A-B Sanitary Gas Ranges

Highest Development in the Stove Maker's Art Saves 25% on Your Gas Bills Awarded Gold Medal at San Francisco and San Diego Expositions

Reasons Why the A-B Leads

The A-B has more practical points in its favor than any other gas range made and it is actual comparisons that always result in the choosing of the famous A-B. Women who appreciate convenience, economy, service and beauty all decide in favor of the A-B.

The A-B is designed maximum convenience. The oven and broiler are elevated, eliminating the back breaking stooping. The oven is roomy, broiling pans are of white enamel or aluminum, making cleaning very easy. The burner grates are large with plenty of space, and the warming shelf is also extra large. The shelf lighter for all burners does away with matches.

\$5.00 for Your

By special arrangement with the A-B Stove Company we are permitted for a limited length of time to allow \$5.00 on any used gas range in exchange for an A-B Sanitary. Trade in your old range and have an A-B Sanitary installed.

and \$1 a week. These rugs are of superior weave and of the newest patterns.

Drapery Specials

The first cost of the A-B is less than many charge for inferior makes. The special constructions of the burners and mixers make gas consumption 25% less than usual. It is a fact that the saving in gas consumption will eventually pay for the range.

Sanitation in cooking is of vast importance and in every detail the A-B is made for absolute cleanliness. It has a fire enameled finish that can be wiped off with a damp cloth and which is always bright and clean. The canopy is tile lined, the broiler pan and dirt tray is of heavy white enamel. The oven liming is rust proof. All castings are smooth, no lodging place for dirt or germs.
