

WAR MEANS ONLY HATING, SAYS WILSON

Great Ovation Given President in Detroit When He Addresses Great Audience and Says U. S. Must Respect Mexican Sovereignty.

EXPLOITERS' METHODS HAVE CAUSED TROUBLE

Cheers Shake Building When Someone Shouts "Hurrah for the Next President of the United States"; America Is Great Credit Nation.

Ford Takes Hat Off.
Detroit, Mich., July 10.—(U. P.)—Henry Ford, the automobile manufacturer, today said the following message to President Wilson, here to address the World's Salesmanship congress.
"My hat is off to the president who has kept us out of war, who is keeping us out of war and who will keep us out of war."
Covered by reporters as he stood in the Michigan Central station with members of the reception committee awaiting President Wilson's arrival, Ford declared he would not be a candidate against Wilson under any circumstances.

GAINS MADE BY ALLIES—Dotted area shows region conquered by the British and the shaded area farther south the territory taken by the French in the drive at the German lines.

BRITISH MOVING UP HEAVY GUNS TO FRONT ALONG RIVER SOMME

Severest Fighting Centers About Trones Wood, With Allies Making Advance.

London, July 10.—(U. P.)—Steady British progress toward Oivillers was reported by the war office today and indicated that the allies, despite rain, had made progress on the fringe of the advance, the great efforts of the British are putting on getting their big guns to the front for another such campaign as swept the first German line out of existence. When the heavy cannon are again employed within striking distance a new drive in force is probable—and not until then.

Conflict Is Desperate.

Details of the fighting in France as given out by the official press bureau today show that the conflict, though not general, is desperate. The statement said:
"During the past 48 hours the severest fighting has centered around Trones wood, which is of triangular shape with sides about 400 yards long. Here the Germans had erected strong defenses with trenches and barbed wire entanglements."
"On the morning of July 8, after a heavy bombardment we succeeded in capturing the southern end of the wood and subsequently extended our lines northward, resisting most determined counter attacks."
"Counter Attacks Repulsed."
"On Sunday afternoon two more counter attacks made in mass formation were crushed by our artillery. In the evening the enemy bombarded the wood, making two attacks from the east and northeast. The first was repulsed but the second succeeded in penetrating the southern end of the wood. It was immediately ejected. Later last night the Germans made a fifth desperate attempt to retake the wood but it, too, was crushed."
"Northwardward of Trones wood we captured a small piece of woodland with three guns and several hundred prisoners."
"In Flanders the enemy has begun a bombardment in the region of Hooge. There we had made three successful trench raids."

Allied Armies Press On.

London, July 10.—(U. P.)—The Anglo-French armies pressed forward on both sides of the river Somme in severe fighting last night, despite determined German attempts to stem the great offensive.
The German war office admitted this afternoon that British troops penetrated Trones wood, north of the river. Berlin also admits that the French penetrated the village of Blanchez, less than a mile from the city of Peronne, the village of Barleux and other German positions.
A brief bulletin from General Haig, British commander-in-chief, announced that the British after capturing the southern end of Trones wood have made further progress northward.
The French war office announced slight additional progress south of the Somme and the capture of 500 yards of German trenches in a surprise attack in the Champagne region. The German war office contradicted this statement.

Inexperienced Auto Driver Kills Woman

Marshallfield, Or., July 10.—Miss Florence Dye was run over by an automobile and killed last night near Myrtle Point. The car was run by Charles Moeller, who had just bought it and was inexperienced as a driver. Miss Dye was walking in the road with another woman when struck.

FRENCH CLOSE TO PERONNE IN SOMME BATTLE

Republic's Armies Are Less Than Two Miles From Important Railway Town and Guns Have It at Mercy.

GREATEST ADVANCE ON SOUTH BANK OF SOMME

French Have Advanced From Three to Five Miles on a 10-Mile Front.

By Henry Wood.
Paris, July 10.—(U. P.)—French troops pressed closer to the railway town of Peronne, the immediate objective of their great offensive, in furious fighting in the Somme last night, capturing a German line of trenches in the region of Barleux, southwest of Peronne.
At the same time the French broke out with an attack in the Champagne region, capturing German trenches west of Butte le Mesnil on a 500 yard front after the three attacks.
The successful attack in the Champagne region, where there has been little fighting in several weeks, apparently was a diversion to prevent the Germans from shifting reinforcements from that front to the Somme battlefield.
The war office, in announcing these gains today, reported a hull on the French front north of the Somme during last night.
By advancing in the region of Barleux, the French last night brought up their right wing to within less than two miles of the Somme, southwest of Peronne. The village of Blanchez, captured by the French, is only a few miles from Peronne.

