

GERMANS REPULSED FRENCH ATTACK EAST OF FORT DOUAUMONT

Artillery Fire Violent East of Meuse and on Somme but Few Engagements.

Berlin, Via Wireless to Bayville, L. I., Oct. 27.—(U. P.)—French troops attacked our position east of Fort Douaumont at noon yesterday, but were completely repulsed under heavy losses. The war office announced this afternoon.

The artillery fighting on the east bank of the Meuse, between Foller Ridge and the Woëvre, was very violent yesterday.

On the Somme front, besides a strong artillery fire north of the river, there were only reconnoitering engagements. On the south bank, our efficient fire was directed against hostile trenches on the sectors of France, Mazancourt and Chaulnes and he drove a French attack which was in preparation.

French Report Progress.

Paris, Oct. 27.—(U. P.)—French troops began closing in upon Fort Vaux, the last important position held by the Germans northeast of Verdun, in heavy attacks last night. The war office announced today further progress was made in the capture of Vaux and the capture of 100 prisoners.

The Germans kept up a lively bombardment throughout the night around Fort Douaumont and the Chemin des Woods, recaptured by the French in Monday's offensive.

On the Somme front the toll continued. French artillery exploded a munition depot near Ablancourt.

WOOL AND SHEEP GOOD AS GOLD AND OREGON IS HAPPY

(Continued From Page One.)

Thousands of dollars each year in his operations and, if the stories which close friends tell are to be believed, he has cleared a quarter of a million dollars during the past year.

Williamson's operations are not on quite such an extensive scale as those of Stanfield and yet he is credited by the people of Crook county with having cleared up \$70,000 during the past year and to have the equivalent of that sum still invested in "woolies." Whether or not these are the exact figures on his business is of course a matter to which Mr. Williamson himself is best able to testify but he has set least given every outward manifestation of having had a prosperous year in his business. Residents of Pineville say he has purchased no less than four automobiles during the year, two for himself and one each for his two sons-in-law.

Prices Undreamed Of.
In August of this year Mr. Williamson sold 6000 head of spring lambs for October delivery to the Union Stock Yards of Portland for \$175 per hundredweight, a price not even dreamed of a few years ago. In commenting upon the sheep and wool situation recently, Williamson is quoted as having said:

"Of course for those of us who have been in the business for years and have sold sheep for \$1 per head and wool for five cents per pound, it is difficult to get our ideas and valuations adjusted to the conditions that have existed in other countries for many years. About 200 years ago sheep in England went to a price that corresponds to that which they have reached in this country in the last two or three years, and they have maintained that figure with the usual variations until the present time.

Reaction Not Looked For.
While it seems almost unreasonable to state, I cannot see any reason why sheep or wool should ever get back to the low levels that they have formerly held in this country, and they should stay somewhere near the present market quotations for a time at least."

The profits which Stanfield and W.

BRIDGE OVER DANUBE AT CERNAVODA AND MAP OF ROUMANIA

The Cernavoda bridge, blown up by retreating Roumanians, was built in 1896 at a cost of several million dollars and is the only bridge across the Danube, both ends of which rest on Roumanian soil. It spans the Danube and adjacent marshes and is 14 miles long. The Constanza-Bucharest railway crosses the structure.

Hanson have made this year in the sheep business, while larger than those of most of their associates in the industry, reflect the prosperity which has attended every flockmaster in this section of the state. Many stories are told of the profits of individual flockmasters and firms in this section during the past two or three years and, while some of them are doubtless exaggerated, they have ample foundation in the record prices which have been received.

With the market for fine wool ranging from 18 to 28 cents and for coarse wool from 20 to 36 cents, prices such as these are not surprising after a few years ago. It isn't any wonder that the sheepmen are prosperous, for they have managed to eke out a pretty good existence on half these prices.

JAPAN RUSHES TROOPS TO AID RETIRING ARMY

(Continued From Page One.)

vances on the east frontier of Transylvania were repulsed.

"On the Macedonian front there is nothing to report."

King Ferdinand dispatched personal appeals to the rulers of allied nations to save Rumania from disaster after the fall of Constanza, according to Budapest dispatches.

The messages were sent following a stormy session of the Roumanian cabinet. Roumanian military leaders were said to have been harshly criticized by several of the ministers, but supported by the king, who declared the Roumanian defeat was due to the fact that the Italian and Macedonian fronts, in response to King Ferdinand's appeal. Because of the allied armies' lack of sufficient munitions for great offensives on these fronts, the attacks are expected to be short-lived and directed largely for the purpose of encouraging the disheartened Roumanians.

Lines Intact, Says Petrograd.
Petrograd, Oct. 27.—(U. P.)—Offering stubborn resistance to Mackensen's advance, the Russo-Roumanians in Dobruja are retiring northward today toward Harsova-Casapochol line (30 miles north of the Constanza-Cernavoda railway), it was officially announced.

