YEAR STUDENTS FROM **CONFERENCE SUCCESS**

One Year of Its Enforcement Proves Desirability of the Plan in Athletics,

MATERIAL IS DEVELOPED

Freshmen Turn Out for Class Teams However and Varsity Material Is Easily Detected.

Eugene, Or., March 10 .- The first year in which freshmen have been barred from varsity competition by the Pacific Coast Conference is now completed and so successfully has the system worked that there is practically no possibility of going back to the old order. Instead of minimizing, the bar against varsity competition has rather increased the importance of the yearling athletes.

Freshmen coaches are being hired by all of the conference colleges and fast teams developed without the chance of being disorganized through the drafting of the promising men for the first string list.

At Oregon the freshmen baseball nine last spring was the first one under the new regime and by the time for football to open in the fall plans had been worked out to place the teams of the first year class on a near varsity basis.

Coaches Successful,

Dean H. Walker, former Oregon Strowbridge of Washington high, rays of the calcium. quickly showed that they had the

veloped his team. Leslie of Coquille the center post. Starting out by defeating Eugene skill with the scatter gun. high and Chemawa by large scores, Walker's babes completed the season year's varsity may be recruited to

Freshmen Shine in Basketball. At basketball the freshmen did

better than their elders, defeating the Aggies in both games played. Bill Hayward had charge of the green cap basket shooters and lined up his team with Earl Leslie of Coquille at center, Fowler of Pendleton and Knuddron of Portland and Reinhart of Salem guards, while Ernie Boylen of Pendleton got in part of the action.

Now the freshmen are regularly getting out for track and the baseball twirlers are unlimbering in the gymnasium. The season is too young in bolds: Harold Christensen and Well are not addicted to water. To quote Kelly, "the ideal conditions for the Irish are dry ground in a wet present in 1908, and Drewius is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his touch the Kelly, "the ideal conditions for the Irish are dry ground in a wet present in 1908, and Drewius is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the van once again, for a winner in Pittsburg is yearning to see his club in the year in the year in the first are dry ground in a wet present in 1908, and Drewius is yearning to see his club in the year in the ketball regular, and a first place and well worth seeing.

amateur shooter, Cadwallder was ranked with the top-notchers and once clicked off a run of 267. As a professional, he has been averaging close to 96 per cent for several years. And then, like a bolt from the blue, it looked as if he had shot at his last arget—the sight of his right eye was

completely destroyed.

It was on April 16, 1916, that the ccident happened, on the grounds of the Decatur Gun club. Mr. Cadwallder was inspecting the traps, and was standing about six feet in front of one when the lever was pulled and the target struck him in the eye, taking the orb out of the socket. For 90 days Cadwallder was kept in a dark room. and a greater portion of that time it eye would be impaired. It was not.

Extra Rib on Gun. was a pleasure as well as a business, skill on the flying clays. He shot size job. from the left shoulder, and at once The fly realized that it would require several years of hard work before he could expect to make creditable scores shooting left handed.

Rules for Meet at Seattle Next Month Are Being Sent Out.

HAMMER THROW IS ADDED

May Compete in Each Track Event, 3 in Each Pield Number.

Oregon Agricultural College, Corval-

is, March 16. The proposed rules for

the initial coast conference track meet to be held at Seattle May 19 are now. being mailed to the different colleges concerned by Dr. A. D. Browne, O. A. C. physical director, who was named by the conference last December to draw up track and field regulations. The regulations must be accepted by he coast colleges before they go into effect, but, as Dr. Browne has consuited the views of the different athletic heads in drawing up the rules. there is little doubt that they will be used without material change this

New Scoring Eules.

Addition of the hammer throw to the list of events and the use of four places instead of three in counting points are the items which introduce innovations into northwest athletics Throwing the hammer was included because the event is already in use at California and Stanford, and because the event is generally used in other The proposed change in scoring is

ntended to give additional advantage to the well-balanced track team and fo reduce the scoring strength of a team with a few stars. First place will count 5 points, second place 3 points, third place 2 points and fourth place point. The inauguration of this practice would be to follow a custom which started and is in general use on the Atlantic coast, and which has been spreading through other sections in recent vears. Provision for trial heats in both the

hurdles and dashes is made, as each of the six colleges is permitted to enter two men, and it is impossible to provide 12 lanes on the Washington track. In the track events each college may register four men, but only start two; in the field events four may be registered, but not more than three take part in each event. No college is permitted more than 10 actual starters

Nuxated Iron Should Be Used in Every Hospital and Prescribed by Every Physician

It quickly enriches the blood, strengthens the nerves and puts most astonishing youthful power and vigor into the veins of both men and women. It often increases the strength and endurance of delicate, nervous, run-down folks 200 per cent in two weeks time.

Says Dr. Howard James, late of the United States Public Health Service.

Opinions of Dr. Ferdinand King, New York Medical Author, Dr. T. Alphonsus Wallace

and other physicians who have tested Nuxated Iron in their own private practice.

ew gymnasium and additional ground

prominent college teams, including

carrots, and lentils, when I came across Nuxated Iron, an elegant, ingenious preparation containing organic iron, which has no destructive action on the teeth—no corrosive effect on the stomach, and which is readily assimilated into the blood and quickly makes its presence felt by increased vigor, snap and staying power.

