Many of the farmers who attend the early morning trading on the east side were compelled to drive away without the sale of their berries. Most of them visited the wholesale way and fried to sell at \$1.75, but quickly lowered their price to \$1.50, and then were finding it difficult to unload. Along the street sales of berries were gen erally reported around \$1.75 for the best of-ferings, but there was no snap to the trade,

A carload of berries came in from Chehalis and were offered at lower prices to the street. CHEESE SITUATION HOLDS In some quarters there are expectations of an advance in cheese prices instead of a de-cline, as had been expected by some. The

## TUBER **GETS** FIELDS IN NUMBERS

Lone Star State Is Infected by Im- Tuesday ...... portations From California-Idaho Declares Another Quarantine-Oregon in Danger.

By Hyman H. Cohen.

Texas potato growers are paying dearly for the lax inspection methods in that state; in fact, no inspection whatever is known. The Lone Star state has already been invaded by state is threatened.

Texas has always been a liberal buyer of fallfornia potators, and officials of the state have come to the conclusion that the tuber moth was received from there. Idaho is sgain the pioneer to recognize the dire consequence of the tuber moth, for by the Culifornia embargo it has placed a ban against the shipments of early potatoes from Texas its trade. This action has called forth the following statement by E. F. Stephens, president of the Idaho state board of horticulture:

"A car of early potatoes was shipped from Womack siding on the Colorado, Gulf & Santa Fe railroad to Pocatello. Inspection showed a serious infestation with the worms of the potato tuber moth. There was therefore no alternative but to order the destruction of the entire consignment, over 200 sacks of potatoes. The infestation was so serious that 23 worms were taken from two potatoes. Previous to this time it had been claimed and beleved that Texas was free from the tuber moth. Idaho has in effect a quarantine effective from March 15 to July 1 against early potatoes shipped directly from California or by distribution from Washington, Oregon, Utah rese prices are those at which wholeshers sell to retailers, except as otherwise stated:

It seems a hardship to quarantine against—Till seems a hardship to quarantine against.

"It seems a hardship to quarantine against shipments from an entire state, but in the absence of safe methods of inspection in the states against which a quarantine has been issued it seemed wise to be sure to guard our Idaho potato growers against this serious pest. The late number of the Facker, a market journal published in Chicago, reports shipments of 450 cars of early potatoes from one point Eagle Pass, Texas, and potatoes moving at the ate of 50 carloads daily. The state board of orticultural inspection is taking steps to get touch with the proper authorities in the southern states to get in touch with the pres-ent distribution of the tuber moth and to take additional steps if necessity seems to require. "It is better to dispense with extra early otatoes than take the chance of infecting our potato fields."

In the meantime no action has been taken ; Oregon state officials to protect the nostate officials to protect the potato industry of this state.

Arredondo Makes Inquiry of Lansing; Latter Promises to Make Inquiry.

Washington, June 22.—(U. P.)-Explanation of the presence of General Pershing's men so far from their headquarters, and also of the fighting at Carrizal, together with the taking of two Mexican towns by Petshing, was asked of the state department by Mexican Ambassador Arredondo. Secretary Lansing replied he had no nformation on the subject, but would

nquire. Arredondo's information as to the Carrizal trouble tallied with newspaper accounts springing from Mexican sources. He called the attention of the department to what he regarded as the lack of prudence on the part of the American commander in going so far from his headquarters. Arredondo held it was unnecessary for the Americans to make this move. information, he said, was direst.

Session Was Brief. Several dead were left on both sides, according to the Mexican envoy, while 17 Americans were captured by Carranzistas.

The session lasted only a short time. The position and understanding of Arredondo is that General Carranza's instructions to him show that the first chief has no intention of going the Carrizal fight. Arredondo begrowing out of diplomatic negotiations, believing firmly that both governments are desirous of peace. But both Eurieson Sees Wilson.
