

MOVEMENT OF SHIPS HEREAFTER WILL NOT BE GIVEN IN JOURNAL.

Request to This Effect From
Secretary of the Navy Will
Be Complied With.

LIVED UP TO FIRST ORDER

Request, Now Tantamount to an Order,
Has Been Renewed Because of Re-
peated Violations of the First.

Hereafter the Journal will not pub-
lish any news concerning the arrivals
and departures of ships from this or
any other port.

A request was received from Sec-
retary of the Navy Josephus Daniels that
such a step be taken and will be com-
plied with.

This paper was one of four on the
Pacific coast, others being the Chroni-
cle and Examiner in San Francisco, and
Tribune in Tacoma, to live up to the
lenient order permitting certain publi-
cations made by the secretary two
weeks ago.

Continued violations of this request
by other Portland papers, as well as
Atlantic and Pacific coast publications
caused the strict regulations to be is-
sued.

Secretary Daniels' request to the
papers follows:

"Every newspaper in America is ear-
nestly requested during the present pe-
riod not to print the arrivals or de-
partures of any ships in the coastwise
or international trade or of any naval
vessel. There seems to be some mis-
understanding. I may not have made
clear the request and at one time stated
it would be unobjectionable to print ar-
rivals. This statement is now made
as the formal request of the adminis-
tration, and I feel sure all papers will
comply and in the future make no men-
tion of movement of ships." (Signed)
"JOSEPHUS DANIELS."

Umatilla Man Has A Narrow Escape

Pendleton, Or., April 11.—Lester
Hurst, well known young dairyman,
is in the hospital here as the result
of an experience yesterday afternoon
which nearly cost him his life, and
which resulted in the drowning of two
mules and the loss of a load of wheat.
With a double team and load of
wheat, Hurst attempted to ford Mc-
Kay creek at his place, but the chan-
nel had been washed out by high
waters, and he dropped into a hole.
Horses, mules and driver
were carried down stream until the
wagon lodged against a log. Hurst's
leg was pinned between a wheel and
the log, and held in that position
for an hour until the current swung
the wagon around and released him.
Hurst was able to cut two horses
loose, but two mules were drowned.
Hurst's leg is mashed and bruised.

The Easiest Way To End Dandruff

There is one sure way that never
fails to remove dandruff completely
and that is to dissolve it. This dis-
solves it entirely. To do this, just
get about four ounces of plain, ordi-
nary liquid arvon; apply it at night
when retiring; use enough to moisten
the scalp and rub it in gently with the
finger-tips.

By morning most, if not all, of your
dandruff will be gone, and three or
four more applications will completely
dissolve and entirely destroy every
single sign and trace of it, no matter
how much dandruff you may have.

You will find, too, that all itching
and digging of the scalp will stop in-
stantly, and your hair will be fluffy,
lustrous, glossy, silky and soft, and
look and feel a hundred times better.
You can get liquid arvon at any drug
store. It freezes. Small bottles of
one ounce in all you will need. This
simple remedy has never been known
to fail.

Woods Respond to Call of Spring Springiest Sign--Nestbuilding--Is Here

By Ella McMunn.
With a dreary drizzle on Easter
promising seven soggy Sundays, and
with Monday's mist and Tuesday's
tempest, the owners of spring hats put
them back in their boxes pretty well
assured that they would be out of style
before there was any call for them. But
this morning when a warm wave fell
out of the almanac and laid a caress-
ing finger on the cold earth, there was
a noticeable revival of finery, of sud-
ded spirits and a "back to the land"
movement.

Gardens Get Fresh Attention.
Everybody went out and spaded up
his garden for the 'seventh time, the
same having been flattened, and com-
pressed, and soaked beyond all seem-
ance to a garden by the continuous
rain of many weeks. Only a few on-
ions whose strength enabled them to
withstand the chill of a late spring
could be seen waving green pipes above
the sod, with here and there a flabby
bunch of lettuce, that had been spar-
ing the weather, and a few radishes
told each other that they had never

seen such a backward spring; that the
peach trees should have been in bloom
in March, and that they had, on oc-
casions, bloomed in February, and that
the cherries should now be lifting their
snowy plumes to the sky. Only they
didn't say "snowy plumes." They said
they should be "out," and the pie plant
should be ready for use, and the spring
chickens all hatched, with their wing
feathers and their heads up, and their
grow, and that it was a month past
housecleaning time.

