The event is to be held at Cottillion hall, and countless groups of intimate friends are making up dinner and supper parties for the evening, and will attend in a body. ## THURSDAY HAS COME TO BE LOOKED ON AS 'BETTER LIVING DAY'

Women of City Cordially Support Parent-Teachers to Combat H. C. L.

Thursday has come to be looked upon as "better living day," by hundreds of thrifty housewives of the city, who look for the list of special bargains in foodstuffs as prepared by the council of Parent-Teachers associations. Many women buy in considerable quantities, thus further assisting in the work of the council to lower cost of living and at the same time provide wholesome, nutritious meals.

Following is the list of specials for Thursday:

Apple Sauce, Spiced  
**DINNER**  
Baked Smelt, Baked Potatoes  
Boiled Turnips, buttered  
Lettuce Salad, Bread and Butter  
Caramel, Jellied Coffee or Tea

**Recipes Are Proven.**  
The following two recipes are from Mrs. A. Riggs and have been tried and found good:  
1. One pound steak—14 pounds steak, 1 carrot, 1 onion (if liked).

Method—Cut in pieces, pepper and salt each piece, dip in flour. Have some beef drippings smoking hot in stew pan, put in the steak and brown. When browned add water to make a gravy. Cut up the carrot or turnip or both, also the onion, simmer for 2 1/2 hours. Lumpings may be added, if not thicken the gravy with flour.  
2. Lumpings added about 20 minutes before serving and cooked in a hot oven (no cover over the pan) so they will brown nicely. This makes a very delicious and substantial dinner.

Graham goods—Two cups sugar, milk, 2 cups graham flour, 1 small teaspoon soda, 1 teaspoon salt, 1 tablespoon brown sugar, 1 tablespoon melted lard, 1 egg.  
Method—To the egg, well beaten, add the milk, then the sugar and salt. Next the graham flour with the soda mixed in and lastly the lard. Make a stiff batter that will drop, not pour, from the spoon. Bake 15 minutes in a hot oven.  
The following recipe comes from a woman in New York city who had seen copies of Portland Better Living menus and became interested:  
One can salmon, 1 quart of freshly boiled rice.  
Method—Place in casserole or baking dish a layer of rice, then one of salmon until all is used, pour over the whole 2 cups of cream sauce, bake 20 minutes and serve. This provides ample portions for six people.

## Old Court House Fence Is Taken by Thieves Piecemeal

The ornamental iron fence that once surrounded the old courthouse has disappeared from its storage place on the east side, according to a report made to the police Tuesday night by W. L. Nash, the owner.  
Sometime in the past month the last 15 sections of iron piping which had been stored at Marguerite avenue and Division street, were removed, while three months ago, the same thief, apparently stole the iron posts that had supported the fence.  
"I paid \$100 for that fence, and it was cheap at that," mourned the owner to City Detective Grimm Tuesday night.

## ITS POSITION IN PEACE AND WAR PRESENTED BY ORGANIZED LABOR

Deplores War but Should It Come It Will Stand Solid With Nation.

### MUST SAFEGUARD RIGHTS

Industrial Justice Is Sought and a Share in the Conduct of National Defense Will Be Claimed.

Regarded as the most important document ever issued by organized labor is the declaration of American labor's position in peace and in war, made through its representatives at a meeting in Washington early in the month. American labor deplores war, for wars have always borne hard on labor; but should war be America's lot, this declaration shows that all labor forces will be marshalled unreservedly in the nation's defense—industrially and through strength of arms. American labor states its position clearly and eloquently, making it plain that, in war as in peace, the rights of labor must be safeguarded. Organized labor, which will contribute so much to the conduct of the national defense, must have a voice in the conduct of the war. Cooperation between the government and the organized labor movement is essential if the problems of the hour are to be solved in the spirit of justice to all, says American labor.

**Must Have Directing Part.**  
Organized labor must have a directing part in the declaration, because labor has reached an understanding of its rights, powers and resources, of its value and contributions to society. In past wars, no matter how much labor has contributed, through lack of constructive policies and proper cooperation between government and labor, the wages earned have suffered. It is pointed out, and in a democratic country, cherishing ideals of liberty, national defense should not be an excuse for labor exploitation.

Dependence of the governments upon the masses of the people has been shown in the European war, says the declaration. In reason of this dependence the masses, which are represented by the organized labor movement, should have a voice in the conduct of the national defense.

**Industrial Justice Right of All.**  
"Industrial justice is the right of those living within our country," reads the declaration. "With this right is associated obligation. In war, as in peace, the government takes the form of service in defense of the republic against enemies."

"We recognize that this service may be either military or industrial—both essential for national defense. We hold this to be incontrovertible, that the government which has the right to demand and women give their labor-power, their bodies or their lives to its service should also demand, in the interest of these human beings, a share in all wealth and the products of human toil—property."

"We hold that if workers may be asked in time of national peril or emergency to give more exacting service than the principles of human welfare warrant, that service should be increased, that service should be increased, that service should be increased, and when the profits which the employer shall secure from the industry in which they are engaged have been limited to fixed percentages of production."

**Value of Freedom.**  
"We declare that such determination of profits should be based on costs of processes actually needed for production."

"The labor movement recognizes the value of freedom, and it knows that freedom and rights can be maintained only by the willing and active claims and defend their rights."  
"Our labor movement distrusts and protests against militarism because it knows that militarism robs the privilege and is the tool of special interests, exploiters and despots. But while it opposes militarism, it holds that it is the duty of nations to make aggressive against injustice and invasion."

