European War. BUENOS AIRES—Twenty-three merchant ships have been sunk or captured by a new German raider whose exploits, revealed Wednesday, surpass any heretofore recorded in the world's naval history. The Teutonic commerce destroyer, believed to be the protected cruiser Vinta, probably eluded British patrols around Germany and swept from north to south across every Transatlantic ocean steamship pathway. Some of the survivors of vessels sunk by the raider, landed Wednesday at Pernambuco, had been aboard the raider 28 days—indicating that the raider must have been operating for at least four weeks. Probably she has been at large, roaming the seas, for six weeks or more. Buenos Aires—The list of victim vessels of the new German raider which swept the Atlantic during the past month was raised to 24 Thursday—with the possibility that it may reach 26. Two more merchantmen, one British and one French, are missing. They probably have been captured or sunk by the Teutonic sea terror. It was believed here. Buenos Aires—Not only the raider, now believed to be the Moeve, but two or more German commerce destroyers are still ploughing the sea somewhere around South America and by this time have probably taken further toll of allied shipping, it was declared here Friday. Washington—The British admiralty is working out a plan for the conveying of British merchantmen through Atlantic waters by fast cruisers and sea-going destroyers, it was learned Wednesday. London—The British admiralty announced Wednesday the sinking of eight British and two French merchantmen by a German raider. Berlin—A powerful offensive has been started by the Russo-Rumanian forces in the Rumanian theatre of war, it was stated Tuesday. London—Convinced that there is no prospect of a peace conference in the immediate future, the people of England are now turning their attention toward the next military enterprises which the allied war council is planning to launch. Petrograd—Russian forces have stormed and retaken the Rumanian city of Vandeni, Wednesday's official statement declared. London—The steamer Minnesota has been sunk in a collision. The Minnesota sails from London, flies the British flag, and displaces 3216 tons. The Minnesota sank by the head in a lock after a collision, it was stated Monday. Zurich—Carl Liebknecht, German Socialist leader, has been sentenced to 4 1/2 years' imprisonment at hard labor and expulsion from the bar, according to Berlin advices Monday. London—Russia is exerting such tremendous pressure on the German line south of Riga that it may conceivably have its effect on the German progress in Rumania. London—Defeat of the German forces on both wings and evacuation by the Teutons of Braila in Rumania, was announced in Petrograd dispatches via wireless press Thursday. Petrograd—Four hundred and twenty thousand German soldiers and 8770 German officers were captured by Russian troops during the year 1916, according to figures published by the Service Journal Friday in reviewing Russia's war achievements for the 12 months past. National Capital. WASHINGTON—Admiral George Dewey's death Tuesday evening removes one of the strongest men in American naval history. Although long retired from active service, Admiral Dewey had served as head of the naval board for a number of years. Washington—The summoning to

Washington of a group of the nation's most powerful financiers, headed by J. F. Morgan and F. A. Vanderbilt, to shed any possible light they may have as to how the advance news of President Wilson's peace note reached Wall street, was the big development of Tuesday's session of the "leak" investigation. Washington—Title to the Danish West Indies, latest territorial acquisition of the United States, formally passed from Denmark Wednesday when Secretary of State Lansing and Danish Minister Brug exchanged the ratifications of their respective governments, completing the transfer. Washington—Revenues, including bond issues totaling \$225,000,000, will be raised by means of an additional inheritance tax, an excess profits tax of 8 per cent on corporations and co-partnerships, and by bonus. Democrats of the house ways and means committee decided Tuesday. Washington—The supreme court Monday held that the Mann white slave law applies to non-commercial vice and is constitutional in upholding the lower court trial resulting in convictions of Maury I. Diggs, F. Drew Gaminetti and L. T. Hayes for violations of the law. Washington—The first move toward preparing for the withdrawal of the Pershing column was made Monday. In accordance with the tacit plan already agreed upon by the war department and General Carranza, de facto troops started moving in large numbers Monday to occupy the territory where General Pershing's men will be back her the United States by March 1, the war department announced Thursday. Washington—Farm production during the year 1916 broke all records with a total value of \$13,498,000,000, the department of agriculture announced Thursday. This amount is greater by \$2,674,000,000 than that of 1915, which was the former record, and shows an increase over the 1914 figures of \$6,554,000,000. General. TOKIO—The Japanese battle cruiser Tsukuba was sunk last Sunday in Yokosuka harbor by an explosion of her magazine, caused by fire. More than 153 men were killed and 157 injured. Dallas—Northern Texas was mantled under seven inches of snow Monday, the heaviest fall ever recorded for this section by the United States weather bureau. The snow was general over Oklahoma and northern Texas, and fell as far south as Austin and as far west as San Angelo. New York—George W. Perkins "blew the lid off" the Republican national committee's executive committee Tuesday in a lengthy statement, signed jointly with Everett Colby of New Jersey, declaring it was seeking to force retirement of National Chairman Wilcox, and trying to "shift responsibility for Mr. Hughes' defeat from their own shoulders—where it rightfully belongs—to those of Wilcox." Redding—The most spectacular eruption of Mount Lassen, California's active volcano, since the great out-

