Figures Show Exports to Peaceful Countries Three-Fourths 1912 Total.

EXPANSION IS STARTLING

Hughes' Assertion That Beturn to Payne-Aldrich Tariff Is Mecessity Hard to Understand in Pace Pacts.

Washington, Oct. 6.—Startling ex-pansion of American commerce with the countries not engaged in the European war is the big development brought out in the July summary of the United States department of com-

The new figures add overwhelmingly to the array of facts which refute the charge of Candidate Hughes that America's present prosperity is "temporary war prosperity" which can only be continued by going back to a Re-publican tariff. These figures show

To Peaceful Nations.

American exports to the peaceful continents other than Europe increased during the same period 78 per cent and reached the vast total of \$905,780,000. In other words, our commerce with the neutral nations is growing at this time, and has been since January 1, twice as rapidly as our commerce with

During seven months from January 1 to July 31, 1916, we have increased our exports to neutral continents over and above the record for the same period in 1912, as follows:

All Exports Show Increases. Our seven months' exports to South America are \$117,970,000, against \$78,-161,000 in 1912-a gain of over 50 per

Our exports to the West Indies are \$105,679,000, against only \$50,000,000 for 1912-a jump of over 100 per cent. Our exports in seven months to all North America—including Canada, Central American states, Mexico and island countries—reach \$482,749,000, against \$217,324,000 in 1912, an increase of over 50 per cent.

Our exports to Asia in the same period reach the phenomenal total of \$220,345,080, against only \$73,724,000 in 1912-an increase of nearly 200 per

And our exports to Africa and Oceania are \$84,700,000, against \$56,-800,000 in 1912, which is approximately a 50 per cent gain. Increase Is Phenomenal.

Our domestic exports to non-belligerent continents, reaching \$905,780,000 as stated above, are nearly threefourths as great as the total exports to all the world, including Europe, dur-ing the corresponding period in the Payne-Aldrich time of 1912.

American grown and American made products have carried the flag of peace and prosperity to the neutral and non-belligerent continents washed by the seven seas of the globe, until this peace-born commerce has grown since the Taft administration by approximately \$280,000,000, or 72 per cent, as the record of a seven months'

Hughes Charge Not Upheld.

For a complete calendar year, at the same rate, the growth would be \$650,000,000 over the record of 1912-and not a shipload of it entering a war racked European port, or protected by a high tariff wall.

With our exports to peaceful continents three-fourths the total volume to all continents during the period of the Payne-Aldrich tariff, it is hard to calculate how Candidate Hughes expects to win the credence of the Amercan people by charging that our prosperity is a "temporary war prosperity" that can only be saved by going back to the Payne-Aldrich tariff.

Anyone who can inform the father

of his son's whereabouts should write Mr. Girard at his Minneapolis address.

For the prisoners in Siberia, the women of the German Red Cross society have sent out a call for old winter clothing, and reading matter. * The clothing must be warm and in wearable condition. The suffering of the German prisoners in Siberia has *been graphicaly described by correspondents and many people will be happy to affford themselves this opportunity to help them. The reading matter must not have any reference to the war, books or magazines of old dates will be acceptable in either English, French or German. Bundles will be received by Fritz Abendroth at his store, 146 Broadway.

Knights Initiate Class. Hood River, Or., Oct. 6.—Twenty members of the local K. of P. lodge went to the Cascade locks last night to join forces with the Locks lodge in the initiation of a number of candi-dates into the mysteries of the order. A banquet was arranged for the visit-

olis, Minn. Mr. Girard has written The Journal, ing members. The Cascade Locks has American exports to Europe for the first seven months of 1916 increased asking its assistance in locating his a strong K. of P. lodge. ROYAL