"The menace of militarism arises through isolating the defensive functions of the state from civic agencies and from creating military agencies out of touch with masses of people."  
"The labor movement demands that a clear differentiation be made between military service for the nation and police duty, and that military service

## The Health Habit

(By DR. L. C. BOWERS)  
The late Elbert Hubbard once said: "Most people go thru life on a short allowance of good air and oxygen and too much food. Life is combustion. The digestive tract is the boiler. The value of exercise in the open air lies in the fact of getting a goodly draft of oxygen thru your system and this forced draft is both eliminating refuse and burning up slag."  
Breathe deeply when in the open air. Sleep in a room with windows open wide. Drink six or eight glasses of pure water daily, and keep well. But if one has been shut up within doors during the cold winter months, has eaten and drunk things which he should not, or if he has overworked in stale air, that person needs a general tonic and housecleaning. Especially is this so at this time of the year. For a tonic that will freshen up the blood, clean the digestive tract and put new force and vim into you, I know of nothing better than an alternative extract with glycerine, made from golden seal root, Oregon Grape root, Blood root, Stone root and Queen's root—and it contains no alcohol or narcotic, so is perfectly safe to take. This tonic has been sold for nearly forty years in the form of Dr. Pierce's Golden Medical Discovery. It can be had now in tablet as well as liquid form at most drug stores.

"When your kidneys feel like lumps of lead, when your back hurts, or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, ask your druggist for Anuric, double strength. I have found in practice that Anuric is more potent than Bibba, and in most cases it will dissolve the uric acid as hot water does sugar."

## FOR SHE'S TO BE QUEEN OF THE MAY

Miss Marian Stanford.

Albany, Or., March 21.—Miss Marion Stuart Stanford, of Albany, has been chosen by the student body of Albany college as May queen for the May day annual festival. This is one of the most important days in the year of college life at Albany college. The crowning of the queen takes place at 4 o'clock p. m., on the campus and is preceded by a banquet for a week's stay in the California cities. The matter has already been brought to the attention of the California business men through the Chamber of Commerce and favorably acted upon, and the committee this week will obtain such individual subscriptions as may be secured.

## Klamath Looks to South for Help

Klamath Falls, Or., March 21.—To secure financial assistance from the business houses of San Francisco and Sacramento, for the Strahorn railroad terminals here, a committee consisting of Carl A. Plath, Percy Evans, W. J. Roberts, Fred Houston and W. Paul Johnson left this morning for a week's stay in the California cities. The matter has already been brought to the attention of the California business men through the Chamber of Commerce and favorably acted upon, and the committee this week will obtain such individual subscriptions as may be secured.

**Thieves Rob Dr. Bettman.**  
The home of Dr. S. M. Bettman, 739 Kearney street, was entered by thieves some time Tuesday and two safety razors, a pair of silver cuff links and a diamond stickpin were stolen. Entrance was forced through a rear door. When Dr. Bettman reached home Tuesday evening he found pieces of adhesive tape on the windows and on the rear porch floor. Detectives La Salle and Leonard investigated.

should be carefully distinguished from service in industrial disputes.

**Differences in Services.**  
"We hold that industrial service shall be deemed equally meritorious as military service. The distinction between industrial and commercial service is upon a different basis from military service—the civic ideals still dominate. We should be recognized in mobilizing for this purpose. The same voluntary institutions that organized industrial, commercial and transportation workers in time of peace will bear the same of the same problems in time of war."

"It is fundamental, therefore, that a general cooperation with the American organized labor movement for this purpose. Service in government factories and private establishments in transportation agencies, all should conform to trade union standards."

"The guarantees of human conservation should be recognized in war as well as in peace. Wherever changes in the organization of industry are necessary upon a war basis, they should be made in accordance with plans agreed upon by representatives of the government and those employed in the industry. We recognize that in war, in certain employments requiring high skill, it is necessary to retain in industrial service the workers specially fitted therefor. In any eventuality when women may be employed we insist that equal pay for equal work shall prevail without regard to sex."

**Representation in All Agencies.**  
"Finally, to safeguard all the interests of the wage-earners organized in labor unions, we demand that on all agencies determining and administering policies for national defense. It is particularly important that organized labor should have representation on all boards authorized to control public utility during war times. The workers have suffered much injustice in war times by limitations on their right to speak freely and to secure publicity for their just grievances."

"Organized labor has earned the right to make these demands. It is the agency that in all countries stands for human rights and is the defender of the welfare and the interests of the masses of the people."  
**Found National Structure.**  
There follows a statement that a national structure that will stand the tests of the necessities of peace or war must be founded on principles of democracy and human welfare.

**In conclusion:**  
"We, the officers of the national and international trade unions of America, in national conference assembled, hereby pledge ourselves in peace or in war, in stress or in storm, to stand unreservedly by the holy name of Liberty, safety and the preservation of the institutions and ideals of our republic."

**Offer Aid in Every Field.**  
"From golden seal root and hopes should our country be drawn into the maelstrom of the European conflict, we, with these ideals of liberty and justice declared, as the indispensable basis for national policies, offer our services to our country in every field of activity to defend, safeguard and preserve the republic of the United States of America against the enemies whomsoever they may be, and we call upon our fellow workers and fellow citizens in the holy name of Labor, Justice, Freedom and humanity, devotedly and patriotically to give like service."

"This declaration of labor's position was made at the national convention held in Washington, March 21, some 100 presidents of and officers of national and international unions affiliated with the American Federation of Labor, heads of the four railroad brotherhoods, and others being present."
