

HUGE DAM WILL MAKE GREAT TERRITORY TO BLOSSOM LIKE A ROSE

Power From Overflow to Be Converted Into Electricity for Use of Farmers.

- Size of Elephant Butte Dam Project. Cost of dam, \$10,000,000. Contains 810,000 yards of stone and concrete, the largest masonry mass in the world. Storage capacity of lake—862 billion gallons, enough to cover Delaware with two feet of water.

El Paso, Texas, Oct. 12.—Elephant Butte dam, the largest irrigation structure of the sort in the United States and the largest mass of masonry in the world, will be formally dedicated here next Saturday, October 14.

The dam marks an epoch in the reclaiming of the vast dry lands of the southwest. It will water 155,000 acres, part in New Mexico and Texas and part in Senor Carranza's turbulent domain.

The statistics showing the work to be done by this dam are staggering. The dam is 1874 feet long, with a maximum width of 215 feet at the base, tapering to a width of 18 feet at the crest, which is 304.5 feet above bedrock.

The structure contains 810,000 cubic yards of stone and rubble concrete, and weighs a million tons. The "lake" formed by the dam, which stores only the flood waters of the Rio Grande, will be 45 miles long, with an average width of six miles and an average depth of 66 feet.

It will have 200 miles of shoreline and a storage capacity of 862,000,000 gallons. This is enough water to cover 2,642,290 acres of land to the depth of one foot.

The dam cost \$10,000,000. Construction was begun in 1910, and completed so far as the laying of stone is concerned on March 1 of this year.

The dressing of the structure and the clearing away of buildings and other impediments has just been finished.

The great power of the water flow through the penstocks of the dam will be converted, it is expected, into electricity. This will be carried over transmission lines to El Paso and many mining camps within a radius of 200 miles of the dam, and he used to light streets and operate manufacturing plants.

Seventy-five thousand horsepower will be produced by the water, which will then pass into the irrigation ditches and do the work primarily intended.

The irrigation farmer will not only have his land watered from this dam, but his house lighted, his corn shelled, and his silo filled by electric power coming from the same source.

Washington 'U' Gets Another Fellowship. Dr. Percival Lowell Donates Fund That Will Produce \$600 a Year for Research Work in Astronomical Lines.

University of Washington, Oct. 12.—The university has received its third donation of the year in the form of a fellowship. This was given by Dr. Percival Lowell, prominent astronomer and scientist.

It is the object of Dr. Lowell to have the most prominent student of astronomy each year go to the Flagstaff observatory in Arizona to do research work along astronomical lines.

This fellowship carries with it \$600 per year and is open to any student in the department of astronomy. It is to be known as the Mars fellowship.

Dr. Lowell has just passed through Seattle, where he delivered a lecture before the student body. He is greatly interested in the department of astronomy at the university and has offered to give a three months' fellowship to Dr. Boothford for the purpose of doing research work at his observatory at Flagstaff.

Physician Dies From Wounds. Chicago, Oct. 12.—Dr. J. B. Weintraub, who was shot by Dr. Arthur McLaren, a dentist, Monday, is dead. McLaren says he shot the physician because he had performed an operation on him that prevented his marriage.

Old Janitor Drops Dead at North Bend. J. A. Kranick's Body Found in Room When He Falls to Appear to Work; Two Daughters, Son, Left.

North Bend, Or., Oct. 12.—J. A. Kranick, 60 years old, was found dead in his room in the Simpson building yesterday. He was janitor of the block and the First National bank. When his work was not done, investigators searched and found his body. Kranick probably had been stricken with apoplexy Sunday evening. He leaves two daughters, and a son who is a member of the Bandon coast guard crew. Kranick had lived in North Bend about 10 years.

Likens Wilson to President Lincoln. G. A. Andrus, Grant County Pioneer, Recalls Historic Debate Between Earl Splitter and Stephen A. Douglas.

Pendleton, Or., Oct. 12.—Woodrow Wilson is nearer like Abraham Lincoln in thought and action than any president or statesman since Lincoln's time.

