

HOOD RIVER PUTS BAN UPON JAMAICA GINGER AS 'BONE-DRY' TRIPPLE

Wholesale Amounts Are Sold by Grocery Stores to Single Purchasers, Is Report.

Hood River, Or., Feb. 22.—Mayor H. L. Dumble has placed a ban on the sale of Jamaica ginger, and other extracts containing a large per cent of alcohol, by grocery stores in wholesale quantities to single purchasers. It is expected that the judiciary committee of the city council will be asked to prepare an ordinance prohibiting their sale. It is stated that numerous cases of drunkenness have been reported among persons of both sexes who have imbibed too freely of the grocery store extracts.

The city council has authorized an appropriation of \$180 to be matched from the same fund on the state for the purpose of constructing a permanent dam across the east fork of Hood river below the railroad bridge. The purpose is to throw the entire stream into the west channel, enabling the fish to enter Hood River more easily. With a divided stream, as at present, it is almost impossible for fish to enter the river on account of the shallow water.
