

ENTIRE TOWN TURNS OUT TO GIVE WILSON HEARTY RECEPTION

President Attends Christening of Grandchild in Massachusetts Today.

By Stuart Godwin.

Williamstown, Mass., Nov. 10.—(I. N. S.)—The entire town, including the students from Williams college, gave President Wilson an enthusiastic greeting when he arrived here this afternoon to attend the christening of his grandchild.

The president motored directly to the Gayer home, and thence to the church for the christening.

One of the heartiest expressions of congratulation received by the president on his reelection came today from Delphos Green, negro chef on the private car Mayflower, en route here.

Secret service men traveling to Williamstown with the president for the christening of his granddaughter, Eleanor Ayrton Gayer, tried to bar the way but Green appealed to them and refused to be put aside.

"I just naturally got to congratulate that man," explained the chef. "If I don't I will sure spoil his lunch."

Ovations were given the president at points along the line. The students of St. Stephen's college at Rhinecliff gave the party a noisy greeting. While the train was passing the railroad yards at Ransseler railroad men held up brooms, signifying that the president had made a clean sweep.

The christening was private, only members of the family being present. It was held at St. John's Episcopal church at 4 o'clock.

Telegrams of congratulation on his reelection from intimate friends and relatives were forwarded to President Wilson here by his office staff.

MORE SHIPBUILDING PLANTS MAY SEEK SITES IN PORTLAND

Council's Attitude as to Vacation of Certain Streets Now Being Ascertained.

Portland may have two more ship building plants.

W. D. Fenton, representing the Hannah Mason estate, told the city council this morning that two concerns were seeking property held by the estate in South Portland for ship building purposes. He said that the ground could be used for ship building purposes if portions of River, Beaver, Bond, Vermont and Florida streets were vacated.

Mr. Fenton said that his appearance before the city council, however, was merely to get the council's attitude as to the vacation of the streets if the Ziegler amendment prohibiting the vacation of certain streets within 2000 feet of the meander line of the river could be amended.

Commissioner Dieck suggested that an attempt be made to change the lines of the present streets, that portions of present streets could be vacated and new streets secured without violating the Ziegler amendment.

Mr. Fenton agreed to make an investigation.

Mr. Fenton says that negotiations are pending for the sale of property for shipbuilding purposes and are dependent upon the use of the streets. He says that one concern wants to lease the property for a three year period and another concern is willing to purchase the entire tract of 120 lots.

One concern will build wooden ships and the other steel ships, says Mr. Fenton. He refused to disclose the identity of the two concerns, however.

Property Damage Charged to City.

W. C. Lawrence, whose home on Montgomery Drive, Portland Heights, was damaged last February because of landslides, says the city is responsible for the damage and that it should pay him.

He filed a claim for \$11,500 against the city with City Auditor Barber this morning.

Mr. Lawrence says that a broken water pipe in the street allowed water to saturate the ground near his home.

Portland's Permanent Pure Food Show

For years this institution has led the fight in the Pacific Northwest for pure foods. For years thousands of families have traded here because they know that pure, standard brands of foods are sold here for less. They realize that "stunts"—"loud voiced" type and special "baits" are merely to attract the thoughtless.
