

### MUNICIPAL PLAN OF GARBAGE COLLECTION NOW RECOMMENDED

Solution of Present Question In Portland Offered by Mrs. Alva Lee Stephens.

### DISEASE MENACE IS SEEN

Some of Garbage Now Being Dumped in Gulches and in Vacant Lots to Detriment of Public Health.

By Mrs. Alva Lee Stephens. Much speculation was indulged in last spring relative to the length of time our beautiful city would remain clean and orderly after the vigorous and laudable efforts of certain public-spirited citizens who engaged in the fourteen-day cleanup had ceased. As a matter of fact one has only to traverse the highways and byways to know that the ubiquitous tin can, with its kindred species of garbage, constituting incubators for millions of mosquitoes, flies and other disease-spreading agencies, have again taken up their abode, in gulch, dump yard, and vacant lot.

How long will the civic conscience slumber while spectacles of bacteria-producing rubbish flaunt meretricious reproach before the gaze of an apparently apathetic public? Do we not know that "all is needed for each one" and that in matters of public and private welfare we must act for and bear the burden of the irresponsible or indulgent member of society, who either will not or cannot perform his full duty toward the whole community?

United Effort Urged. A city cannot attain to any appreciable degree of cleanliness, health and beauty without the united efforts of its intelligent and responsible people manifested in municipal activity for the health and welfare of all.

The following report from perfectly reliable people who visited the new Franklin High school a short time ago might be of public interest:

"We found the lighting fixtures so completely covered with large flies that it was impossible to discern of what material the fixtures were made; flies also swarmed over walls and ceilings. These presumably originated by reason of an obnoxious dump situated in the vicinity of the school. During the brief period we remained upon the grounds we counted eight perfectly fearless rats gamboling about."

A recent Health Bulletin quotes from "Science" the following: "Flies that have been experimentally fed on tubercular sputum have passed the tubercular bacilli in a living virulent state, and one eminent bacteriologist reports that a single fly speck contained as many as 5000 germs."

Danger Is Seen. In the same issue we are very properly warned, to make no purchase from markets or stalls where flies are seen. The menace to health and cleanliness of both rats and flies is too well known to require further elaboration, but one is impelled to remark that if one fly speck can contain 5000 germs, it is hoped that the health department took immediate action when report was made to it of the innumerable army of speck-makers that had invaded the beautiful new rooms of Franklin High.

The logical solution of this entire vexing problem is the establishment of a municipal system of garbage collection and incineration. It is agreed in practically all reports from leading cities that the production of garbage and refuse is not less than one ton per day per 1000 inhabitants, and many statistics figure 1 1/2 to 1 3/4 tons per thousand.

Garbage Dumped in Gulches. Figured on the basis of one ton per thousand population, the city of Portland (estimated population 275,000) produces 275 tons of garbage daily. This is now incinerating 46,000 tons per year—about 126 tons per day for a 365-day year, or 148 tons per working day. This is less than half the garbage produced. The balance is dumped in gulches, and in a very limited number of cases, by a very limited number of cases, by a very limited number of cases.

If Portland were not blessed with a remarkable climate, and sufficient rain to wash this exposed refuse to some extent, together with a splendid natural drainage, the health statistics would be far from favorable, but even under these more than favorable climatic conditions the disposal of garbage is going to demand serious and earnest consideration in the near future.

Because the death rate is not excessive, is no reason why it should not be very much lower than it is.

Apathy Is Discussed. People from other cities express surprise at Portland's lack of provision in this very important matter, and we, who are familiar with conditions are more than surprised at our own apathy in that we have so long permitted, without vigorous protest, conditions to exist in many sections of our city, resultant from our present lack of system, that are, to say the least, not creditable to the community as a whole.

The first and paramount reason why Portland should have municipal garbage collection and incineration is because it is necessary for the conservation of the health, comfort and well-being of the community, and a second and perfectly good reason is that it should be an established fact before we can, with any degree of sincerity speak of Portland as a "City Beautiful."

### CRACK LOCAL AMATEUR BASEBALL TEAM HAS GOOD RECORD FOR SEASON

The Union Pacific System baseball team, which has clashed with some of the best teams in Oregon during the present season. The players, from left to right, are, back row—F. W. Schade, catcher and outfielder; A. C. Ritter, shortstop; "Red" Bishop, mascot; L. V. Grimm, first base; T. E. Burns, outfielder; T. B. Collins, manager; F. A. Voss, third base; J. A. Hyland, second base; I. A. Wallin, outfielder; Ivan Hishop, outfielder. Front row—F. L. Provost, pitcher; E. H. McAllen, catcher, and S. Williams, pitcher.