In Today's Photographs BURCHELL PUTNAM, the presidential elector designated by Maine to bring its election returns to Washington, is shown in the photograph above at the left handing the certified papers to Senator Willard Saulsbury of Maryland, president pro tem of the senate. On Mr. Putnam's right is Senator Johnson of Maine, and on his left is Senator Fernald, who succeeded the late Senator Burleigh. Standing next to Senator Saulsbury on the left is Mark Thistlewaite, secretary to the vice president. Most of the big gun positions are far behind the trenches. The photograph above in the middle shows the trench mortar in action in a French trench at Verdun. This is the big gun of the trenches. It is used in the first line trenches just a few yards away from the enemy. The plant of the Canadian Car and Foundry company, at Lyndhurst (Kingsland), near Rutherford, New Jersey, was wrecked and burned by a great explosion late in the afternoon of January 11. This firm was engaged in manufacturing munitions for the allies. The photograph above at the right shows the great column of smoke rising from the wrecked and burning plant and the shells bursting in the burning warehouses. Charges that embalmed beef is being fed the British soldiers in the trenches, was made by Captain Reginald Bertram, one of the 50 survivors of the Fighting Princess Patricia's own infantry, who arrived in this country recently on the St. Paul. Captain and Mrs. Bertram are shown below at the left. In the lower row is the photograph of a French sentry guarding shells near Verdun. These shells all have a manufacture date of the year 1914. This seems conclusive proof that the French have a large reserve supply of ammunition. Prince Golitzin who succeeds Alexander Trapoff as Russian premier, is the first prince who has ever served in this capacity. The prince is a writer of fiction and a poet. He was born in 1860. Representative William R. Wood (Republican of Indiana), who charges that Wall street profited by the president's peace note "leak," is shown below at the right.

Oregon. SALEM—Oswald West's honor system, decried by Governor Withycombe as "maudlin sentimentalism" at the beginning of the present administration, has come back into its own at the Oregon state penitentiary. Warden Murphy made this known Tuesday in asking the ways and means committee of the senate for an appropriation to carry out his improvements along this line. Gold Hill—By a vote of 17 for to 8 against the farmers of the Gold Hill and Foothills Creek districts created the Gold Hill Irrigation district. This vote gives the required 60 per cent of the votes cast. The land coming into the district embraces about 1300 acres lying along the south side of Hoogue river, in what is known as the River-side colony and Foothills district. Eugene—Coryell pass on the Pacific highway about four miles south of Eugene, will be marked with an iron plate by Lewis and Clark chapter, Daughters of the American Revolution, in the near future. This is in line with the plan recently inaugurated by the various chapters of this order to mark the pioneer trails of the state. Bend—J. Russell Christenson, who has been missing from his cabin on the steamer Jessie Harkins swamped the small boat in which the four were riding. The drowned man was Anthony Ambrose, aged 30, residing at 105 Revere street. The Dalles—Suit was filed in circuit court Thursday by G. E. Wilcox of Mosier, against the county court enjoining the court from issuing the \$250,000 good roads bonds voted at the November election. It is a friendly action. Portland. THE STRIKE Steel company was settled Tuesday. E. H. Meisner, representing the Metal Trades council, and J. R. Bowles, president of the plant, announced the reaching of a final understanding Tuesday morning. Charges of fraud and deceit on the part of officers and agents of the old Title Guarantee & Trust company, which went bankrupt in 1907, in refusing to account for and return real and personal properties valued at over \$150,000, are made by Jennie C. Natler, stated in a bill in equity to be filed by her Monday in the United States district court. Drinking the contents of a two-ounce bottle of poison, Charles F. Patton of a prominent pioneer family, living at 892 East Thirty-third street, ended his life last Sunday morning. Deputy Coroner Smith, who investigated, announced there would be no inquest. According to a preliminary report made by the roadmaster to the board of county commissioners there was expended on roads and bridges last year \$691,222.722.359. Floyd Fremont Loveland, an apprentice draftsman employed at the Smith

