Unusually low temperatures continue in the Rocky mountains and Pacific states, and frost formed generally this morning throughout the district. It was so severe in many localities as to bring to a close the growing season for the year. TOWN TOPICS

Railroad Men to Dance.—The Portland Transportation club will open its autumnal social season with a dance and card party at the club rooms, Fourth and Washington streets, tomorrow evening. Attendance will be limited to members and their invited-out-of-town friends. The club will hold its first formal luncheon of the season next Monday noon at the club rooms. Governor Wittich, the principal speaker, will extend a welcome home to the members of the club who served with the Third Oregon on the Mexican border.

Bridge Cables Placed.—New cables operating the counterweights of the lower deck to the steel bridge were put in place yesterday, after long preparation. The old cables have been in use about three years. J. E. Murphy of the O.W. & N. engineering department had charge of the installation. The renewal was made necessary because the old cables, though made of steel, had stretched so as to interfere with the adjustment of the weights.

Named Assistant Manager.—Appointment of E. C. Johnson of North Yakima to be assistant manager of the Portland office of the Western Union Telegraph company has been announced, effective October 1. Mr. Johnson for four years has been manager for the company at North Yakima. He will assist Manager W. A. Rebb here, taking from his shoulders much detail work, and allow him to devote his attention to the building up of the service.

Want Street Opened.—Property-owners of the southeastern part of the city want the city to open Twenty-ninth avenue southeast from East Fifty-second street to the city limits. They held an enthusiastic meeting in the Franklin high school last night and adopted resolutions asking the city commissioners to take action. The street, extended, would pass along the south side of the high school and provide an easier approach to the school for the children.

Attempt Made to Stop Milk Strike
Mayor Mitchell, as mediator, puts proposal from Producers up to Distributors—Supply Rapidly dwindles.

New York, Oct. 4.—(U. P.)—Mayor Mitchell, as mediator, tried to stop the upstate milk strike today. He had a proposal from the Dairyman's league—the producers—to deal with the Big Three distributors without league recognition, but with the demanded increases in prices under a six months' contract.

Distributors, however, contended that they cannot deal with the league—that they must do business, as in the past, with the farmers. The string tied to the farmers' proposals, however, appeared also to be a stumbling-block. Meantime the milk supply dwindled rapidly, though some additional came in from new and distant sources.