Constantinople, July 10.—(U. P.)—The Turkish admiralty today announced that Turkish warship attacked a convoy of enemy transports and sank four.

Higher Duty Upon Dyestuffs Refused

Washington, July 10.—(U. P.)—Arrival of the Deutschland with dyestuffs at this time, declared Representative Hill of Connecticut today, is "merely an attempt by Germany to restore her stranglehold on the dyestuff trade."
Hill cited the Deutschland's feat in an appeal for an amendment to the revenue bill placing a higher duty on dyestuffs. His motion was defeated, 143 to 116.

BIG BRITISH GUNS USED IN BATTERING DOWN GERMAN LINES—An official photograph showing members of the British Royal Artillery ramming some of the food into the maw of one of the big British guns. Guns of this type are being effectively used by the British in battering down the German forces in the big drive.

SUPPORT OF WILSON BY PROGRESSIVES IS URGED IN STATEMENT

Prominent Men of Party in Washington State Issue Call to Fellow Moosers.

Seattle, Wash., July 10.—There is a strong movement among the Progressives of Washington to support President Wilson. Edgar C. Snyder, state chairman of the Progressive party in 1912, and Hon. Ole Hanson, Progressive nominee for United States senator in 1912, have declared for Wilson.

Principles of Progressive Party.

"We stood for social and industrial justice; we wanted the world to pour its treasures into the hands of the many, and not have all the good things of life held by the few; we wanted children to be free to play in the sun and go to school, and not toil their lives out in the factories; we wanted the people themselves to rule, we wanted a real direct primary, and we wanted the death of the party boss."

TREASURY OFFICIALS HOLD DEUTSCHLAND IS NOT AN ARMED CRAFT

Super-Submarine Not a Warship, Not Even an Armed Merchantman, Says U. S.

Washington, July 10.—(U. P.)—The German super-submersible Deutschland is not a warship. She is not even an armed merchantman. She has no guns or armament of any kind aboard her.

This was the report made to the treasury department shortly before noon by customs officials who boarded the submarine at Baltimore. The state department immediately was informed of the ship's status by Secretary McAdoo. The report, while preliminary, is considered definitely to establish the Deutschland's status.

AMERICAN SECURITIES HELD IN GERMANY MAY NOW BE SOLD IN U. S.

Financial Possibilities of the Transatlantic Submarine Service Are Considered.

New York, July 10.—(U. P.)—The financial possibilities of a Transatlantic U-boat service, according to Wall Street leading bankers, include:
First—The sale here of all German-owned securities still held in Germany.
Second—Gold shipments to the United States.
Third—The export from Germany of valuable and greatly needed commodities, especially dyestuffs.

Will You Help the Families of Enlisted Men?

The advisory board of the Daughters of the American Revolution appeal for co-operation in looking after the families of men who have responded to the call of their country, leaving their usual occupations and foregoing their regular salaries. We must have 1000 pledges of \$2.50, \$5.00, \$7.50, \$10.00, \$15.00 and \$20.00 or more, a month for three months. Fill out the blank below and send to D. A. R. patriotic headquarters, room 616 Journal Building, or bring pledges personally.

SUBMARINES CONNECT U. S. TO GERMANY

Deutschland, Super-Submersible, Arrives Safely at Baltimore, Having Left Germany June 23 and Traveled Under Water 90 Miles.

REGULAR SERVICE WILL BE KEPT UP, IS CLAIMED

One Night Spent at Bottom of English Channel to Avoid Fog; No Warships Encountered; Dyestuffs and Mails Are Brought Over Here.

Baltimore, Md., July 10.—(U. P.)—Out of the depths, Captain Paul Koenig brought here today the word of mouth story of the first successful crossing of the Atlantic by a commercial submarine—the giant super-submersible Deutschland, which, he says, is to be followed here by others.

Supplementing a written statement, the captain this afternoon told how his vessel had lain at the bottom of the English channel one whole night; how he and his crew played the grapephone beneath the waves; how they had lived on champagne and the best of foods; how they had openly sailed 3800 miles, submerging only a few times for a few hours and doing only 90 miles under the surface during the entire trip.

His written statement announced that the Bremen, a sister ship, will follow the Deutschland. It is feared Germany now foresees the collapse of the English starvation blockade.

"The captain's statement said, 'The ship "Ninety Miles Under Water." "We went down one or two times in the North sea for a few hours," said Koenig in relating his story. "But we traveled only 90 miles in all under the sea."
"We were four days in the English channel, lying on the bottom a whole night there because the weather was foggy. Nobody saw us, however, and we sighted no battleships—only cruisers and destroyers."
