United States Steel common shares on the New York stock exchange, Yesterday the common shares moved up to 95 3-8 shortly after the opening, this being a fractional gain over the previous high point. Not only is the steel industry prosperous but there are rumors current that some sort of a melon will be cut within the immediate future.

Pish Offal Going to Waste.-Every season many tons of fish waste is dumped by lower Columbia river canneries and no steps have been taken to utilize this as a by-product. A report of United States Vice Consul Woodward at Vancouver, B. C., deals with this problem. -It says:

Mr. James White, vice chairman of the Dominion Conservation commission, is at present in British Columbia securing data in connection with the proposed utilization of fish offal. While at the present time a portion of this waste fish is used in the manufacture of fertilizer, but a small percentage is disposed of in this manner, | day. most of it being thrown overboard. It is estimated that 25 per cent of hallbut and from 20 to 30 per cent of salmon is included in the entrails, head

Southern Lumber Trade .- The lumber men of the southeast are now beginning to take a much more optimistic view of the market than that which last savaral This prospect of an immonths. provement is based upon the increased inquiry and demand and the low stocks now being carried. Owing to the declining market, mills

ports combined. The record shows in 165 mills had orders of 116,159,355 feet, shipments of 106,233,543 feet and output of 89,659,299 feet. The normal

The work of organizing local branches of the Hughes alliance in Oregon is said to be progressing favorably. Mrs. Harriet L. Buford, who has had many years of experience in insurance work, has been engaged by the state alliance to organize local branches in and about Portland. A. A. Courtney has gone to eastern Oregon to take up the same line of work. Walter L. Tooze Sr. reports local from Seattle.
