A Practically Perfect Preparation.

VEARS of experience have enabled Mr. Fletcher to make Castoria a practically

perfect preparation. These years of labor: the amount of money required to introduce its merits to the public: the investment in its manufacture, including the most modern machinery, mean a vast amount of invested capital. It follows that the greatest care is exercised in the selection of each ingredient, and the greatest attention is paid to every detail of its preparation. The result is the practically perfect preparation in the finished product; Fletcher's Castoria.

Herein lies the guarantee of the absolute safety in the use of Fletcher's Castoria for the baby, and the warning against irresponsible makers of imitations and counterfeits. The signature of Chas. H. Fletcher that is printed in black on the wrapper and red on the bottle is the mother's safeguard.

Mr. and Mrs. J. A. Gaines, of Ripley, Tenn., say : "We enclose our baby's picture hoping it will induce some poor tired mothers to give your Castoria a trial. We have used it since baby was two weeks old."

Mrs. J. G. Parman, of Nashville, Tenn., says: "The perfect health of my baby is due to your Castoria-the first and only medicine he has taken. He is never satisfied with one dose, he always cries for more."

Mr. and Mrs. A. L. Johnson, of Stevens Point, Wis., say : "When our baby was two weeks old he cried so much we did everything for him, then got some Castoria and he is now strong and fat. We would not be without it, and are very thankful to you."

Try a Little Magnesia Instead.

Thousands of men and women suffer from headaches every day, other thousands have headaches every weak or every month and still others have headaches occasionally, but not at regular intervals. The best Doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headaches returns as usual, and treatment is again necessary. If you suffer from headaches, nomatter what their nature, Some people instinctively shut thei eyes to danger, and it may be that instinct, or custom or habit causes dys-peptics to take drugs, patent foods and medicines, artificial digestents, etc. But closing the eyes does not banish the danger, and it is certain that nei-ther drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the untreatment is again necessary.
