

PROHIBITION ARE WARNED WORK IN OREGON IS BY NO MEANS ENDED

Continual Watch for Infractions of Bone Dry Law Must Be Kept, Assertion.

Advocates of prohibition were warned last night, in a "dry" rally at the Centenary church, that they must not consider their work done since Oregon has become bone dry. Speakers under the auspices of the Anti-Saloon league pointed out that the fight is in effect only begun and that there must be a continual watch for infractions of the law. A continued fight for national prohibition was also urged.

Mrs. Jennie Kemp, state president of the Women's Christian Temperance Union, who was actively engaged in the passage of the bone dry law at Salem, spoke of the work in the legislature necessary for securing the passage of the bill.

Dr. J. E. Anderson, representative from Wasco county, reviewed the new state prohibition bill and characterized it as a "thoroughly good, sane and workable bill, the best that could be framed under present conditions." J. F. Newell, of the Union dry committee, reviewed the campaign at the last election.

Dr. E. J. Moore, assistant general superintendent of the Anti-Saloon League of America, reviewed the campaign for national prohibition, and paid tribute to the Women's Christian Temperance Union in its activities against the saloon.

Postal Deposits Safe From Seizure

President Authorizes Statement That the United States Will Not Take Advantage of Situation in Event of War.

Washington, Feb. 21.—The severance of diplomatic relations with Germany February 3 caused some alarm among foreign-born depositors in a few cities that their postal savings deposits might be seized by the government in the event of war. Withdrawals increased temporarily at a few offices, which in other places deposits ran unusually heavy. Apprehension as to the safety of postal savings deposits was effectively allayed by the following announcement of the state department five days later:

It having been reported to him that there is anxiety in some quarters on the part of persons residing in this country who are the subjects of foreign states, that their bank deposits or other property should be seized in the event of war between the United States and a foreign nation, the president authorizes the statement that all such fears are entirely unfounded.

Keeper of Dolph Toll Gate Dies

William Baxter, pioneer of Willamette Valley, later developed Fine Farm in Tillamook County; buried at Salem, Willamette, Or., Feb. 21.—William Baxter, a pioneer of the Willamette valley, and for 30 years a resident of the Little Neck area at Dolph, died Wednesday last, and the remains were brought out last Friday by a son, Peter, and buried in the family lot in Salem. The trip to Willamette was made by team, and the rest of the way to Salem by automobile.

Mr. Baxter had a toll gate at Dolph until a short time ago. He went into the country in the early days, took up a government claim and developed one of the finest farms in Tillamook county.

Safe Milk For Infants & Invalids

A Nutritious Diet for All Ages. Keep Horlick's Always on Hand. Quick Lunch; Home or Office.

RAILWAY AUTO BUS PLACED IN OPERATION ON MT. HOOD LINE

Left to right—Ashley Wilson, superintendent Mount Hood railway; T. B. Neuhausen, F. I. Miller, Chas. T. Early, Fred A. Raach, Col. D. M. Dunne, A. C. Martin.

The new auto bus car which will be placed in the service of the Mount Hood railroad was taken to Hood River Monday, under its own power, over the rails of the O-W-R. & N. Co. In the party making the first run on the new car were Ashley Wilson, superintendent of the Mount Hood road; T. B. Neuhausen, F. I. Miller, Charles T. Early; Fred A. Raach, examiner state public service commission; Colonel D. M. Dunne and A. C. Martin, assistant general passenger agent of the O-W-R. & N. Co.

Demand for Finley's Wild Animal Life

State Biologist W. L. Finley is receiving many invitations to show his pictures in Eastern schools. William L. Finley's striking scenes of wild animal life in Oregon and Yellowstone park, with the scenic wonders of the west, caught by the cinematograph, together with his accompanying lectures, are in much demand by eastern schools and game protective associations. Among the invitations received by Mr. Finley to appear in the east are those from the National Geographic society, Minnesota Game Protective league, the Evansville, Ill., schools, the American Institute of Philadelphia, the Tremont Temple, Boston; the Springfield, Mass., schools, the Springfield Fish and Game association, the Worcester Game association, the New Bedford Game Protective league, and the Vermont Game association.

Mr. Finley has also been invited to give a series of three lectures at Columbia university, and lectures before the American Game Protective association, the American Institute of New York and the National Conservation congress. Mr. Finley is at present on a lecture itinerary which includes La Grande, Union and Cove. He will return by Thursday morning in time to appear at the Heilig theatre, under the auspices of the Portland Ad club, Thursday and Friday afternoon and night. It is being planned to give the children of the city schools an opportunity of seeing Mr. Finley's motion pictures at least one afternoon during their presentation at the Heilig.

MANNING OF SOUND WAR VESSELS WITH MILITIA IS EXPECTED

Regular Equipment Needed on Atlantic; P. R., L. & P. to Respond to Call Again.