### Experiment Causes Death of Scientist

Expert Chemist Ignores Chemical During Barium Nitrate Test and Is Incinerated in Explosion That Follows. Bayonne, N. J., Oct. 4.—(I. N. S.)—N. T. Peck, an expert chemist in the employ of the Texas Oil company, today gave up his life in the interest of science.

While a dozen company officials were watching, Peck, during a test of barium nitrate, ignited the chemical and was incinerated in the terrific explosion which followed.

The officials, temporarily blinded, were powerless to aid. Peck's face was burned beyond recognition and his clothing entirely consumed.

Braves Beat Phillies Twice. Philadelphia, Oct. 4.—(I. N. S.)—Boston helped Brooklyn clinch the National league flag yesterday by beating the Phillies twice. The scores were 6 to 3, and 6 to 1. Bad errors after two were out in the seventh gave the Braves five runs and the first game.

The Phillies continued their poor playing in the second game, Boston winning with ease. Nineteen thousand persons saw the home team defeated.

First game: BOSTON, 6; PHILADELPHIA, 3. B. H. O. A. PHILADELPHIA. A. B. O. A.

Totals... 24 11 27 8 Totals... 27 8 27 16. Collins ran for Gowdy in seventh. \*Good batting for Kautleher in eighth. \*Gowdy ran for Louder in ninth. \*Gowdy batted for Mayer in seventh.

Second game: R. H. E. Boston... 6 11 0 Philadelphia... 1 5 6 Batteries—Gowdy and Blackburn; Mayer, Bender and Killifer.

No others scheduled. Christie Beats Levinsky. Memphis, Oct. 4.—(I. N. S.)—Gus Christie of Milwaukee conceded beating Levinsky of New York probably 15 pounds and fought him to a draw here last night.

Christie, who was in a good shade until the beginning of the sixth, when Levinsky's continual clinching and tugging in the clinches began to tell on him. Christie even outboxed Levinsky throughout in the open, landing the cleaner and harder punches.

### AGGIE COACH HAS WORRIES OVER TEAM

Coach Pipal, snapped in battle togs, who is now wondering how he will fill up crippled ranks against Idaho eleven next Saturday.

### Volga Creates New Record in Trotting

Lexington, Ky., Oct. 4.—Volga, the 8-year-old sister of Peter Volo, set a new record for fillies of that age when she won the 3-year-old trotting division of the Kentucky futurity yesterday, the first place money being worth \$5500, the rest of the winners receiving \$5000 that made up the remainder of the purse.

The third mile was trotted in 2:04 1/2 by the fleet daughter of Peter the Great and Vervolo Belle, lowering the filly record of 2:05 1/2 made last year in winning the futurity by Mary Putney. The mark is also one-fourth of a second faster than the best record for 4-year-old mares made by Joan in the Walnut Hall stake of seven years ago.

Peter Volo in 1914 won the futurity in 2:03 1/2, the corresponding record being the first ever held by brother and sister in the 3-year-old division. The sum of \$25,000 was offered for the 2:15 trot, 3 in 5, purse \$1000. Tennessee, b. m. by Moke (Gal.) 1:28 1/4; Winda Lockhart, b. m. (C. Taylor) 2:53 1/2; David Look, br. g. (Gowdy) 3:14 1/2. Also two-handicap, Trusty McKinley, Miss Denver, Great Ivan, Gay Patch, Belgian, like Martin, Berne Moore, Agon (Gill). Time, 2:00 1/2, 2:00 1/2, 2:11, 2:11 1/2. 2:06 trot, 2 in 5, purse \$1200. Mary Putney, b. m. by San Francisco. Col. 2:07 1/2. Row B, b. g. (Wright) 2:08.

### Football Doubleheader on Tap

Manager Conville of the Multnomah Amateur Athletic club completed arrangements with Coach Callierate of the Columbia university to have his team play Multnomah in the first game of Saturday's double header. Pacific university will play the second game. The first game will start about 1:30 o'clock.

### Ritchie to Become Aviator

Redwood City, Cal., Oct. 4.—(U. P.)—Willie Ritchie, former lightweight champion, today declared he expects soon to qualify for an aviator's license, following a series of lessons he is taking from Aviator Frank Bryant of this city.

Ritchie made two flights yesterday, and expects to make others this week.

Prince Albert has always been sold without premiums or coupons. Quality is its standard—and my, how the millions of smokers have approved of it, too!

On the reverse side of this tin you will read: "Patented July 28th, 1907."

A supply of Prince Albert smokes you whenever tobacco is sold. Toppo red bags, 5c; tidvredins, 10c; handsome pound and half-pound tin hand-crystal and that nifty crystal-glass humidifier with sponge-moistener top that keeps the tobacco in such prime shape—always!

### OREGON AGGIES CAN USE CRACKS IN BUT 6 GAMES

First Year Men's Absence to Hurt in Conference Games.