The Russo-Roumanian lines everywhere are intact.

King Said to Have Fled.
London, Oct. 27.—(I. N. S.)—While the defeated Russo-Roumanian armies in Dobruja have fled across the Danube, blowing up the \$3,000,000 bridge at Cernavoda to hinder Von Mackensen's pursuit, the Roumanian government is reported in flight from Bucharest. The king and his ministers, it is unofficially reported, will establish a provisional capital at Odessa on the Russian Black Sea coast.

Dispatches reaching here quote the newspaper Novo Vremya of Petrograd as stating that the diplomatic representatives assigned to Bucharest are

preparing to follow the government. Meanwhile, on their Transylvanian frontier, the Roumanians have given a setback to Von Falkenhayn's army which, smashing at the mountain defenses, is seeking to close down on Bucharest from the west, while Von Mackensen drives from the east.

Tenton Attacks Repulsed.

London, Oct. 27.—(I. N. S.)—Heavy attacks by the Austro-German army of Arch Duke Charles Francis in the Carpathians have been repulsed by the Russians according to an official statement received last night from Petrograd.

The German war office in its statement tells of a surprise attack by General Brusiloff in Volhynia, west of Lutsk. The Russians attempted to storm the German lines without artillery preparation, but their attacks broke down before the German fire.

Italians Reported Repulsed.

Vienna, (Via Berlin and Wireless to Bayville)—Oct. 27.—(I. N. S.)—Repulse of Italian detachments in the region of Karst highland was reported by the war office yesterday. The Italians advanced after heavy artillery preparation but were driven back by the Austrian fire.

Strahorn Departs For Central Oregon

Definite Plans for Beginning Construction on New Railroad Will Likely Be Begun by President.

Finishing his business in Portland sooner than he expected Robert E. Strahorn, president of the Oregon, California & Eastern railway, left Wednesday night for Bend, to start on another comprehensive tour of the central Oregon country.

It is probable that he will definitely close arrangements for the starting of construction, so far as the central Oregon communities are concerned, on this trip. Upon his return he will be prepared to set before Portland's business interests exactly what he expects of the metropolis.

Klamath Falls will hold its bond election for the aid of the project on November 14 and it is probable that work on the Klamath Falls end of the line will begin as soon as practicable after the bonds are sold.

Former Publisher Dies.
San Jose, Cal., Oct. 27.—(R. N. S.)—Charles W. Williams, for 35 years

publisher of the Evening News, died yesterday of arterio sclerosis, at the age of 53. He retired three months ago, selling his paper to Hilland L. Baggerly, a San Francisco newspaper man.

PEACE COMMISSION IS TO CONTINUE DESPITE NEW DEVELOPMENTS

Reports of Affairs Below Rio Grande Are Discredited in Statement Issued.

Atlantic City, N. J., Oct. 27.—(U. N. S.)—The American-Mexican peace commission will continue its deliberations here despite the developments of the last few days below the Rio Grande, according to indications.

At the end of the afternoon session yesterday, the joint commission issued the following statement:

"Telegrams from General Trevino state that he has 8000 troops in and around Chihuahua with which to meet a Villista force of something more than 1000. General Trevino's family has left Chihuahua and gone to Juarez because of the plan of General Trevino to take the field. First Chief Carranza is in the City of Mexico with all of his cabinet and all will probably move to Queretaro within a short time. Queretaro is the capital of Mexico by decree made eight months ago. The constitutional convention will be held in Queretaro on November 20.

"The story published of Carranza being in Queretaro as the possible prisoner of General Obregon is known to be untrue. So is the story of General Amun's death.

"Felix Diaz, who has been reported to be in Oaxaca, is known to be in Chiapas on the border of Guatemala,

which is said to be his base of supplies. The commission spent the day in discussing the extradition and immigration laws of the two countries. A large number of cases were considered where crimes had been committed on both sides of the border and the criminals have not been extradited.

Lift at Oregon City Sticks; 27 Prisoners

Overloaded, Elevator Refuses to Move, Delaying Persons Who Were Going to Mrs. Hanley's Meeting.

Oregon City, Or., Oct. 27.—Twenty-seven persons who were going downtown to hear Mrs. E. B. Hanley speak and to see the street parade for Hughes, were prevented from doing either when the elevator from the hill portion of the city to downtown stuck midway down and kept them prisoners, about 7 o'clock last night.

The car was overloaded, its capacity being 20 persons, and it "froze." Some of the passengers got out and walked down ladders within half an hour after the elevator stopped, but five grownups and six children stayed in the machine, and were still there when City Engineer Miller put it to running again at 9:30 o'clock.

Parent-Teacher Association.
White Salmon, Oct. 26.—A Parent-Teacher association has been organized here and committees for the organ-

ization appointed. The association voted taking up the matter of hot school lunches, and also the building of a gymnasium.

You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Adv.
