

MISS COLBY IS FOUND GUILTY OF MURDER IN THE SECOND DEGREE

Verdict Against Montana Newspaper Woman Carries 10 to 12 Years in Prison.

Miss Edith Colby.

Thompson Falls, Mont., Dec. 6.—(I. N. S.)—Miss Edith Colby, newspaper woman, today was found guilty of murder in the second degree for shooting and killing A. C. Thomas, a politician, who she alleged insulted her. The verdict carries a penalty of 10 to 12 years imprisonment.

Following yesterday's session of the trial, which was marked by charges and counter charges of attorneys for the defense and prosecution, Miss Colby became hysterical, burst into wild laughter and collapsed into

unconsciousness, at which Chief Counsel for the Defense Milligan cried at Prosecutor Wheeler: "I hope she's dead; you'll be to blame."

WAR RISK INSURANCE BUREAU'S EXTENSION IS URGED BY M'ADOO

(Continued From Page One.)

continues after the date of expiration the liability to grant war risk insurance on American vessels and cargoes in American vessels will seriously injure the business and commerce of the country.

Reserve System Is Praised. High tribute is paid to the value of the federal reserve system, the report saying our great prosperity could not exist without it.

Under the new system created by the federal farm loan act, the farming industry and the farmer will receive inestimable benefits.

Referring to the pan-American financial congress in 1915 which met in Washington, the secretary says: "I cannot overestimate the value of these conferences in bringing about a better understanding and promoting in this practical manner friendly relations and enlarging trade and commerce with our southern neighbors."

Narcotic Act Needs Changes. There are several serious defects in the Harrison narcotic law, which has been in effect 16 months, in the opinion of McAdoo, and there is urgent need of remedial legislation.

A congressional appropriation is urged for repayment of fines paid by parties convicted under section 3 of the act, which was deprived of effectiveness by a decision of the supreme court. Treatment by the government of persons addicted to the use of drugs is also recommended.

The secretary recommends appropriations for a vigorous scientific study of infantile paralysis by the public health service as a preventive of further epidemics.

Separate Building Bills Favored. The secretary again expressed conviction that the omnibus bill method of construction of public buildings pursued by the government for the past 15 years has resulted in the construction of many public buildings in small towns and localities where their need is not justified by the cost and

requirements. He urges divorcing this question from all local or political considerations and separate measures to cover each building after proper investigation.

A new coast guard cutter is recommended for the Hatteras district. An increase in the rate of pay for the enlisted men in the service, says the report, is imperative.

Funds for the extension of the aviation branch of the service are asked of the present congress.

Exports for the year ending June 30 amounted to \$4,232,658,865, an increase of \$2,785,589,340 over the previous year, says the report. Imports amounted to \$2,197,833,510, an increase of \$184,000,000. Customs receipts totaled \$213,185,848.62, showing a healthy increase.

The estimate of receipts and disbursements for the fiscal year 1918, says the secretary, show that the existing laws will not provide sufficient revenues to take care of the unusual expenses of the government due, for the most part, to the large expenditures required by the army and navy for preparedness and estimated for the year at \$367,194,000.

Attention of congress is called to the necessity of passing such measures as will provide additional revenues to meet the situation.

Fortune Descends On Teller of Bank, Causing Injuries

Los Angeles, Dec. 6.—(P. N. S.)—Crushed under a third of a million dollars in gold, Austin E. Elliott, a bank teller, was today suffering from two mashed fingers and a severely bruised ankle. Elliott was removing the money from one vault to another when the truck overturned and he was almost buried under the gold.

Felix Diaz Has Been Found in Guatemala

Washington, Dec. 6.—(I. N. S.)—Secretary of State Lansing announced today that after a search of several months, state department officials had located Felix Diaz, Mexican anti-Carranza leader, in Guatemala, where he is preparing to invade Mexico and begin a new revolution. He was said to have approximately 1000 men at present.

A wide search for Diaz began last summer, following reports that Diaz was secretly supplying Francisco Villa with supplies to resist General Pershing's forces in Mexico.

Portland I. W. W. Centralia, Dec. 6.—Between 50 and 100 I. W. W.'s, on their way from Portland to Everett to attend the trial of the I. W. W.'s charged with murder, stopped off in Centralia early yesterday morning. The band was perfectly orderly, however. They ate at a local restaurant and then returned to the railroad yards, where they boarded a northbound freight.

WIRELESS RECORD OF 119 MILES FROM AN AEROPLANE IS MADE

Signal Corps Officer Also Sends First Message From One Plane to Another.

Washington, Dec. 6.—(I. N. S.)—Captain C. C. Culver of the army signal corps today holds the world's record for long distance sending of wireless messages from an aeroplane while in flight. The war department

announced that in recent trials on the Pacific coast Captain Culver sent and received messages 119 miles. The previous record is believed to have been 48 miles, recently established by a French aviator.

Captain Culver's record was made in a cross country flight from Los Angeles in a stock army aeroplane, equipped with a 150 watt sending machine. While flying over Santa Monica, wireless messages were exchanged with Dr. R. O. Shelton, an amateur wireless operator, at San Diego, Cal., 119 miles away. In later trials, Captain Culver, in a machine piloted by Lieutenant Herbert A. D'Argue of San Diego, made the first known successful attempt to send a wireless message to another aviator in flight. The message was received by Lieutenant William A. Robertson of the San Diego aviation training school, while flying a machine piloted by A. D. Smith. Messages were transmitted while the machines were more than two miles apart, and at an altitude of approximately 1000 feet.

Peace Talk Is Heard In Nation's Capital

Senator Says Colonel House Will Go to Europe as President's Representative Soon in Interest of Peace. Washington, Dec. 6.—(I. N. S.)—Senator William J. Stone, chairman of the foreign affairs committee of the senate, has accepted an invitation to address the western branch of the League to Enforce Peace at St. Louis on December 14. Former President William H. Taft also will speak at the St. Louis peace meeting. From sources usually reliable it was stated yesterday that Colonel House will go to Europe in the near future as President Wilson's special ambassador in the interests of peace. President Wilson, Senator Stone and others are known to have received a report which they credit, telling of the existence of a strong undercurrent of

peace sentiment in London, Paris and Rome. The information came from an American who has held a roving commission within the lines of the allies.
