"Yes!" or "No!" Mr. Hughes?

The following publicists and literary men of the United States, on August first last, addressed you in the following open letter:

To THE HON. CHARLES E. HUGHES: The professional writers who sign this letter have small interest in parties but a very deep interest in democracy...

Mr. Wilson's beliefs have been expressed in law and in declared policies. He has made an open record by which he may be judged. Wise choice is not possible unless you yourself make equally specific statements of purposes and convictions.

Without intent to offend, we feel justified in charging that in no single public utterance have you filed a bona fide bill of particulars...

Generalities are without value. Blanket criticism is worthless. What we desire to know, what it is fair that the electorate should know...

1—Would you have filed instant protest against the invasion of Belgium and backed up that protest with the United States Navy?

2—It is arrant nonsense to talk about action that would have prevented the Lusitania tragedy. The vague advertisement did not appear until shortly before the hour of sailing...

3—Would you have urged upon Congress an embargo upon the shipment of munitions to the allies?

4—Would you urge universal compulsory military service?

5—You are frank in stating that Huerta's morals were of no concern to America. Does this mean that you would have recognized Huerta?
