"I NEVER HAVE COLDS"

Colds are unnecessary for the most part. Experienced singers and speakers know that colds can be prevented by building up a reserve of health and vitality that will successfully resist colds.

That means, first of all, getting rid of constipation. Any physician will tell you that constipated persons are extremely susceptible, not merely to colds but to other diseases, infectious and otherwise.

Laxatives and cathartics cause more constipation than they cure. The more you take, the more you will require.

Nujol relieves constipation without forming a habit, and without upsetting the normal processes of digestion. It acts in effect as an internal lubricant, preventing the contents of the intestines from becoming hard, and so facilitating natural movements.

All druggists carry Nujol which is manufactured only by the Standard Oil Company (New Jersey). Avoid substitutes. Write today for booklet "The Rational Treatment of Constipation."