"Iron is absolutely necessary to enable your blood to change food intoliving tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron.

"As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away habit-forming drugs and nauseous concoctions and take simple Nuxated Iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart troubles, etc. The real and true cause which started their diseases was nothing more nor less than lack of iron in the blood.

"Thousands of people suffer from iron deficiency and do not know it.

"If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain that a series of the series It is reported C. K. G. Billings recently refused an offer of \$150,000 for Uhlan, the world's fastest trotter. Syracuse will give its \$10,000 purse for 2:12 trotters at its Grand Circuit Jack O'Brien, former middleweight pugilist, has opened an up-to-date gymnasium in Philadelphia. A hand-ball series has attracted 182 entries

John R. Gentry of "the great four" alone survives. Robert J was the first to pass, then Star Pointer and

In a very interesting and instructive discourse on the great value of pienty of iron in the hlood. Dr. Howard James, late of the United States public health service, said:

"A patient of mine remarked to me (after having been on a six weeks course of Nuxated Iron).

"Say, Doctor, that there stuff 's of a boy as full had been prescribing the various mineral saits of iron for years, only to meet complaints of discolored teeth. Jake been prescribing, the various mineral saits of iron for years, only to meet complaints of discolored teeth. Jake been prescribing the various mineral saits of iron for years, only to meet complaints of discolored teeth. Jake been prescribing the various mineral saits of iron for years, only to the conclusion that the only way to supply iron was to get the patient to eat very large quantities of spinach, carrots, and lentils, when I came across Nuxated Iron, an elegant, ingenious preparation containing organic to supply iron was to get the patient to eat very large quantities of spinach, carrots, and lentils, when I came across Nuxated Iron, an elegant, ingenious preparation containing organic to give him apreliminary examination to give him a preliminary examination. It was astonished to give him a preliminary examination. Dr. T. Alphonsus Wallace, a physical not with the pressure of the work."

Dr. T. Alphonsus Wallace, a physical not with the pressure of the work. The men of many years' experience in this country and who has been give many honorary titles in England, was next of 20, and of vigor, vigor, vigor, vigor, vigor, and the pressure of the work. The work was to give him a preliminary examination. Dr. T. Alphonsus Wallace, a physical not with the pressure of the work. The work was to give him a preliminary examination. Dr. T. Alphonsus Wallace, a physical not with the country and who has been give an opinion on Nuxated Iron. The pressure of the work was to give him

Dr. Howard James, late of United States Public Health Service, tells physicians he believes that more Nuxated Iron should be prescribed to meet the great problem of iron deficiency, with its attendent symptoms of weak-ness, nervousness, lack of vitality, paleness and generally rundown conditions. WARNS AGAINST USE OF ORDINARY MET-ALIC IRON so commonly taken by most people.

alone survives. Robert J was the first to pass, then Star Pointer and last week Joe Patchen. The death of the latter will bring sorrow to turf followers of 20 years ago, for the white-faced black pacer was a great favorite with race enthusiasts.

There is talk of arranging a special race for Joie Ray next summer over the two mile distance in order that he may go after Alfred Shrubb's record of 9 minutes 9 3-5 seconds made by the great English runner some years ago.

University of Syracuse baseball nine will play 29 games this year.

Owe it to yoursel to make the follows ing test: See how long you can work or how far you can walk without becoming tired. Next take two five great in taking iron—Nuxated Iron had filled known to druggats and wose for constituents or how far you can walk without becoming tired. Next take two five great the latter will bring sorrow to turf followers of 20 years ago, for the white-faced black pacer was a great favorite with race enthusiasts.

At 30, he was in bad health: at 46 he was in bad health: at 46 he was in bad health: at 46 he was for was in bad health: at 46 he was for was in bad health: at 46 he was in bad health: at 46 he was for latking iron—Nuxated Iron had filled that health of the wash in bad health: at 46 he was in bad he

with the country and who has been given many pressure honorary titles in England, was next of 20, and asked to give an opinion on Nuxated of vigor, Iron. Dr. Wallace said:

vital "I do not make a practice of recommendate a ct. a but I have found Nuxated Iron so poman he retent in nervous, run-down conditions, notwith this age. The The men and women of today need more iron in their blood than was the case 20 or 30 years ago. This, because of the demineralized diet which now is served daily in thousands of homes and also because of the demand for greater resistance necessary to offset greater resistance necessary to offset the greater number of health hazards to be met at every turn." The next to be consulted was Dr. Ferdinand King, a New York physician

and author, who said:

"I heartily concur in all that Dr.
James has said only in some respects
I would go further. Dr. James forgot
to mention how foods lose their fron
value by improper methods of cookery.
In the most common foods of America. In the most common foods of America. the starches, sugars, table syrups, can-dies, polished rice, white bread, soda, crackers, biscuits, macaroni, spaghetti, crackers, biscuits, macaroni, spagnett, tapico, sago, farina, degerminated corn meal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods and silly methods of

poverished foods and silly methods of home cookery, by throwing down the waste-pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. Therefore, if you wish to preserve most youthful vim and vigor to a ripe age, you must supply the iron deficiency in your food by using some form of organic iron—Nuxated Iron, just as you would use sait when your food has not enough sait."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases is not a patent medicine nor secret remedy, but one which is well known to druggists and whose ifon constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic from moduets, it is easily assimilated, does not incompanie.
