

OREGON CHEESE TO BE SOLD AT THE EASTERN MARKETS

POTATO MARKET NOW SHOWING WIDE CALL; CALIFORNIA'S EASIER

Europe Is Bidding For Wheat Supplies In the Northwest

Keen Demand Shown in the Interior for All Sorts of Stock; More Ships Are Coming.

Southern State Would Try to Influence Trade Here But Other Sections of United States Are Bidding Wildly for Stocks.

While buyers are reported as paying as high as \$2.10 per cental for another limited supply of extra fancy potatoes, with the regular price for fancy at \$2 at country points, there are indications of an easier situation, although this may be a temporary affair.

Advice from California is to the effect that the price is going to an extreme mark, and that consumption will be greatly curtailed. Whether the California market will be strong enough to influence the price here remains to be seen. In normal seasons the western trade has much to do with Oregon and other western potato values, but the demand this year is so wide-spread all over the United States that there is some question as to whether the showing of weakness in California will have any depressing effect here.

The egg market is showing a very liberal demand for potatoes from other sections of the United States, the east and far south being constant bidders at extreme values now in effect.

THE EGG MARKET IS FIRMER
Firm tone is showing in the egg trade along the whole line, with slightly higher prices ruling. This is due entirely to the better demand for fresh offerings and the small holdings of storage goods. Sales case count at 35¢.

SALMON SELLS VERY FAST
A large shipment of Alaska king salmon, packed here was quickly disposed of at 15¢ a pound, the highest price ever known here except at the start of the season for one or two fish. Inland is firm.

ONION MARKET NOW FIRMER
Firm tone is showing in the onion trade along the whole line, with slightly higher prices ruling. This is due entirely to the better demand for fresh offerings and the small holdings of storage goods. Sales case count at 35¢.

APPLE TRADE IS VERY SLOW
Very slow trade is showing in the apple market, where the price is still finding little call at the moment. This is due to the fact that much inferior stock is being dumped here.

COUNTRY MEATS ARE HOLDING
While in some quarters slight weakness is indicated, the market for country meats is showing a favorable tone. Sales of veal are still reported as light at 14¢, but the price is moving at 14¢.

BRIEF NOTES OF THE TRADE
Dressed hogs firm and active at 10¢ for top. Chicken trade remains favorable at former prices. Market is showing a steady tone. Wool situation remains strong in the east.

SHIPPERS' WEATHER NOTICE
Weather bureau advises: Protect shipments of the next few days. Light rain, with a few clouds, at minimum temperature of about 40 degrees; northeast to southwest, 15 degrees; southeast to northwest, 15 degrees; light rain, 15 degrees; minimum temperature at Portland tonight about 30 degrees.

JOBING PRICES IN PORTLAND

These prices are those at which wholesalers sell to retailers, except as otherwise stated.