Withdrawal of naval crews from Puget Sound to man war craft on the Atlantic seaboard, and the substitution of regular equipment on the sound with naval militia, is to be expected at almost any moment, according to officials here.

Should the Oregon Naval Militia be ordered into service the Portland Railway, Light & Power company will contribute five officials to its operating department as officers in the nation's first line of defense, as well as 15 employees to man the guns. Lieutenant, senior grade, George H. Jett, is production engineer; Lieutenant, senior grade, J. C. Dyer is cashier at the Saver Street barn; Ensign E. H. Le Tourneau is efficiency engineer; Ensign H. R. Wakeman is superintendent of the wires and conduits department; and Ensign Ronald T. Strons is engineer of the transportation department of the Portland Railway, Light & Power company. In addition to these officers the rolls show that 15 employees of the company belong to the naval militia.

Although the men in the company's employ seem to be of a peaceable nature when going about their work, there seems to be a militant strain that responds to any call. When the troops were ordered to the Mexican border 37 Portland Railway, Light & Power company employees donned the olive drab uniform. These men are all now returned and are either in their old jobs or will be as soon as mustered out of the government service.

Seattle Chooses Its Council Candidates

Seattle, Wash., Feb. 21.—(P. N. S.)—Complete returns in the councilmanic primary vote here yesterday placed Robert E. Hesketh, O. T. Erickson, W. D. Lane, C. Allen Dale, W. M. Calhoun and Byron Phelps on the final ticket to be voted March 6. Three of these will be elected.

Germans Move Art Treasures to Rear

The Hague, Feb. 21.—(U. P.)—Many art treasures in Alsace and Lorraine have suddenly been removed to the German cities of Stuttgart and Munich, on orders from German army headquarters, according to German newspapers received here today. The reasons were not stated.

Movies Blamed For Decadence Of Circus Clown

Chicago, Feb. 21.—(I. N. S.)—The days of the circus clown are numbered. Members of the Outdoor Showmen's league, in convention here, said so today. "We just can't get good clowns any more," said John Ward, president of the league. "We train them all winter, but they don't seem to be funny. We pay 'em \$200 and \$300 a week, and still they aren't funny. It's a mighty sad situation."

Lents Club Asks for Time to Make Walks

At a meeting of the Lents Improvement club Monday night a committee was appointed to request the postal officials to wait a month before sending an inspector to see if the sidewalks were in proper shape for carrier service. The people feel that within that time they can be fully prepared for such an inspection.

O. N. G. Signal Corps Aim of W. C. Parish

It is interesting electricians, radio and telegraph operators in the formation of such a unit in the Guard. W. C. Parrish, formerly of the United States naval academy, is interested in a number of electricians, radio and telegraph operators and others in the formation of a signal corps company of the Oregon National Guard. A number of men have pledged themselves to join.

3 Dead, Town on Fire; Gasoline Explosion

Muskogee, Okla., Feb. 21.—(I. N. S.)—Three persons are said to have been killed and several injured when a gasoline tank exploded in a store at Keefee, Oklahoma, at 5 o'clock yesterday afternoon. The town is reported burning. All wires are down. Calls for ambulances were received here over a railroad telegraph line. The explosion was heard over three counties.

ARTIFICIAL EYES

Special Announcement

Prof. Kohler will arrive March 5th, and appointments will now be made for the hours between 9:00 A. M. and 5:00 P. M., March 5th to 11th, inclusive—Monday to Sunday.

NOTE—We earnestly urge that all who are interested in securing artificial eyes either for themselves or for friends notify us at once to reserve time for them. The situation is such that the securing of satisfactory artificial eyes may soon become impossible; it is a German art, handed down in families from fathers to sons, and so many of these men were called to the war that not a single artificial eye has been sent to the United States since July, 1914; the supply in this country is now almost exhausted. Professor Kohler makes the best artificial eyes this country ever has had; his matching is simply wonderful. Those who take advantage of his visit will fortify themselves against possible future needs; those who neglect this opportunity run serious risk of being able to get only very inferior artificial eyes, repulsive to others and annoying to themselves—or, even worse, none at all!

Scat! I'm saving this for VELVET!

MOTHER NATURE Protects Your Tobacco IF You Smoke VELVET

She sees it that Velvet's mellowness and aroma are not created by artificial methods, but by her very own. That is—

A complete natural curing for two years, during which time the tobacco remains, untouched, in its original wooden hogsheads. At the end of two years it is made into Velvet and is as smooth as its name implies.

Men have tried—and will try—to beat this method by quick curing or artificial processes, but Mother Nature's way—the Velvet way—remains the very best.

It costs us more money to prepare Velvet in this way—it will cost you only 10 cents to prove Velvet, at the first store you come to!
