BROADWAY GARAGE FIRE DAMAGES THIRTY CARS; LOSS IS \$8000

Flames Starting From Charging Machine in Vulcanizing Room Spread Rapidly.

Fire in the Broadway garage, 364 East Twenty-fourth street north, Sunday night caused a loss of \$8000 to automobiles stored in the building.

The fire is supposed to have started from a charging machine in the vulcanizing room, where the blaze was discovered by Ed Morgan, a workman.

Of 25 automobiles in the place, 30 were damaged in varying degrees. According to Deputy Fire Marshal Roberts, the loss averages about \$250 a car.

Some of the cars were seriously damaged, while others were merely scorched.

The flames spread rapidly, sweeping through the building within a few minutes after its discovery.

The building, a one-story concrete structure, was not damaged to any extent. Insurance of \$2500 was carried on the building and \$5000 on tools and apparatus.

The garage is owned by the Oregon Garage company, of which L. W. James is president, W. J. Miles vice-president, and H. A. Parrott secretary.

This is the first fire of over \$1000 during the campaign of the fire marshal's office for a fireless month.

Phelan Is Managing Hotel at El Centro

William M. Phelan, formerly connected with the Oregon and other hotels of the city, has recently resigned his position as manager of the Hotel El Centro in Los Angeles and has taken over the management of the Barbara Worth hotel at El Centro, Cal., in the Imperial valley.

UNION DENTISTS

231 1/2 MORRISON COR. SECOND ENTIRE CORNER

We follow Nature's plan as closely as possible and set each tooth in a socket—the whole framework being anchored by the two more teeth remaining in the mouth.

You can use these teeth with as much comfort as you could those nature gave you in the beginning—and they will not cause you any pain or inconvenience.

In short, we give you a new set of teeth—use in just the same way you would use the teeth if a new set were to grow in your jaws.

Now, isn't that worth investigating? If you are suffering with a torturous "bridge" or a bothersome makeshift of a partial plate that you are wearing in your pocket half the time, isn't it worth your while to follow the lead of over 10,000 people who are enjoying good teeth and consequently good health?

You can have an examination of your teeth free of any charge or obligation by calling at our office.

UMATILLA COUNTY TO USE 7500 ACRES IN ROADWAY FOR WHEAT

Estimate Is That Space Will Grow Sufficient Grain to Feed 28,846 Persons.

Umatilla county citizens propose to narrow the roads of the county, thus adding 7500 acres of wheat land, which will be capable of producing enough grain to meet the cereal needs of every one of the population of 28,846.

Dr. C. J. Smith of Portland, in a letter to H. H. Ward, president of the Oregon Patriotic Service League, describes the plan as follows:

"Relative to our conversation a day or two ago, so far as food conservation is concerned, I want to call your attention to the proposed saving in Umatilla county. It is proposed to narrow the roads sufficiently to include 7500 acres more of wheat producing area.

"Reducing this to figures, we find that, on an average of 25 bushels to the acre, it would mean a yield of 187,500 bushels more. This divided by 6 1/2 bushels, the average consumption for the people in the United States, gives 28,846, which is just about the population of Umatilla county. Consequently, this method of conservation alone would feed all that county and allow the whole average production in times past to go to the world at large for food."

"The building, a one-story concrete structure, was not damaged to any extent. Insurance of \$2500 was carried on the building and \$5000 on tools and apparatus. The cars owned by the garage were also insured. Most of the other cars belonging to private parties were insured by the owners.

Engines 8, 13, 18 and 12, and truck 6, responded to the alarm. Engine 13, the first on the scene, succeeded in checking the flames.

The garage is owned by the Oregon Garage company, of which L. W. James is president, W. J. Miles vice-president, and H. A. Parrott secretary.

This is the first fire of over \$1000 during the campaign of the fire marshal's office for a fireless month.
