workers of Germany to emerge from the war as a free state," the resolutions asserted "We demand the removal of all in-

equalities and the replacement of the bureaucratic regime by parliamentary control," the Socialists also asserted. "We reject the entente's declaration that a continuation of the war is necessary to force Germany to establish a liberal regime. It is the German people's own aim."

Austrian Socialists in attendance at the meeting likewise approved these resolutions.

The Overland Big Four-again improved and refined-is the car that built Overland. This car for nine years has undergone steady development and refinement with the help and advice of an army of owners which now totals over three hundred thousand. It should be, and we believe is,

especially notable for its balanced greatness.

The unprecedented accumulated experience in building this type of car has taught us true balance as nothing else could-the value of right weight-the right ratio of power to weight-the true tire, gasoline and oil economy-the utmost attainable riding comfort-the lines that truly express refinement and beauty.

It is produced under conditions which permit remarkable economies of administration, manufacture and distribution.

It should be, and we believe is, better value than any car of similar specifications.

The price is \$850 until May 1st-thereafter \$895.

The Light Six is the same model with changes conforming to approved six-cylinder construction and is likewise an excess value car at the price, \$985 until May 1st-thereafter \$1025.

These cars represent a safe purchase at a very considerable saving on a basis of comparative values.

Our April deliveries are limited.
