided at the club luncheon given yesterday at the Commercial club.

It is based on two propositions—that women have the right to vote under the constitution of the United States as originally framed, and that congress can bring this right into activity as far as it relates to the vote for members of congress.

Your Limbs Unsightly Hair White Stockings

Most women do not realize that superfluous hair on the limbs is one of the most common defects of the face. This makes it plain why well groomed women use De Miraculo hair remover from the limbs as well as the face, neck, arms and under arms. Pastes, tubs or preparations that remove hair and imitations of De Miraculo will usually remove the hair from the surface of the skin, but only De Miraculo has the power to devitalize hair. It does this by absorption. In other words, it attacks hair under the skin as well as on the skin and actually retards its growth. Avoid the use of hair removers. De Miraculo Chemical Co., Dept. 1-2, Park Ave. and 125th St., New York.

ABOUT LETTER WRITING

When there's a letter to write it is essential to have something on which and with which and about which to write. It is a temptation to extemporize to wander about in the reflection shop with its attractive stock of paper and pens, pencils, writing cases and other accessories of writing spread forth. The wise woman is the one who buys a good quality of stationery and her household need for writing letters.

To begin with, there's note paper. Pure white paper is always in good taste, and no mistake is ever made in choosing it. Pale gray paper and cream paper, too, are in impeccable taste, and there's nothing that many women of good taste use.

It is a good plan to choose one sort of paper and always use it. Buy it in several sizes—in letter and note size and in correspondence cards, and buy envelopes of the same sort for holding calling cards. You can order this always at the same stationer, and the expense of having it supplied the same will be no greater than the expense of choosing a different sort each time you buy paper. And you will gain a reputation for always making matter of good quality and in good taste.

Although the brilliant paper one sees in the shops (there is just now a canary yellow lined with royal purple) is not to be considered, the woman who likes gay colors may indulge her liking in the accessories of her writing table.

There are the colored leather writing cases or desks, for one thing. These can be had in red, purple or green, as well as in brown, navy blue and black.

Then there are the bright quill penholders that add a festive tone to the writing table. There are all sorts of oddities in pencils, too, that are useful for writing lists and through menus. There is a new sort with a funny little child's head stuck on the top. And there is the colored pencil, stamped in letters of gilt with the name of the maker.

The ink pot, too, can be of bright color and interesting shape. There are little figures of men and women, in gay-colored china, for instance. These are lovely pieces of expensive porcelain for the same use.

SPINACH WITH EGG SAUCE Two quarts spinach, two tablespoons each of flour and butter, one egg, few grains each of nutmeg and pepper, one-half cup soup stock. Wash spinach thoroughly in several waters, using warm water for the last washing. Place in kettle, adding salt, but no more water, and cook gently for 20 minutes, lifting mass occasionally so that it will not burn. Chop fine or put through meat grinder. Return to kettle, adding melted butter and flour combined with stock. Boil ten minutes. Beat egg thoroughly, add a little of liquor left from spinach and season with pepper and nutmeg. Leaves of young beets or kohlrabi or new cabbage are good cooked in this.

CHEESE ROLLS The salad without the accompaniment of cheese and crackers is quite impossible. A nice way to prepare cream cheese so that it is soft enough to spread on toasted crackers is the following: Have ready a good sized bowl, into which you can put a cream cheese and mash it with a silver fork. The bowl should be well washed, so that it will be perfectly smooth.

Now add two tablespoonsful of sweet cream, a teaspoonful of chopped chives or olives, plain or stuffed, one-quarter teaspoonful of salt and enough paprika to make it quite pink. Roll into small balls, garnish with half of an English walnut on either side. Stop at the bottom and serve on the plate with the salad, or separately, as you fancy. It may also be used on romaine salad with a French dressing.
