## CANDIDATE HUGHES IS STRAIN OF CAMPAIGN

Republican Standard Bearer, Continues to Find Fault With President's Policies.

#### LABOR RECORD TROUBLES

Aspirant for Highest Office Defends Past Attitude in Regards to Working Men of the Country.

By Perry Arnold.

Reno, Nev., Aug. 23 - (U. P.)-Charles Evans Hughes campaigned to day in the first Demo ratte state he has encountered since he left Bridgehampton, N. Y., three weeks ago to begin his long "swing around the cirassault on the Democratic tariff and foreign policies here today, adding also a defense of his own labor record. Big crowds of Nevadana greeted the Republican presidential nominee every-

Today, however, Hughes started an active rebellion. Never again will he permit local or state committees to put him through such a course of strenuosity in campaigning as that which he underwent yesterday. The Republican candidate admitted that he is very nearly tired out. Those with whom he talked before his train reached here said that he told them that the spirit was willing but that no human being could stand many days of the sort he has been undergoing during the past

Shows He Is Weary.

Judge Hughes' weariness was plainly discernible today in a husky voice that did queer tricks of inflection when he sought to press it to renewed effort. But, nevertheless, he had an indomitable enthusiasm that revived him when he faced an audience.

Two or three times during the past few days Hughes hasn't been able, because of pressure of demands made upon him by local and state arrangements committees, to get his dinner before late at night. He was scheduled yesterday to make 14 speeches but at least eight were added at the last moment. The nominee has ruled that he will not disappoint a crowd when they besiege his private car and this very willingness led the local committees to impose on him

Out-Roosevelts Roosevelt.

Hughes apparently talks with great facility-but it is a facility which he has acquired only through a long period of concentration and preparation Colonel Roosevelt, whose trans-continental trip of four years ago is really surpassed in strenuosity by Hughes, has a faculty for quick concentration and little preparation, but Hughes' service on the beach and the painstaking in mapping out all of his talks-even

time is granted him for preparation.