Western Union Men To Get Half Salary

Company Issues Billings That Members
of National Guard Will Receive Half
Pay for Period of One Year.
Manager Robb of the Portland of-
fice of the Western Union Telegraph
Co. today received advice of the fol-
lowing ruling by President Carlton:
"Employees members of the National
Guard when it was called out by the
president, and who have been in the
service for one year and over, will be
paid half their present salary while with
the colors (during a period of one year
unless extended by the company) pro-
vided that such half pay does not exceed
their present compensation. At the end
of such one year or extended period,
a position of equal salary equal to that
now paid will be open to each employe
affected. If pensions, insurance and
other benefits will apply to all such
employees."
Twelve local Western Union employe
s are now either with the army or
navy, and a number of others have
signified their willingness to go when
called by the navy.

Patriot or Alien? Who Stole Flag, Is Problem of Police

With more than ordinary inter-
est, police detectives today
are endeavoring to learn whether
an ardent patriot or an alien
enemy stole a large American
flag from the home of David
Berry, 509 Morrison street,
Tuesday.

The flag had just been pur-
chased, and was flying from a
highly ornamental gilded staff
in front of Mr. Berry's house.
That of the flag, the police
say, does not necessarily in-
dicate a case of disloyal vandalism.
Instead, it is rather their
opinion that an impostor
had appropriated this one,
and that the banner is now
floating in another part of the
city.

FOOD TRAIN WELCOMED.

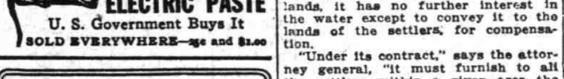

Hood River, Or., April 11.—The food
preparedness campaign, conducted by
the Union Pacific railroad system, un-
der the direction of the Oregon Agri-
culture Extension service, was
largely attended in Hood River by
citizens and public school children.
General Passenger Agent William M.
Murray, together with a corps of in-
structors from the O. P. C., accom-
panied the exhibit cars to Hood River.

A number of other local citizens
cashed checks for them, on the
strength of their "front," and their
statements that they were wealthy and
were here for the purpose of buying an
orchard.

URIC ACID IN MEAT BRINGS RHEUMATISM

Says a little Salts in water may
save your from dread
attack.
Rheumatism is easier to avoid than
to cure, states a well-known authority.
We are advised to dress warmly; keep
the feet dry; avoid exposure; eat less
meat; drink plenty of good water.
Rheumatism is a direct result of
eating too much meat and other rich
foods that produce uric acid which is
absorbed into the blood. It is the
function of the kidneys to filter this
acid from the blood and cast it out in
the urine; the pores of the skin are
also a means of freeing the blood of
this impurity. In damp and chilly
weather the skin pores are closed,
thus forcing the kidneys to do double
work, they become weak and sluggish
and fail to eliminate the uric acid
which keeps accumulating and circu-
lating through the system, eventually
settling in the joints and muscles,
causing stiffness, soreness and pain
called rheumatism.
At the first twinges of rheumatism
get from any pharmacy about four
ounces of Jad Salts; put a tablespoon-
ful in a glass of water and drink be-
fore breakfast each morning for a
week. He says and will shake down
as much as 10 per cent in a short
haul from the chutes where rock and
sand are delivered.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to
feel young—to do this you must watch
your liver and bowels—there's no need
of having a sallow complexion—dark
rings under your eyes—pimples—a bil-
ious look in your face—dull eyes with
no sparkle. Your doctor will tell you
ninety per cent of all sickness comes
from inactive bowels and liver.
Dr. Edwards, a well-known physician
in Ohio, perfected a vegetable com-
pound mixed with olive oil to act on
the liver and bowels, which he gave to
his patients for years.
Dr. Edwards' Olive Tablets, the sub-
stitute for calomel, are gentle in their
action, yet always effective. They bring
about that exuberance of spirit, that
natural buoyancy which should be en-
joyed by everyone, by toning up the
liver and clearing the system of im-
purities. You will know Dr. Edwards'
Olive Tablets by their olive color. 10c

at any drug store, pour a little in
your hand and rub well into the scalp.
After a few applications all dandruff
disappears and the hair stops comin-
g out.

