# APPLE MARKETS ARE VERY FIRM AND HIGH IN THE EAST

Edited by Hyman H. Cohen

## OUTSIDE MARKET IS NOT SO ACTIVE FOR POTATO SHIPMENTS

**General Trade in the East and the Southwest Is Rather Dull, With Prices Stationary—Some Buying Shown in Local Sections.**

Lighter demand is shown for potatoes in the east and southwest markets with little change indicated in current quotations from those in effect last week.

Some buying continues at local points with $1.50 still being paid for good shipping stock. No shipments of note are being made to California because of the car shortage; dealers having liberal supplies on hand here which they are unable to move.

Similar showing is indicated in onions. One San Francisco firm is said to have purchased about 100 cars in this section to date the present season, but has been able to secure cars for shipping about a half dozen of these.

Various potato markets of the country:

Omaha—Pleasant; three arrived. Market active, quality and condition good. Sacked: $1.60@1.65 bushel.

Sioux City—Clear. No fresh arrivals. Sacked, $1.75 bushel.

### CHEESE MARKET VERY FIRM

At the recent sharp advance of 3c a pound, market for cheese is showing great strength locally, as well as along the entire coast. Tillamook advices indicate demand better than supplies at the moment.

### CALIFORNIA CELERY HERE

Small shipment of California celery is offering on the local market in good condition. The first carload of the season is due to arrive here during the next 24 hours. It will probably be quoted at $4.50 crate.

### EGGS FIRM BUT UNCHANGED

While the egg market is showing strength here, values are indicating no change along the wholesale way. Sales of candled are being made at 47½@50c a dozen, the latter for selected stuff.

### BUTTER SITUATION IS FIRM

Despite the efforts of certain brokerage interests to boom the oleomargerine trade by continued publicity regarding the high price of butter, the latter shows extreme strength all over the country. On the basis of quality, the markets of the Pacific coast are the lowest in the entire country.

### PRUNE PACKING IS HEAVY

Packing of prunes has been generally resumed in all leading plants of this section. The entire dried fruit market stands in a very firm position, prunes being no exception to the rule.

### BRIEF NOTES OF THE TRADE

Bluestone is up 1c a pound.

Country killed calves steadier; hogs firm.

Los Angeles cauliflower in good condition at $2 a crate.

Hides are again firmer and higher.

## Turkey Market Is Worry to Traders Of Entire Country

**Shortage in Texas Supplies Bothers East and Extreme Values Rule Everywhere.**

The turkey market situation is worrying the entire American trade at this time. Latest advices from Texas indicate that little more than half a crop will be shipped from there. Shippers are buying live turkeys in the Texas markets at 18c a pound, while in normal years the price rules around 10c there.

Locally the situation continues firm with 27c being obtained for all the better quality dressed birds. Receipts are fair for this time of the year, although the buying for the holiday will not start for some days.

While the trade is in much doubt as to where the bulk of the southern Oregon turkeys will be marketed for the Thanksgiving trade, it is believed that they will go to California.

However, indications poin: to good supplies at Portland and while there is expected to be sufficient for the general demand—there always is—it is believed that values will rule somewhat higher than normal. Some believe that the present market will hold; others believe it will move up. It's all a guess.

## Chicago Wheat Has Strong Tone at the Opening of Trading

By Joseph F. Pritchard.

Chicago, Nov. 21.—(I. N. S.)—There was a partial change in sentiment, not only on wheat but on the other grains, toward the close of the day. Many longs secured profits, and this selling caused price recessions all around. Resting spots for the day showed losses of ⅛ and ⅝c in wheat, ⅜ and 1¾c in corn and ⅛ and ⅜c in oats. Cash transactions were light, with sales at Chicago of 20,000 bushels wheat, 75,000 bushels corn and 230,000 bushels oats. There was heavy buying by foreigners in the Winnipeg market, which was up 2½c at one time, following an advance of ¾c on Monday.

Pork was 2½@4c higher to 2½c lower. Lard was 12½@15c lower, and ribs were unchanged.

Chicago, Nov. 21.—(I. N. S.)—The wheat market was strong today at the opening, as a result of bullish Argentine news and buying by commission houses. Prices ranging from ¼ to 1 cent higher than yesterday's close were easily attained as offerings were light.

Corn advanced rapidly after opening ¼ to ⅝ cent higher on buying by local traders and commission houses, who were influenced by the news from the Argentine.

Oats, in sympathy with other grains, advanced ¼ to ⅜ cent. Provisions were lower.

## EASTERN MARKET IS FRIMER AND HIGHER FOR APPLE SUPPLIES

**Smaller Shipments Being Made Because of Car Shortage—Portland Trade Getting Too Many by Water.**

Generally speaking there is a very firm tone in the apple trade all over the country. In the east values are steady to firm, and in some instances higher. Shipments are decreasing somewhat, and at some points a shortage of offerings is indicated because of the scarcity of cars.

What is giving the eastern trade concern is having just the opposite effect upon the Portland market. Shipments from Columbia river points to the Portland market are coming by river and are breaking all previous records.

While there is a small demand here for selected stock, with sales in a limited way as high as $2 a box, the bulk of the trade is in what is commonly called "cookers," which are selling from 75c to $1 a box. Above $1.25 the market's requirements are small.

## Excited Cotton Trade In New York Market

New York, Nov. 21.—(I. N. S.)—Another excited market ruled at the opening of the cotton market today, December starting 13 points higher, January 14 higher, while other options were unchanged to 2 points higher. Business was active, with room traders, southern interests and up-town operators the principal buyers. Liverpool also took moderate amounts. The selling pressure was large. New Orleans leading, with commission houses and Wall street interests following. The ginning report was considered a stand-off. After the call New Orleans became more insistent with its supply and selling orders from other sources came in large volume, causing declines of from 20 to 21 points from the initial levels.

Advances of about 11 points were recorded in Liverpool.
