

SCENERY AND EVENTS ARE TO BE SHOWN IN FIREWORKS PICTURES

F. C. Harley to Stage Production Embodying New Idea in Portland First Time WILL GO ON TOUR LATER

Burning of Congress, Mount Lassen in Eruption, Immigrant Train and Round-Up Champion Shows.

The Journal building is to be featured at the baseball park on Saturday and Sunday nights, when F. C. Harley of Astoria presents the initial performance of his new production to be known as "Harley's Stupendous Fireworks Spectacle."

Mr. Harley will show among other things the eruption of Mount Lassen, the burning of the steamer Congress off the harbor at Coos Bay, Multnomah falls and the meeting between the explorers, Lewis and Clark and the Indians of the Columbia river.

Back of these features will be a series of pictures showing scenic wonders of Oregon and the coast region.

The first productions are to be shown to the people of Portland at the baseball park on the nights of September 30 and October 1.

Following the Portland performance the pictures are to be sent on a tour of the south and east. They will work in the gulf belt states during the winter and reach the coast in the spring.

Spectacular Events Chosen. To those who were close up to America's only active volcano when she blew off the lid last summer, there was offered a wonderful spectacle.

Incidents connected with the burning of the steamship Congress and her glorious race for safety and the life of her passengers will be shown in detail.

"We are so confident that we have found a big idea in this sort of advertising that we are willing to have Portland people pass upon it first, so that accounts for our notion of opening the show here instead of taking it to some of the small towns," said Mr. Harley.

"Incidentally, our success in this matter means a large supply roll to Portland, as well as much advertising. Our factory is here and will remain here."

BURKE QUOTES SOME FIGURES IN SUPPORT OF THE PRESIDENT

Collector of Customs at Portland Speaking at Sherwood Refutes Statement.

CHINESE EGGS MISSING Record Shows, Declares Speaker, That No Lumber or Shingles Have Come From Canada in Last 10 Years.

Sherwood, Or., Sept. 25.—"No lumber or shingles have come into Oregon from Canada for the last 10 years, and the attempt made about two years ago to bring in butter and eggs from China was such a failure that it has not been repeated since."

Thomas C. Burke, collector of customs at Portland, made these statements at a meeting of the Woodrow Wilson league held Saturday night, and based them upon the records of his office at Portland.

Walter L. Tooze had been at Sherwood a week before, and while here had told his audience that the influx of Canadian lumber forcing the lumber market and causing the mills to close.

President Is Assailed. Tooze also said that Chinese butter and eggs were driving the Oregon rancher out of business. He also assailed President Wilson for not sending an army into Mexico to subdue that country.

Judge Burke in his address met the first two of these charges with official refutation from the records of the customs house, and in answering the third he called attention to the fact that the two sons of Mr. Tooze are attending Harvard university and were not with the soldier boys on the Mexican border.

"The records of the customs house show," said Judge Burke, "that no lumber or shingles have come into Oregon from Canada for the last 10 years and that the attempt about two years ago to bring butter and eggs from China was such a failure that it has not been repeated since, and those who favor war with Mexico are not wearing uniforms. Mr. Tooze has two sons of military age at Harvard so the warlike spirit he displayed was manifestly intended for those outside of his family."

Country Is Prosperous. One old time Republican was heard to say after the meeting that if the Hughes' campaign requires a misstatement of facts in order to win, Wilson is good enough for him.

"He is good enough anyway," said he, "for we are at peace, and the country is so darned prosperous that with record prices for nearly everything we have to sell, our only difficulty is in getting cars and ships enough to carry our stuff to market. The contrast in the times between what they are now and what they were several years ago, brings to mind the celebrated reply of William Howard Taft, when he was president, to the question asked him when hundreds of thousands of people were walking the streets and highways looking for work: 'What would you do, Mr. President, if you had no money?'"

Woman Progressive To Support Wilson

Mrs. Joseph F. Seymour, Who Wrote Campaign Song, Sang in Moose 1915 Convention, for President.

East St. Louis, Ill., Sept. 25.—(P. N. S.)—Mrs. Joseph F. Seymour, one time Progressive, who wrote the campaign song that was dedicated to Theodore Roosevelt, and sung at the Progressive convention in 1912, has announced her intention of working and voting for Woodrow Wilson.

"Mr. Wilson's ideals," she says, "are nearer, far nearer the ideals of the Progressives than anything Mr. Hughes and his supporters have been able to put forth. The Republicans offer no remedy for the ills which they assert hang over the country and hold no promise of constructive legislation. I feel sure that every thinking Progressive woman feels as I do."

"They all look to President Wilson to carry out the Progressive party's constructive legislation and consequently may be depended upon to cast their votes November 7 for Woodrow Wilson."

People Ask Chance to Wear Wilson Button

On Other Hand Republican Women Are Ones Who Are Doing Asking So Far as Buttons Concerned. Hughes leaders are printing facsimiles of the Hughes campaign button together with glowing accounts of their contention that Mr. Hughes is already as good as elected, but at the same time they are urging people to get and wear the insignia.

On the other hand The Journal is daily receipt of requests from over the state from men and women who seek Wilson buttons and literature of their own volition and without the coaxing of advertisement.

"Please send me some Wilson buttons, literature and pictures," writes Chris J. Kowitz of Lebanon. "I am not a Democrat but I hope to see President Wilson re-elected."

There is a difference between asking them to wear them, and asking to wear them.

What's There?

Whole wheat is sweet, but when you add the zest of malted barley you have a flavor that no food made of wheat alone possesses.

The famous food, Grape-Nuts, has a delightful taste that everybody likes, and it lies in the "magic of the malt."

Then, too, malted barley contains, besides its great nourishing qualities, a digestive which makes Grape-Nuts food particularly satisfying to weak, as well as strong stomachs.