RIGID EXAMINATION IS REQUIRED TO GET IN OFFICERS' RESERVE

Definite Scale for Physical
and Educational Qualifica-
tions Is Set in Inquiry.

DECIDE FITNESS IN CAMPS

Requirements in Officers' Reserve
Corps Are Set Forth by Capt. W.
F. Currier, U. S. A. at Vancouver.

Possession of necessary qualifica-
tions and ability to pass the required
examinations will govern largely in
the making of appointments to the
officers' reserve corps, according to
a statement given out at Vancouver
Barracks Tuesday.

Any impression that the examina-
tions are easy or, to receive a com-
mission, all one has to do is to apply,
offering letters of recommendation, is
erroneous.
Rigid Scale Set.
Application and credentials are
now being accepted, but because of
the rigid scale set down for the phys-
ical and educational examinations,
the examining board at Vancouver
will confine its work to 10 or 15 ap-
plicants each day. No further examina-
tions are to be given until reports
on the 89 applicants examined last
week are received. Papers when com-
pleted are sent to Washington.

Some instances have been reported
of misrepresentation in making ap-
plications and of attempts at faking
in physical examinations. Many are
now at Vancouver, it is said, with
the idea that letters of recommendation
from prominent citizens would be suf-
ficient to procure a commission.

Misrepresentations not discovered at
the time of examination are bound to
come to light in the officers' training
camps, which are to be formed soon.
It is pointed out, however, that phys-
ical and mental examinations will be held
during the periods of training.
Fitness of applicants to serve as
officers will be definitely decided upon
at the time of their training. Many are
really schools, and through an elimina-
tion process suitable material for
officers will be found.

Qualifications Required.
A statement of qualifications for
applicants for participation in the
reserve corps has been outlined by Captain
William P. Currier, U. S. A., stationed
at Vancouver, as follows:
Second lieutenant—Age limit 32
years; one year in regular army, or
three years National Guard, or one
year in National Guard with grade
above private, or two years' education
institute under regular army officer,
or three training camps, or those
without any military training, but
with educational and physical qualifi-
cations that are exceptionally good.
First lieutenant—Age limit 36
years; one year in regular army,
grade above private, or three years in
National Guard, or one year in
grade above corporal, or three years
educational institute under regular
army officer, one year of which grade
above private, or three training camps,
one camp of which grade above
private.

Captain—Age limit 40 years; one
year regular army, grade above cor-
poral, or three years in National
Guard, or three training camps, or
four years educational institute
under regular army officer, one
year of which as commissioned of-
ficer, or three training camps, one
camp of which grade above corporal.
Major—Age limit 45 years; one year
regular army, grade above sergeant,
or three years National Guard, grade
above private, or four years educa-
tional institute under regular army
officer, one year of which above first
lieutenant, or three training camps,
one camp performing the duties of
company commander.

"Pape's Diapepsin" relieves
stomach distress in
five minutes.

a sour, gassy or out-of-order stom-

acidity of the stomach.

There will be no sour risings, no
belching of undigested food mixed
with acid, no stomach gas or heart-

stomach, nausea, debilitating head-
aches or dizziness. This will all go,
and, besides, there will be no sour food
left over in your stomach to poison your
breath with nauseous odors.
Pape's Diapepsin helps to neutralize
the excessive acid in the stomach
which is causing the food fermenta-
tion and preventing proper digestion.

you at any drug store.

enough "Pape's Diapepsin" to usually
keep the entire family free from stom-