Oregon Agricultural College, Corvallis, Or., Oct. 4.—With only six out of the 17 letter men of last year registered in college this fall, the chances for anything like a championship eleven look rather slim, as far as the northwest conference is concerned. The Aggie card for this season includes nine games, three of which are under northwest conference rules, those with U. of O. U. of W. and Washington State. Coach Pipal will have to depend largely upon new recruits this fall, and the ineligibility of freshmen to participate in these games is liable to play havoc with Aggie prospects.

### Rudolph Helped Beat the Phillies

Philadelphia, Oct. 4.—Rudolph and the Boston Braves yesterday set at rest the hopes of the Phillies in the National league pennant race. Rudolph allowed eight hits, but they were not sufficient for the Phillies to win the first of the day's games.

### Grace Kaddery to Assist Jack Cody

Miss Grace Kaddery, who filled the position of swimming instructor in the public parks last summer, has been appointed assistant swimming instructor of the Multnomah Amateur Athletic club. The appointment was made in view of the fact that a large number of the members of the Ladies' annex are desirous of learning to swim and that instructor Cody had a task bigger than he can handle alone.

### Wolgast Passes Through City

At Wolgast former lightweight champion of the world, passed through here yesterday en route to Seattle, where he will meet Chat Neff in a four round bout Friday. Wolgast will return Saturday. Wolgast has been matched to meet Muff Bronson here October 12.

### Britt Gets Decision

Boston, Oct. 4.—(I. N. S.)—Yonny Britt was given the decision over Al Shubert at the end of a 12-round bout here last night.

remain to open the game against Idaho this week end.

About 20 men with the coach will leave here Thursday afternoon for Moscow.

### BALD BOXER IS RING TEACHER OF BIG ICEMAN

Big Kendall Given Artistic Trimming From Gong to Gong by Sims.

### BALD BOXER IS RING TEACHER OF BIG ICEMAN

Big Kendall Given Artistic Trimming From Gong to Gong by Sims.

If Frank Kendall had paid more attention to training instead of seeking publicity, he might have made a better showing against Lowe Sims, Mike Butler's baldheaded protégé, at the Rose City Athletic club last night. Sims outclassed Kendall from the middle of the first round until the end of the sixth. There was no time during the entire bout that Kendall acted like a boxer.

Kendall entered the ring hog fat. The spending of several weeks in the training camp of Frank Moran did not improve Kendall's boxing. Probably the only thing it helped him to do was to take punishment.

In the fourth round, Sims began using a straight left and a right cross, and he had the big ice man practically helpless when the bell rang. The fifth round was a repetition of the fourth, with the exception that Sims staggered Kendall with a short back handed punch to the chin. Kendall stalled through the last round, making no great effort to exchange blows with Sims.

As one mouthy fan kept yelling, "Back to the ice wagon," it is likely that Kendall will take the punch.

The one sore spot of the evening's card was the announcement that the Bronson-Neff bout was to be a draw if both boys were on their feet at the end of the sixth round. It appeared as if this was a repetition of the fourth, with the exception that Sims staggered Kendall with a short back handed punch to the chin. Kendall stalled through the last round, making no great effort to exchange blows with Sims.

Tire dealers say that practically all last year's United States Tire users continue to buy United States Tires this year.

Only "make-good" sells anything the second time.

United States Tires. And Prince Albert has all that! It rings true and real and you just adopt it for all time quick as you get that taste and aroma into your smokeappetite! Because, it answers the fondest tobacco desires you or any man ever did express!

Advertisement for Arrow Collars, featuring the brand name and 'GO WELL WITH BOW OR FOUR-IN-HAND'.

Advertisement for Real Tobacco Chew, featuring a cartoon of three men and the text 'THE GOOD JUDGE SETTLES A MISUNDERSTANDING'.

Large advertisement for Prince Albert cigarettes, featuring a close-up of a man's face and a Prince Albert cigarette.

stands clear-as-a-whistle above national or state restrictions on the use of premiums or coupons because they have never been given with Prince Albert. To offer such inducements would mean that Prince Albert's quality would have to be reduced to meet their cost! We prefer to hand smokers quality.

One test of Prince Albert will prove this to your absolute satisfaction! It will prove that P. A. cannot bite, cannot parch! Your enjoyment of its fine flavor and coolness will be supreme! The patented process by which Prince Albert is made cuts out bite and parch!

Prince Albert came unheralded a few years ago; today it has made three men smoke pipes where one was smoked before and has given cigarette rollers a new idea of makin's joy. To meet the approval of such an army of men of varied tastes, P. A. must have everything we or its most enthusiastic admirers ever claimed for it.

And Prince Albert has all that! It rings true and real and you just adopt it for all time quick as you get that taste and aroma into your smokeappetite! Because, it answers the fondest tobacco desires you or any man ever did express!