Watson Iron works, committed suicide, apparently about 5 o'clock Thursday morning, at the home of his brother, Ralph W. Loveland, 911 North-west street, by shooting himself through the forehead with an automatic pistol. A combination of red Italian wine and a trivial quarrel about whether or not to go home brought about the killing of Garnet Stark, 28 years old, a machinist, who resided at 1196 Rural avenue, Errol Heights, and the arrest of James Brusca, Italian laborer, on a charge of murder, early Monday morning. Seventeen districts were represented at the opening meeting of the Portland area which convened Tuesday morning at 10 o'clock at the First Methodist Episcopal church, Twelfth and Taylor streets. Of this number four represent the Oregon conference, five Puget sound conference, five Columbia river conference and three the foreign speaking conference. Orders for between 8,600,000 and 10,000,000 feet of lumber to be used in the construction of 1800 refrigerator cars for the Pacific Fruit Express are being placed by the Union Pacific system among the lumber mills of this territory. It was announced Wednesday by Harry E. Lounsbury, general freight agent of the O-W. R. & N. Co. One man lost his life and three more had narrow escapes from drowning Thursday morning when a swell from the steamer Jessie Harkins swamped the small boat in which the four were riding. The drowned man was Anthony Ambrose, aged 30, residing at 105 Revere street. sulting phenologist, examined the artist's printer's head back in 1901 and found it to measure nearly 2 1/2 inches around the "perceptive." A later examination showed that the lapse of years has increased the circumference more than a quarter of an inch. "This goes to prove that as the mind is exercised the brain and head are subject to a larger development," said Professor Severn. "This growth can continue after the subject has reached adult age."

fingers—no pain.

Are You Being Slowly Poisoned? The most eminent physicians recognize that uric acid stored up in the system is the cause of gout and rheumatism, that this uric acid poison is deposited in the joints, muscles or nerve-sheath. By experimenting and analysis at the Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric, which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric (double strength) at any drug store and get relief from the pains and ills brought about by uric acid. Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally, when the kidneys are deranged, the blood is filled with poisonous uric acid, which settles in the tissues of the feet, ankles, wrists or back as uric acid salts, or under the eyes in baglike formations. It is just as necessary to keep the kidneys acting properly as to keep the bowels active to rid the body of poisons. The very best possible way to take care of yourself is to take a glass of hot water before meals and an Anuric tablet. In this way it is readily dissolved with the food, picked up by the blood and finally reaches the kidneys, where it has a cleansing and tonic effect. Step into the drug store and ask for a 50-cent package of Anuric, or send Dr. Pierce 10 cents for trial package. Anuric—many times more potent than lithia, eliminates uric acid not water melts sugar. A short trial will convince you.

Washington—The summoning to

EATING MEAT REGULAR CLOGS THE KIDNEYS, THEN YOUR BACK HURTS
Flush your Kidneys occasionally with a tablespoonful of Salts to avoid danger.
Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of wa-