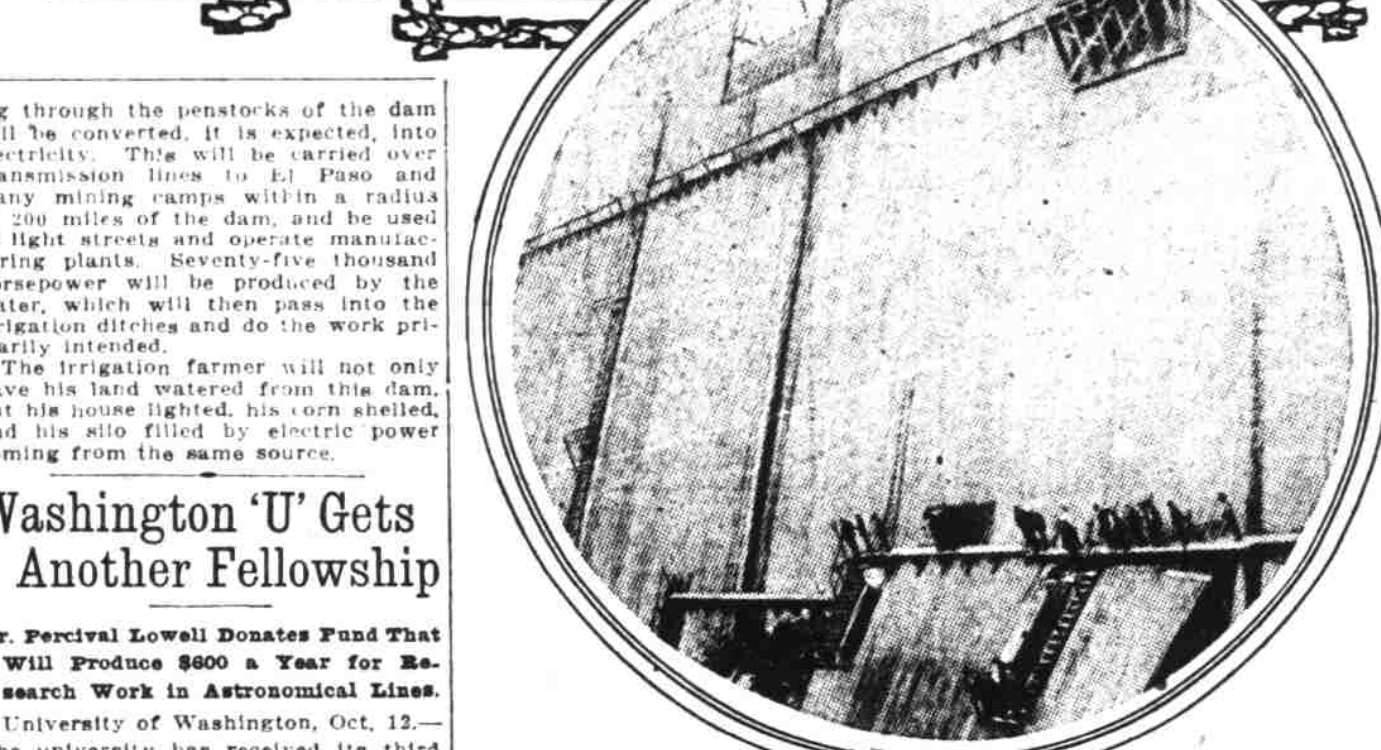

With this statement G. S. Andrus, pioneer of Grant county, who heard the historic debate between Lincoln and Stephen A. Douglas at Quincy, Ill., explains why he, though a lifelong Republican, is giving his support to President Wilson in the present campaign.

Mr. Andrus is here from his home at Long Creek. At the time Lincoln was a candidate for president he was a resident of Keokuk, Iowa, and was a member of the Lincoln campaign club called the "Wideawakes," as opposed to the "Hickories," who were out for Douglas. When Lincoln and Douglas were scheduled to debate at Quincy both organizations took a steamer for that city and attended the debate.

"I heard that speech of Lincoln and never will I forget it," he said. "I have read practically all of the utterances of President Wilson and have followed his record closely, and I truly believe he is more like Lincoln than any president or statesman since Lincoln's time. That's why I am supporting him for re-election."

Mr. Andrus had another reason with which, he said, he ended all political arguments. "I've been a freighter and teamster on this coast for over 60 years," he said, "and always when I found a horse that pulled true, up bad hills and out of bad holes, I kept him. I never believe in swapping such a horse in the middle of a trip for a horse that I had never seen in harness."

ELPHANT BUTTE DAM ACROSS THE RIO GRANDE RIVER IN TEXAS

The top picture shows the dam as it neared completion and gives an idea of the land that will be covered back of it with water. Below is a section of a face of great dam.

Once Upon a Time--Hark to the Story Of Four Huge Bears

Forest Grove, Or., Oct. 12.—William Busse became provoked at a big bear that insisted on eating the prunes and breaking the prune trees in the Busse orchard, that he set a trap for him and caught him. Mr. Busse in the last five years has caught as many bears. He thinks there must be a nest of them nearby.

White Salmon, Wash., Oct. 12.—Warren Woods, Frank Corey and Jack Perry, hunting bears between Laurel and Trout Lake, killed three. Two of them weighed over 350 pounds each. The bears find fine picking on hazel nuts and acorns, which are plentiful this fall, an indication, say the Indians, of another fire eating winter.

Pendleton, Or., Oct. 12.—Hides of four big bears that have been killing sheep in Minam creek country in Willowa and Union counties were received here by E. P. Averill, federal inspector. They were all killed in one week by Clarence Richards, government hunter. He used the hounds of District Attorney Steiwer of this county, and one of them was killed in battle.

