To End Catarrhal Deafness and **Head Noises**

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal remedy that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Nearly 90 per cent of all ear troubles are said to be directly caused by catarrh, therefore, there must be many people whose hearing can be restored by this simple home treatment.
