

PERSHING, IN REPORT, SAYS DANGER PAST

American Commander in Mexico Reports to War Department That Mexicans in Vicinity of Expedition Appear Very Friendly.

TROUBLE IS SETTLED, IS GENERAL BELIEF THERE

Rainy Season Begins Along Route of American Column and a Further Movement of Troops Northward To- ward Border Is Expected.

Washington, July 13.—General Pershing believes the trouble between the United States and Mexico is settled in a report to the war department today, he made this statement supplementing a report that "Mexicans in this vicinity (the vicinity of his column) along the Mexican railroad are reported very friendly toward Americans in the last few days."

Pershing's telegram read: "The Mexicans in this vicinity along the railroad are reported as very friendly towards Americans in the last few days. It is generally believed the trouble between the United States and Mexico is settled. The rainy season is on in earnest and heavy rains are reported from various stations on the lines of communication in the last few days. I shall report within a day or two the effect of the rain on the general prospects regarding further maintenance of roads."

The latter sentence was taken as indicating that a further movement north of the American troops is probable.
