At the prices listed the market is showing unusual strength. This is due to the searcity or lack of offerings generally. California is POTATOES ALONG THE COAST asking such extreme prices there that it impossible even at present high prevailing figures here for the south to ship in this direc-tion. Reports from Stockton, Cal., indicate that best potatoes there are being quoted in cerload lots at \$1.80\column21.90, which is even higher than the trade here is asking.

Farmers are so busy at his time in the local territory that they cannot find time to dig potatoes; in fact, the early crop is not thoroughly ripe.

Rust Reports Give High Wheat Price

Chicago, July 24 .- (I. N. S.)-While the general trend of wheat prices was to highe levels in the pit today, the market was not of the runaway sort that featured the close of last week. Prices were about &c up in the first hour, July selling at \$1.18% September at \$1.19 and December at \$1.221/2 Rust reports continued to come in and there were other factors that favored higher levels. The recent sharp advance however, has in-000 Bushels of Red Milling to duced a trade inclination to take profits and under such pressure some holders found them-selves overloaded. The general foreign situa-

ion was practically unchanged and the work summary of crops was bullish. in the initial trading, July corn eased off almost 2 cents and both the deferred futures were weaker, although more moderately than July. July and December oats held a comparatively steady course, while the September grain sold down fractionally in the first Seturday 204