Candidate for Congress Defends Eight-Hour Law and Other Constructive Legislation of the Administration. McMinnville, Or., Oct. 12.—Mark V. Weatherford of Albany, Democratic and Prohibition nominee for congress, spoke to the citizens of McMinnville last evening. In discussing President Wilson's peace policy, which the speaker endorsed, Mr. Weatherford said: "War is a rich man's battle, and poor man's fight when it is over; the rich man counts his millions and the poor man counts his dead."

The speaker defended the eight-hour law and the other constructive measures passed under the Wilson administration. Mr. Weatherford is being enthusiastically received in the Willamette valley, where he is well and favorably known. Weatherford will speak tonight at Hillsboro, Friday night at Tillamook, and Saturday night at Woodburn.

Hughes Second With Railroad Employees. Strain in Eugene Results: Wilson 64, Hughes 22 and Hanly 1.

Eugene, Or., Oct. 12.—A straw vote taken at the Southern Pacific railroad station in Eugene, which included other classes of employes than trainmen, was in favor of Wilson for president. A J. Gillett, local agent, prepared a ballot box and placed it in the trainmen's room directly off the

main office of the passenger station, asking the men to cast their votes. The box was sealed and was not opened until last night, when the votes were counted. The results were as follows: Wilson 64, Hughes 22 and Hanly 1.

Promotion Obtained By a Portland Boy. Edwin C. F. Knowles, son of George P. Knowles of 1084 Broadway, who for the past year has been assistant manager of the Pacific coast department of the Phoenix Assurance company, Ltd., has been appointed manager, succeeding Washington Irving, who retires after a service of 26 years with the company. Besides the Phoenix Mr. Knowles becomes the manager of the Pacific coast department of the Imperial Insurance and the Union Marine Insurance company, Ltd., both of the last named companies being controlled in this territory by the Phoenix.

Mr. Knowles will have as his assistant Munro English, special agent in the northern California field, and who has been in the service of the company's Pacific coast department for the past 15 years.

Fire Damages Hotel at Reno. Reno, Nev., Oct. 12.—(U. P.)—Fire early yesterday completely wrecked the first two stories of the Hotel Golden, the largest hotel in this city. The loss is estimated at \$20,000. A defective furnace caused the fire. The guests on the fourth floor were overcome by smoke, and had to be carried to safety by the firemen. The hotel is owned by George Wingfield, W. P.

Mother - Made, Quick-Acting Cough Syrup. Mothers, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2 1/2 ounces of Pinex (50 cents worth) into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready-made for \$2.50—a clear saving of \$2.

The moment it touches the inflamed, cold-congested membrane that lines the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter coughs.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with gualacal and is famous the world over for its quick healing effect on the membrane.

Beware of substitutes. Ask your druggist for "1/4 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

COLUMBIA

Temple of the Motion Picture and Shrine of Music and Allied Arts

Columbia Service—the accepted standard—will be further strengthened by the acquisition of the splendid Arcraft (Mary Pickford) releases, which will be shown in the near future. The Columbia is putting over big things in photo plays. We recommend "The Jungle Child" as a most unusual film.

The opening scene is a Brazilian jungle—shows crocodiles, llamas, monkeys and jaguars, in the native wilds.

Childish confidence ripened to womanly affection—then pure, unrestrained love—goaded by her husband's duplicity—love turns into intense hatred—The conclusion forms one of the most startling situations ever filmed—

The Jungle Child

Howard Hickman Dorothy Dalton in their greatest effort.

a drama of marked originality and great dramatic quality—a play different in setting, theme and action—Story opens in a Brazilian forest and terminates in the "Jungle Room" of a New York mansion.

FAY TINCHER, the Sprightly Comedienne as The French Milliner—a Real Mirth Maker.

Residents Seeking Better Car Service

Question Taken Up by University Park Improvement Club and St. Johns Dwellers.

To determine what action can be secured in the matter of improved car service, a meeting of a special committee from the University Park Improvement club, with two representatives of St. Johns, will be held tonight at University Park.

Residents assert the peninsula district has more industrial institutions than other suburbs, and, consequently, is entitled to better service, and also that the car service figures in the settlement of the peninsula. Although the street car company would be put to more expense in the improvement of the service, it is the popular belief that it would be repaid in time by the establishment of a larger population on the peninsula.

Those on the committee are: C. A. Dotson, R. O. Bachman, president and secretary respectively of the University Park Improvement club; K. G. Couch, president of the St. Johns Commercial club; George Dearlove, Wallace Mason, F. I. Randall, H. B. Allen and another member, who will be appointed to represent the St. Johns district.

To Free Your Skin of Hair or Fuzz

(Boudoir Secrets) No toilet table is complete without a small package of deLottone. For with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about two minutes, then rubbed off and the skin washed, when it will be found free from hair or blemish. Be sure you get genuine deLottone. (Adv.)
